Nouveau Dictionnaire Des Synonymes:

Nouveau dictionnaire des synonymes français Antoine-Léandre Sardou, 1866 Nouveau dictionnaire des synonymes Émile Genouvrier, Claude Désirat, Tristan Hordé, 1986 Si l'on compare cet ouvrage son prédécesseur le dictionnaire des synonymes de la langue française 1971 de Ren Bailly on peut faire un certain nombre de remarques 1 Le nombre de pages diminue de 626 à 510 Cette diminution vient en partie du fait que les auteurs pensent que l'utilisateur connaît évidemment le sens du mot dont il recherche les synonymes et qu'en donner une définition est parfaitement inutile Bailly n'était pas de cet avis 2 Un certain nombre de mots usage restreint comme Zoologie ou brimborion ont été supprimés parce que les auteurs privilégient un niveau de langue le français écrit contemporain courant 3 un certain nombre de mots souvent familiers ou argotiques ont été ajoutés parce que les auteurs développant leur critique implicite de l'entreprise de Bailly refusent qu'un dictionnaire de synonymes ne soit rien qu'un aide-mémoire pour francophone trilingue cultivé 4 La structure de l'article est plus nette et la lisibilité meilleure grâce à une utilisation judicieuse de divers caractères d'imprimerie 5 La principale nouveauté formelle réside dans une division en deux parties d'une part les mots faisant l'objet d'un article d'autre part les mots recensés quelques oublis pris gouine impur un emploi oublié etc comme synonymes des précédents et figurant exclusivement dans le corps des articles Disons pour terminer que cet ouvrage didactique recense près de 20 000 mots et qu'il multiplie les renvois Il s'adresse au large public de l'enseignement étudiants et élèves francophones ainsi qu'aux étrangers désireux de perfectionner leur connaissance du lexique français SDM

Thematics Max M. Louwerse,Willie van Peer,2002-05-29 Themes play a central role in our everyday communication we have to know what a text is about in order to understand it Intended meaning cannot be understood without some knowledge of the underlying theme This book helps to define the concept of themes in texts and how they are structured in language use Much of the literature on Thematics is scattered over different disciplines literature psychology linguistics cognitive science which this detailed collection pulls together in one coherent overview The result is a new landmark for the study and understanding of themes in their everyday manifestation *A History of Roget's Thesaurus : Origins, Development, and Design* Werner Hülsen,2003-11-27 In 1852 Peter Mark Roget eclipsed a rich tradition of topically based dictionaries with the publication of his Thesaurus of English Words and Phrases Classified and Arranged so as to Facilitate the Expression of Ideas Based on intuition as much as on specific linguistic principles Roget's book has been a bestseller ever since and is one of the most widely used reference works ever published In this book Werner Hülsen gives the first history of its genesis and publication and investigates the principles of its structural design The author opens with an account of Roget's life and his background in natural science He then charts the parallel histories of dictionaries of synonyms and concepts within the general context of lexicography Synonymy he argues is a necessary feature of languages without which communication would be impossible He traces its theory and practice from Plato to the emergence of French and English synonym dictionaries in the seventeenth century Roget's was the first such book to be arranged by topic and the first to encompass the semantic network of the entire language The author examines the manner and method of its compilation the practical outcomes of the traditions on which it was based and the ways in which the Thesaurus reflects and reveals Roget's beliefs and background A History of Roget's Thesaurus will interest students and scholars of linguistics semantics and lexicography as well as anyone wishing to know more about a great literary achievement and an astonishing publishing phenomenon
