John Fowles's Fiction and the Poetics of Postmodernism Mahmoud Salami, 1992 Salami presents for instance a critique of the self-conscious narrative of the diary form in *The Collector* the intertextual relations of the multiplicity of voices the problems of subjectivity the reader's position the politics of seduction ideology and history in *The Magus* and *The French Lieutenant's Woman* The book also analyzes the ways in which Fowles uses and abuses the short story genre in which enigmas remain enigmatic and the author disappears to leave the characters free to construct their own texts Salami centers for example on *A Maggot* which embodies the postmodernist technique of dialogical narrative the problem of narrativization of history and the explicitly political critique of both past and present in terms of social and religious dissent These political questions are also echoed in Fowles's nonfictional book *The Aristos* in which he strongly rejects the totalization of narratives and the materialization of society

How Novels Work John Mullan, 2008-02-14 Never has contemporary fiction been more widely discussed and passionately analysed recent years have seen a huge growth in the number of reading groups and in the interest of a non-academic readership in the discussion of how novels work Drawing on his weekly Guardian column *Elements of Fiction* John Mullan examines novels mostly of the last ten years many of which have become firm favourites with reading groups He reveals the rich resources of novelistic technique setting recent fiction alongside classics of the past Nick Hornby's adoption of a female narrator is compared to Daniel Defoe's Ian McEwan's use of weather is set against Austen's and Hardy's Carole Shield's chapter divisions are likened to Fanny Burney's Each section shows how some basic element of fiction is used Some topics like plot dialogue or location will appear familiar to most novel readers others metanarrative prolepsis amplification will open readers' eyes to new ways of understanding and appreciating the writer's craft *How Novels Work* explains how the pleasures of novel reading often come from the formal ingenuity of the novelist It is an entertaining and stimulating exploration of that ingenuity Addressed to anyone who is interested in the close reading of fiction it makes visible techniques and effects we are often only half-aware of as we read It shows that literary criticism is something that all fiction enthusiasts can do Contemporary novels discussed include Monica Ali's *Brick Lane* Martin Amis's *Money* Margaret Atwood's *The Blind Assassin* A.S. Byatt's *Possession* Jonathan Coe's *The Rotters Club* J.M. Coetzee's *Disgrace* Michael Cunningham's *The Hours* Don DeLillo's *Underworld* Michel Faber's *The Crimson Petal and the White* Ian Fleming's *From Russia with Love* Jonathan Franzen's *The Corrections* Mark Haddon's *The Curious Incident of the Dog in the Night-time* Patricia Highsmith's *Ripley*

Mikhail Bakhtin Gary Saul Morson, Caryl Emerson, 1990 Books about thinkers require a kind of unity that their thought may not possess This cautionary statement is especially applicable to Mikhail Bakhtin whose intellectual development displays a diversity of insights that cannot be easily integrated or accurately described in terms of a single overriding concern Indeed in a career spanning some sixty years he experienced both dramatic and gradual changes in his thinking returned to abandoned insights that he then developed in unexpected ways and worked through new ideas only loosely related to his earlier concerns Small wonder then that Bakhtin should have speculated on the relations among received notions of biography unity innovation and the creative process Unity with respect not only to individuals but also to art culture and the world generally is usually understood as conformity to an underlying structure or an overarching scheme Bakhtin believed that this idea of unity contradicts the possibility of true creativity For if everything conforms to a preexisting pattern then genuine development is reduced to mere discovery to a mere uncovering of something that in a strong sense is already there And yet Bakhtin accepted that some concept of unity was essential Without it the world ceases to make sense and creativity again disappears this time replaced by the purely aleatory There would again be no possibility of anything meaningfully new The grim truth of these two extremes was expressed well by Borges an inescapable labyrinth could consist of an infinite number of turns or of no turns at all Bakhtin attempted to rethink the concept of unity in order to allow for the possibility of genuine creativity The goal in his words was a nonmonologic unity in which real change or surprisingness is an essential component of the creative process As it happens such change was characteristic of Bakhtin's own thought which seems to have developed by continually diverging from his initial intentions Although it would not necessarily follow that the development of Bakhtin's thought corresponded to his ideas about unity and creativity we believe that in this case his ideas on nonmonologic unity are useful in understanding his own thought as well as that of other thinkers whose careers are comparably varied and productive

British Books, 1903 **Harry Potter's World Wide Influence** Diana Patterson, 2009-10-02 The Harry Potter series forms a single epic story that has been published in nearly 70 languages and has been examined in a large number of disciplines This collection of essays contributes to the scholarly discourse that forms Potter Studies These essays take on the consideration of Rowling's work as being worthy of study as a phenomenon and influence as well as a work of literary value They add genuine statistical information about the reasons for the books popularity consider their effects on child readers and examine some deep rooted reasons for their having been manipulated in American publishing in film adaptations in musical complements and in their thingification in popular culture around the world Some of these essays take on the critics of the books religion and considerations of psychological as well as philosophical good and evil and well as some stylistic anomalies The fact that scholars from China Germany Poland Romania and Israel in addition to English speaking nations have felt compelled to examine these books in detail testifies in part to Harry Potter's world wide influence *The Films of Werner Herzog* Timothy Corrigan, 2013-12-17 Given Herzog's own pronouncement that film is not the art of scholars but of illiterates it is not surprising that his work has aroused ambivalent and contradictory responses Visually and philosophically ambitious and at the same time provocatively eccentric Herzog's films have been greeted equally by extreme adulation and extreme condemnation Even as Herzog's rebellious images have gained him a reputation as a master of the German New Wave he has been attacked for indulging in a romantic naiveté and wilful self absorption To his hardest critics Herzog's films

appear as little more than Hollywood fantasies disguised as high seriousness This book is an attempt to illuminate these contradictions It gathers essays that focus from a variety of angles on Herzog and his work The contributors move beyond the myths of Herzog to investigate the merits of his work and its place in film history A challenging range of films is covered from Fata Morgana and Aguirre the Wrath of God to more recent features such as Nosferatu and Where the Green Ants Dream offering the reader ways of understanding why whatever the controversies surrounding Herzog and his films he remains a major and popular international filmmaker Originally published in 1986 **Narrative Form** Suzanne Keen, 2015-07-28 This revised and expanded handbook concisely introduces narrative form to advanced students of fiction and creative writing with refreshed references and new discussions of cognitive approaches to narrative nonfiction and narrative emotions The Contemporary British Historical Novel M. Boccardi, 2009-06-25 A detailed study of an increasingly popular genre this book offers readings of a group of significant and representative works drawing on a range of interpretative strategies to examine the ways in which the contemporary historical novel engages with questions of nation and identity to illuminate Britain's post imperial condition **Narrating the Self** Tomi Suzuki, 1996 Narrating the Self examines the historical formation of modern Japanese literature through a fundamental reassessment of its most characteristic form the I novel an autobiographical narrative thought to recount the details of the writer's personal life thinly veiled as fiction Closely analysing a range of texts from the late nineteenth century through to the present day the author argues that the I novel is not a given form of text that can be objectively identified but a historically constructed reading mode and cultural paradigm that not only regulated the production and reception of literary texts but also defined cultural identity and national tradition Instead of emphasising as others have the thematic and formal elements of novels traditionally placed in this category she explores the historical formation of a field of discourse in which the I novel was retroactively created and defined
