Living Death in Medieval French and English Literature Jane Gilbert, 2011-02-17 Medieval literature contains many figures caught at the interface between life and death the dead return to place demands on the living while the living foresee organize or desire their own deaths Jane Gilbert's original study examines the ways in which certain medieval literary texts both English and French use these living dead to think about existential ethical and political issues In doing so she shows powerful connections between works otherwise seen as quite disparate including Chaucer's Book of the Duchess and Legend of Good Women the Chanson de Roland and the poems of François Villon Written for researchers and advanced students of medieval French and English
