

Three men are standing side-by-side against a solid blue background. They are all wearing white jumpsuits with dark collars and cuffs. The man on the left is bald and looking slightly to his right. The man in the center has curly brown hair and is looking towards the right. The man on the right has short blonde hair and is smiling. Overlaid on the lower half of the image is the text 'Three Men and a Ballroom' in a stylized, 3D font. The words 'Three Men' and 'and a' are in a bold, sans-serif font, while 'Ballroom' is in a larger, cursive script font. The text is colored in a gradient of red, orange, and yellow, giving it a glowing appearance.

Chronicles the ill fated attempt by explorer Robert Falcon Scott and his four companions to reach the South Pole in 1912

1912 Chris Turney,2012-11-02 The South Pole discovered trumpeted the front page of The Daily Chronicle on March 8 1912 marking Roald Amundsen s triumph over the tragic Robert Scott Yet behind all the headlines there was a much bigger story Antarctica was awash with expeditions In 1912 five separate teams representing the old and new world were diligently embarking on scientific exploration beyond the edge of the known planet Their discoveries not only enthralled the world but changed our understanding of the planet forever Tales of endurance self sacrifice and technological innovation laid the foundations for modern scientific exploration and inspired future generations To celebrate the centenary of this groundbreaking work 1912 The Year the World Discovered Antarctica revisits the exploits of these different expeditions Looking beyond the personalities and drawing on his own polar experience Chris Turney shows how their discoveries marked the dawn of a new age in our understanding of the natural world He makes use of original and exclusive unpublished archival material and weaves in the latest scientific findings to show how we might reawaken the public s passion for discovery and exploration *The Longest Winter* Meredith Hooper,2012-10-16 Through the eyes of the men involved Meredith Hooper recounts one of the greatest tales of adventure and endurance which has often been overshadowed by the tragedy that befell Scott Their tents were torn their food was nearly finished and the ship had failed to pick up the members of Scott s Northern Party as planned Gale force winds blew bitter with the cold of approaching winter Stranded and desperate Lieutenant Victor

Campbell and his five companions faced disaster They burrowed inside a snowdrift digging an ice cave with no room to stand upright but space for six sleeping bags on the floor the three officers on one side the three seamen on the other Circumstances forced them closer together their roles blurred and a shared sense of reality emerged This mutual suffering made them indivisible and somehow they made it through the longest winter To the south the men waiting at headquarters knew that Scott and his Polar party must be dead and hoped that another six lives would not be added to the death toll Working from diaries journals and letters written by expedition members Meredith Hooper tells the intensely human story of Scott's other expedition
