Chinese History in Economic Perspective Thomas G. Rawski,Lillian M. Li,2024-07-26 This volume marks a turning point in the study of Chinese economic history It arose from a realization that the economic history of China as opposed to the history of the Chinese economy had yet to be written Most histories of the Chinese economy whether by Western or Chinese scholars tend to view the economy in institutional or social terms In contrast the studies in this volume break new ground by systematically applying economic theory and methods to the study of China While demonstrating to historians the advantages of an economic perspective the contributors comprising both historians and economists offer important new insights concerning issues of long standing interest to both disciplines Part One on price behavior presents for the first time preliminary analyses of the incomparably rich and important grain price data from the imperial archives in Beijing and Taipei during the Qing Dynasty 1644 1911 These studies reveal long term trends in the Chinese economy since the seventeenth century and contain surprising discoveries about market integration the agricultural economy and demographic behavior in different regions of China The essays in Part Two on market response deal with different aspects of the economy of Republican China 1912 49 showing that markets for land labor and capital sometimes functioned as predicted by models of economic rationality but at other times behaved in ways that can be explained only by combining economic analysis with knowledge of political regional class and gender differences Based on new types of data they suggest novel interpretations of the Chinese economic experience The resulting collection is interdisciplinary scholarship of a high order which weaves together the analytic framework provided by economic theory and the rich texture of social phenomena gathered by accomplished historians This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1992 *People's Republic of China, Volumes I and II* Frank N.

Pieke, 2023-12-31 This title was first published in 2002 This two volume set collects in a conveniently accessible form the most influential articles by leading authorities in the study of China It provides an international reference work combined with an authoritative introduction by the editor *China in the Global Economy Agriculture in China and OECD Countries Past Policies and Future Challenges (OECD Proceedings)* OECD, 1999-08-26 The pace of growth in China's agricultural sector is remarkable Determining how this demand for food will be met requires a complex analytical framework whose parameters are the subject of an intense discussion These workshop proceedings provide a rich repository of material addressing the issue

Eating Bitterness Kimberley Ens Manning, Felix Wemheuer, 2011-01-01 When the Chinese Communist Party assumed power Mao Zedong declared that not even one person shall die of hunger A little over a decade later China was in the midst of the most devastating famine in modern history Between 1957 and 1962 the years commonly associated with Mao's Great Leap Forward some 30 million peasants died of starvation and exhaustion Rather than exploring why party leaders stumbled so badly in their attempts to modernize China the contributors to this landmark collection draw on newly available sources to show how men and women in rural and urban settings experienced the changes during this period Eating Bitterness lifts the curtain of officially propagated images of mass mobilization to expose the uneven and deeply contested nature of state society relations in Maoist China It also illuminates the role that history writing and memory have played in shaping narratives of the recent past

Southwest China in a Regional and Global Perspective (c.1600-1911), 2018-01-03 The book Southwest China in Regional and Global Perspectives c 1600 1911 is dedicated to important issues in society trade and local policy in the southwestern provinces of Yunnan Guizhou and Sichuan during the late phase of the Qing period It combines the methods of various disciplines to bring more light into the neglected history of a region that witnessed a faster population growth than any other region in China during that age The contributions to the volume analyse conflicts and arrangements in immigrant societies problems of environmental change the economic significance of copper as the most important export product topographical and legal obstacles in trade and transport specific problems in inter regional trade and the roots of modern transnational enterprise

The Columbia Guide to Modern Chinese History R. Keith Schoppa, 2000-08-05 China the world's oldest and most populous state remains an enigma to most people in the West even at a time when that country is playing an increasingly prominent role on the international stage At the heart of modern Chinese history have been the efforts of the Chinese people to transform their polity into a modern nation state the Confucian orthodoxy into an ideology that can help direct that process and an agrarian economy into an industrial one These efforts are ongoing and of great importance This book is both an introduction to the major features of modern Chinese history and a resource for researchers interested in virtually any topic relating to the Chinese experience of the last 220 years This valuable reference contains a historical narrative providing a comprehensive overview of five core aspects of Chinese history domestic politics society the economy the world of culture and thought and relations with the outside world a compendium of

250 short descriptive articles on key figures events and terms a resource guide containing approximately 500 annotated entries for the most authoritative sources for further research in English as well as descriptions of important films depicting modern China and a guide to electronic resources and appendices including a chronology excerpts from key primary source documents and a wealth of tables and graphs on demographic social and economic trends Revolutionary Transformations Anja Blanke, Julia C. Strauss, Klaus Mühlhahn, 2023-04-13 Using first hand material from Chinese archives that are no longer open to researchers and bringing together a leading team of international scholars this volume is a major contribution to the study of the People's Republic of China Calling into question existing narratives on the foundational decade of the PRC these essays present a nuanced consideration of China in the 1950s by integrating two periods that are often considered separately the relatively happy years 1949-1956 with the relatively unhappy years from 1957 onwards Exploring the challenges faced in constructing socialism the transnational context and early modes of PRC governance the contributors highlight the ways in which China was shaped by diversity on all levels and scales in how socialism was enacted and experienced These essays clearly demonstrate how the unevenness of Party control created discrepancies and variations between different regions and between the center and the locale

State or Merchant? Helen Dunstan, 2020-03-23 What did it mean to run a large commercialized agrarian polity according to the best Confucian principles This book is intended as a contribution to both intellectual and political history It is partly a study of how Confucian trained officials thought about the grain trade and the state's role in it particularly the ever normal granaries the stockpiles of grain maintained by every county government as protection against shortages and high prices The author investigates the scope and limits of belief in market forces among those critical of government intervention establishing that rudimentary economic arguments for state withdrawal from the grain trade were available by 1750 She then explores challenges from within the ruling apparatus to the state's claim that its own stockpiling served the public interest as well as the factors behind decisions in the mid and late 1740s to suspend or decrease state purchases of grain As a study of Confucian government in action this book describes a mode of public policy discussion far less dominated by the Confucian scriptures than one might expect As a contribution to intellectual history the work offers a detailed view of members of an ostensibly Confucian government pursuing divergent agendas around the question of state or merchant

Reconceptualizing the Industrial Revolution Jeff Horn, Leonard N Rosenband, Merritt Roe Smith, 2010-10-29 Closely linked essays examine distinctive national patterns of industrialization This collection of essays offers new perspectives on the Industrial Revolution as a global phenomenon The fifteen contributors go beyond the longstanding view of industrialization as a linear process marked by discrete stages Instead they examine a lengthy and creative period in the history of industrialization 1750 to 1914 reassessing the nature of and explanations for England's industrial primacy and comparing significant industrial developments in countries ranging from China to Brazil Each chapter explores a distinctive national production ecology a complex blend of natural resources demographic pressures cultural

impulses technological assets and commercial practices At the same time the chapters also reveal the portability of skilled workers and the permeability of political borders The Industrial Revolution comes to life in discussions of British eagerness for stylish middle class products the Enlightenment s contribution to European industrial growth early America s incremental rather than revolutionary industrialization the complex connections between Czarist and Stalinist periods of industrial change in Russia Japan s late and rapid turn to mechanized production and Brazil s industrial financial boom By exploring unique national patterns of industrialization as well as reciprocal exchanges and furtive borrowing among these states the book refreshes the discussion of early industrial transformations and raises issues still relevant in today s era of globalization

The Nature of Disaster in China Chris Courtney,2018-02-15 In 1931 China suffered a catastrophic flood that claimed millions of lives This was neither a natural nor human made disaster Rather it was created by an interaction between the environment and society Regular inundation had long been an integral feature of the ecology and culture of the middle Yangzi yet by the modern era floods had become humanitarian catastrophes Courtney describes how the ecological and economic effects of the 1931 flood pulse caused widespread famine and epidemics He takes readers into the inundated streets of Wuhan describing the terrifying and disorientating sensory environment He explains why locals believed that an angry Dragon King was causing the flood and explores how Japanese invasion and war with the Communists inhibited both official relief efforts and refugee coping strategies This innovative study offers the first in depth analysis of the 1931 flood and charts the evolution of one of China s most persistent environmental problems *Public Interest and State Legitimation* Wenkai He,2023-10-19 How were state formation and early modern politics shaped by the state s proclaimed obligation to domestic welfare Drawing on a wide range of historical scholarship and primary sources this book demonstrates that a public interest based discourse of state legitimation was common to early modern England Japan and China This normative platform served as a shared basis on which state and society could negotiate and collaborate over how to attain good governance through providing public goods such as famine relief and infrastructural facilities The terms of state legitimacy opened a limited yet significant political space for the ruled Through petitioning and protests subordinates could demand that the state fulfil its publicly proclaimed duty and redress welfare grievances Conflicts among diverse dimensions of public interest mobilized cross regional and cross sectoral collective petitions justified by the same norms of state legitimacy these petitions called for fundamental political reforms and transformed the nature of politics *Quest for Power* Stephen R. Halsey,2015-10-12 China s late imperial history has been framed as a long coda of decline played out during the Qing dynasty Reappraising this narrative Stephen Halsey traces the origins of China s current great power status to this so called decadent era when threats of war with European and Japanese empirestriggered innovative state building and statecraft *Catastrophe and Contention in Rural China* Ralph Thaxton,2008-05-05 Thaxton argues that the memory of the great famine under Mao shaped villagers resistance to the socialist state **Making China Modern** Klaus Mühlhahn,2019-01-14

Klaus M Hlhahn situates modern China in the nation's long dynamic tradition of overcoming adversity and weakness through creative adaptation a legacy of crisis and recovery that is apparent today in China's triumphs but also in its most worrisome trends M Hlhahn's panoramic survey rewrites the history of modern China for a new generation *China Marches West* Peter C Perdue, 2009-06-30 From about 1600 to 1800 the Qing empire of China expanded to unprecedented size Through astute diplomacy economic investment and a series of ambitious military campaigns into the heart of Central Eurasia the Manchu rulers defeated the Zunghar Mongols and brought all of modern Xinjiang and Mongolia under their control while gaining dominant influence in Tibet The China we know is a product of these vast conquests Peter C Perdue chronicles this little known story of China's expansion into the northwestern frontier Unlike previous Chinese dynasties the Qing achieved lasting domination over the eastern half of the Eurasian continent Rulers used forcible repression when faced with resistance but also aimed to win over subject peoples by peaceful means They invested heavily in the economic and administrative development of the frontier promoted trade networks and adapted ceremonies to the distinct regional cultures Perdue thus illuminates how China came to rule Central Eurasia and how it justifies that control what holds the Chinese nation together and how its relations with the Islamic world and Mongolia developed He offers valuable comparisons to other colonial empires and discusses the legacy left by China's frontier expansion The Beijing government today faces unrest on its frontiers from peoples who reject its autocratic rule At the same time China has launched an ambitious development program in its interior that in many ways echoes the old Qing policies *China Marches West* is a tour de force that will fundamentally alter the way we understand Central Eurasia **China Transformed** R. Bin Wong, 2018-10-18 The assumption still made in much social science research that Europe provides a universal model of development is fundamentally mistaken according to R Bin Wong The solution is not however simply to reject Eurocentric norms but to build complementary perspectives such as a Sinocentric one to evaluate current understandings of European developments A genuinely comparative perspective he argues will free China from wrong expectations and will allow those working on European problems to recognize the distinct character of Western development **Food Insecurity** Tamar Mayer, Molly D. Anderson, 2020-07-23 This book explores the experiences causes and consequences of food insecurity in different geographical regions and historical eras It highlights collective and political actions aimed at food sovereignty as solutions to mitigate suffering Despite global efforts to end hunger it persists and has even increased in some regions This book provides interdisciplinary and historical perspectives on the manifestations of food insecurity with case studies illustrating how people coped with violations of their rights during the war time deprivation in France the neoliberal incursions on food supply in Turkey Greece and Nicaragua as well as the consequences of radioactive contamination of farmland in Japan This edited collection adopts an analytical approach to understanding food insecurity by examining how the historical and political situations in different countries have resulted in an unfolding dialectic of food insecurity and resistance with the most marginalized people immigrants those in refugee camps

poor peasants and so forth consistently suffering the worst effects yet still maintaining agency to fight back The book tackles food insecurity on a local as well as a global scale and will thus be useful for a broad range of audiences including students scholars and the general public interested in studying food crises globalization and current global issues **State, Peasant, and Merchant in Qing Manchuria, 1644-1862** Christopher Mills Isett, 2007 This study seeks to lay bare the relationship between the sociopolitical structures that shaped peasant lives in Manchuria northeast China during the Qing dynasty and the development of that region s economy The book is written in three parts It begins with an analysis of the ideological political and economic interests of the Qing ruling house in defending its homeland in the northeast against occupation by non Manchus and examines how these interests informed state policy and the reconfiguration of the region s social landscape in the first decades of the dynasty The book then addresses how this agrarian configuration unraveled under challenge from settler peasant communities and gives an account of the resulting property and labor regimes The study ends with an account of how that social formation configured peasant economic behavior and in so doing established the limits of economic change and trade growth
