Nothing Wrong with a Three-Legged Dog

Summary

Keath and his best friend Lynda are in the fourth grade. Some kids call Lynda “Zebra” because her mother is black and her father is white. And Keath is “Whitey.” “He’s vanilla in a chocolate school” where Toothpick, a bully, has it in for him. Lynda and Keath both love dogs. Dogs don’t care about what color is the right one. Dogs don’t hate anybody. Their favorite dog is Leftovers, Lynda’s three-legged beagle. When he got hurt, his first owners gave up on him, but Lynda and Keath turn him into a winner, a pooch that shows Keath that sometimes it’s good to stand out, to be special, and that even when you look different, there are ways to fit in.

Requirements

- [Definitions Related to Name-Calling, Bullying and Bias](#) (optional)

Prompts for Writing and Discussion

Provided below are questions, [by chapter](#) or [by theme](#), related to the themes of bullying and bias that can be used for small or large group discussion, or to guide reflective writing.

[By Chapter]

Chapter One

- How does it make you feel when Keath and Lynda are called names because of their skin color?
- Why do you think some people feel threatened by racial differences or hate others because of their race?
- Keath uses sarcasm or humor to deal with Toothpick’s taunts. Lynda ignores it when she is called a zebra and thinks about the beauty of the real animal instead. Do you think these are effective ways to deal with bullying?

Chapter Two

- Larry explains that Ryan attacked Keath so that he wouldn’t be “the lowest worm on the food chain.” What does he mean by this?
- Does someone always have to be on the “top” or “bottom” when it comes to social life at school? What changes would help to make things more equal or balanced?

Chapter Three

- How do Keath and Larry “stand out” in their school? What makes kids “stand out” in your school?
- Is it a good thing or a bad thing “to stand out” in some way? How do those who are different get treated?
- Describe a time when you wished you could be a chameleon like Keath and blend into the background. Do you think that “disappearing” would have solved all of your problems?

Bullies and Mean Girls in Popular Culture Patrice A. Oppliger, 2013-10-03 The numerous anti bullying programs in schools across the United States have done little to reduce the number of reported bullying instances One reason for this is that little attention has been paid to the role of the media and popular culture in adolescents bullying and mean girl behavior This book addresses media role models in television film picture books and the Internet in the realm of bullying and relational aggression It highlights portrayals with unproductive strategies that lead to poor resolutions or no resolution at all Young viewers may learn ineffective even dangerous ways of handling aggressive situations Victims may feel discouraged when they are unable to handle the situation as easily as in media portrayals They may also feel their experiences are trivialized by comic portrayals Entertainment programming aimed particularly at adolescents often portray adults as incompetent or uncaring and include mean spirited teasing In addition overuse of the term bully and defining all bad behavior as bullying may dilute the term and trivialize the problem

Great Awakening we must undergo a personal transformation to raise our vibration and align with the Higher Self within each of us Frissell explores the forces working to advance our planetary ascent into higher consciousness as well as those seeking to block it He looks at the role of the Ancient Builder Race from Venus and at other ET races such as the Greys and the Draco Reptilians in our evolutionary development and technological advancements He exposes startling details of our Secret Space Program the New World Order and the Depopulation Agenda He explains how the precession of the equinoxes is directly influencing Earth's awakening and how the dance between the forces of darkness and light actually allows consciousness to evolve Frissell shares meditations tools and techniques to transmute the energies blocking access to your Higher Self and reveals how the infusion of higher dimensional energy is impacting planet Earth and each of us Unveiling the incoming new energetic configuration for the Earth he details how the Great Awakening is nothing less than the birth of a new humanity and how by raising your vibration you can help in the co creation of heaven on earth Brentano's Philosophical System Uriah Kriegel,2018-02-09 Uriah Kriegel presents a rich exploration of the philosophy of the great nineteenth century thinker Franz Brentano He locates Brentano at the crossroads where the Anglo American and continental European philosophical traditions diverged At the centre of this account of Brentano's philosophy is the connection between mind and reality Kriegel aims to develop Brentano's central ideas where they are overly programmatic or do not take into account philosophical developments that have taken place since Brentano's death a century ago and to offer a partial defense of Brentano's system as quite plausible and in any case extraordinarily creative and thought provoking Brentano's system grounds a complete metaphysics and value theory in a well developed philosophy of mind and accordingly the book is divided into three parts devoted to Brentano's philosophy of mind his metaphysics and his moral philosophy The book's fundamental ambition is to show how Brentano combines the clarity and precision of the analytic philosopher with the sweeping vision of the continental philosopher Brentano pays careful attention to important distinctions conscientiously defines key notions presents precise arguments for his claims judiciously considers potential objections and in general proceeds very methodically yet he does so not as an end in itself but as a means only His end is the crafting of a grand philosophical system in the classical sense attempting to produce nothing less than a unified theory of the true the good and the beautiful The Demands of Taste in Kant's Aesthetics Brent Kalar,2006-10-15 Typically philosophers have either viewed beauty as objective and judgments of beauty as universally valid or else they have viewed beauty as subjective and regarded judgments of beauty as merely private preferences Immanuel Kant is famous for his unique third path Kant argues that beauty is subjective but the judgment of taste about beauty is capable of universal validity In his view the beautiful is not a feature of objects themselves but merely represents the way we respond to objects Furthermore the judgment of taste about beauty is a merely aesthetic judgment i.e one based on a feeling of pleasure we take in the object The judgment of taste on the other hand possesses universal validity to call something beautiful is implicitly to demand that all others find it beautiful as well Kant's

views about the taste for the beautiful have long been the subject of controversy. Scholars have differed over the interpretation of the demand contained in a judgment of taste and whether Kant's attempt to legitimate this demand is successful. Brent Kalar argues that the demands of taste should be understood as involving a uniquely aesthetic normativity rooted in Kant's cognitive psychology. If the basis of aesthetic pleasure in the activity of the cognitive faculties is properly understood, then Kant's attempt to legitimate the demands of taste may be regarded as a success. This leads Kalar to give a new interpretation of the nature of the beautiful according to Kant that re-examines the relationship between free play and the form of purposiveness in Kant's aesthetics and restores the aesthetic ideas to their rightful centrality in Kant's theory.
