The Stargate Conspiracy Lynn Picknett, 2001-09-01 In recent years alternative historians have gained remarkable insight into the mysteries of ancient Egypt but according to Lynn Picknett and Clive Prince their discoveries tie into a dangerous conspiracy nearly fifty years in the making At the center of this conspiracy is a group of respected powerful individuals who believe that the ancient Egyptian gods are really extraterrestrials who will soon return to earth The conspirators have intimate and exclusive knowledge of this momentous second coming but they insist on keeping it to themselves What could be the purpose of such a conspiracy Why are the conspirators so desperate to keep their information a secret And what does it mean for mankind In this riveting well researched book Picknett and Price offer compelling evidence that the conspiracy exists and expose the insidious motivations of the individuals and organizations behind it Forbidden History J. Smith, 2018-01-30 Going beyond even the expertise of archaeologists and historians world class engineer Craig B Smith explores the planning and engineering behind the incredible Great Pyramid of Giza How would the ancient Egyptians have developed their building plans devised work schedules managed laborers solved specific design and engineering problems or even improvised on the job The answers are here along with dazzling one of a kind color photographs and beautiful hand drawn illustrations of tools materials and building techniques the ancient masters used In his foreword to the book Egypt s Undersecretary of State for the Giza Monuments Zahi Hawass explains the importance of

understanding the Great Pyramid as a straightforward construction project **Sticks, Stones, and Shadows** Martin Isler, 2001 What do the pyramids of Egypt really represent What could have driven so many to so great and often so dangerous an effort Was the motivation religious or practical Illustrated with more than 300 photographs and drawings this book presents an original approach to the subject of pyramid building It reveals the connection between devices that served both a practical need for survival and a spiritual belief in gods and goddesses It examines Egyptian technologies and techniques from the origins of pyramid development to the step by step details of how the ground was leveled how the site was oriented and how the stone was raised and placed to meet at a distant point in the sky Here the author also asks and answers questions virtually ignored for the last century He discloses for example the ancient use of shadows now denigrated to the ornamental back yard sundial but once an important tool for telling the height of an object geographical directions the seasons of the year and the time of day He also reinterprets the ancient stretching of the cord ceremony which once was thought to have only religious significance but here is shown as the means of establishing the sides of a pyramid Treasure Trackers Tim Tuck, 2002 **Precalculus with Trigonometry** Paul A. Foerster, 2003 Precalculus with Trigonometry Concepts and Applications *Zoomscape* Mitchell Schwarzer, 2004-03 Although a few among us are intrepid architectural tourists visiting buildings and landscapes our cameras at the ready most of us experience architecture through the windshield of a moving vehicle the architectural experience reduced to a blurry and momentary drive by And the rest of our architectural tourism is through the images of cameras movies and television programs that is through the lens of another eye Architectural historian Mitchell Schwarzer calls this new mediated architectural experience the zoomscape In this thought provoking book he argues that the perception of architecture has been fundamentally altered by the technologies of transportation and the camera we now look at buildings neighborhoods cities and even entire continents as we ride in trains cars and planes and or as we view photographs movies and television Zoomscape shows how we now perceive buildings and places at high speeds across great distances through edited and multiple reproductions Nowadays our views of the architectural landscape are modulated by the accelerator pedal and the remote control by studio production techniques and airplane flight paths Using examples from high art and popular culture from the novels of Don DeLillo to the opening credits of *The Sopranos* Mitchell Schwarzer shows that the zoomscape has brought about unprecedented and often marvelous new ways of perceiving the built environment **La historia prohibida** J.
