Novelist And Mammon Literary Responses To The World Of Commerce In The Nineteenth Century:

The Novelist and Mammon Norman Russell, 1986 This book breaks new ground by identifying and illustrating the realities of Victorian commercial life and examining the ways in which novelists like Dickens Thackeray and Trollope portrayed these realities in their fiction What exactly did Ebenezer Scrooge do for a living How much did Dickens really know about the Stock Exchange Why are stockbrokers the villains of so many of these novels In answering questions like these The Novelist and Mammon depicts a real world of frauds villains and rogues as fascinating as any to be found in the fiction of the day The Victorian Novel, Service Work, and the Nineteenth-Century Economy Joshua Gooch, 2015-08-13 This book offers a much needed study of the Victorian novel's role in representing and shaping the service sector's emergence Arguing that prior accounts of the novel's relation to the rise of finance have missed the emergence of a wider service sector it traces the effects of service work's many forms and class positions in the Victorian novel Victorian Literature and Finance Francis O'Gorman, 2007-03-22 This book analyses relationships between writing and the financial structures of the 19th century What emerges is a remarkable set of imaginative connections between literature and Victorian finance including women and the culture of investment the profits of a media age and the uncomfortable relationship between literary and financial capital

Ready to Trample on All Human Law Paul A. Jarvie, 2014-02-04 This book explores the relationship between Dickens's novels and the financial system Elements of Dickens's work form a critique of financial capitalism This critique is rooted in the difference between use value and exchange value and in the difference between productive circulations and mere accumulation In a money based society exchange value and accumulation dominate to the point where they infect even the most important and sacred relationships between parts of society and individuals This study explores Dickens's critique from two very different points of view The first is philosophical from Aristotle's distinction between chrematistic accumulation and economic use on money through Marx's focus on the teleology of capitalism as death The second view is that of nineteenth century financial journalism of City writers like David Morier Evans and M L Meason who while functioning as cheerleaders for financial capitalism also reflected some of the very real dis-ease associated with capital formation and accumulation The core concepts of this critique are constant in the novels but the critique broadens and becomes more pessimistic over time The ill effects of living in a money based society are presented more as the consequences of individual evil in earlier novels while in the later books they are depicted as systemic and pervasive Texts discussed include *Nicholas Nickleby* *A Christmas Carol* *Little Dorrit* and *Our Mutual Friend*

Unsettled Accounts Simon J. James, 2003-12-17 Simon J James examines how Gissing's work reveals an unhappy accommodation with money's underwriting of human existence and culture and how daily life in all its forms moral intellectual familial and erotic is transcended or made irrelevant by its commodification **The ghost story 1840-1920** Andrew Smith, 2013-01-18 *The ghost story 1840-1920* A cultural history examines the British ghost story within the political contexts of the long nineteenth century By relating the ghost story to economic national colonial and

gendered contexts it provides a critical re evaluation of the period The conjuring of a political discourse of spectrality during the nineteenth century enables a culturally sensitive reconsideration of the work of writers including Dickens Collins Charlotte Riddell Vernon Lee May Sinclair Kipling Le Fanu Henry James and M R James Additionally a chapter on the interpretation of spirit messages reveals how issues relating to textual analysis were implicated within a language of the spectral This book is the first full length study of the British ghost story in over 30 years and it will be of interest to academics graduate students and advanced undergraduates working on the Gothic literary studies historical studies critical theory and cultural studies

Literature and Ethics Daniel K. Jernigan, 2009 *Literature and Ethics* covers a wide gamut of literary periods and genres including essays on Victorian literature and modernism as well as several studies on narrative but the central ethos emerges from considerations of issues of responsibility and irresponsibility as they find expression in literary study and in ethics Students and academics who are interested in literary theory ethics narrative form and issues of authorial responsibility and how such matters inform the reading of literary texts will find that this collection offers a wide array of approaches and viewpoints by major figures from the relevant sub disciplines in literary studies The collection offers much timely critical observation on a variety of contemporary authors but also provides critically adventurous commentaries on Victorian literature and on Indian African Irish and Australian literature The volume assembles a collection of essays that would illustrate the great diversity of methods by which considerations of responsibility can and do offer insight into a range of literary texts and theoretical discourses while also making a contribution to the philosophical question of responsibility and irresponsibility in the contemporary world The collection as a whole testifies to the human fascination with issues of responsibility just as it testifies to the necessity of posing questions of responsibility as questions of ethics and literature the necessity of recognizing in other words that responsibility names a concept whose only ground is the history of those fictional narratives of responsibility and irresponsibility that modern civilization would do well to continue inventing and reflecting upon critically So whether ethical discourses find expression in theoretical debate or in and through the sophisticated fictions that constitute an imaginative culture what is clear both from wider discussions related to the value of literary texts that are such a central part of contemporary literary studies and from the varied and nuanced arguments that are made in this collection is that questions of responsibility are central to literature philosophy and the arts just as they are to the social realities that spawned them in the first place *Literature and Ethics* is an important book for all literature and literary theory collections It has specific resonance for students and teachers who are interested in the value of literary study and in questions of ethics and narrative

Going Astray Jeremy Tambling, 2018-10-08 Among the numerous books on Dickens's London *Going Astray* is unique in combining detailed topography and biography with close textual analysis and theoretically informed critiques of most of the novelist's major works In Jeremy Tambling's intriguing and illuminating synthesis the London A Z meets Nietzsche Benjamin and Derrida Rick Allen author of *The Moving Pageant* A Literary Sourcebook on

London Street Life 1700 1914 Dickens wrote so insistently about London its streets its people its unknown areas that certain parts of the city are forever haunted by him Going Astray Dickens and London looks at the novelist's delight in losing the self in the labyrinthine city and maps that interest onto the compulsion to go astray in writing Drawing on all Dickens published writings including the journalism but concentrating on the novels Jeremy Tambling considers the author's kaleidoscopic characterisations of London as prison and as legal centre as the heart of empire and of traumatic memory as the place of the uncanny as an old curiosity shop His study examines the relations between narrative and the city and explores how the metropolis encapsulates the problems of modernity for Dickens as well as suggesting the limits of representation Combining contemporary literary and cultural theory with historical maps photographs and contextual detail Jeremy Tambling's book is an indispensable guide to Dickens nineteenth century literature and the city itself *Palgrave Advances in Charles Dickens Studies* R. Patten, J. Bowen, 2005-11-30 Palgrave Advances in Charles Dickens Studies is a comprehensive and authoritative guide to the study of one of the most important Victorian novelists Its editors Robert L Patten and John Bowen are leading authorities on Dickens and the international team of contributors they have assembled contains some of the most exciting critics of nineteenth century fiction writing today The book covers the whole range of Dickens's writing and criticism about it including biographical theoretical and historical approaches It is based on up to the minute research and written in a lively and engaging way and will be essential reading for all students and scholars of this canonical writer W.M.Thackeray and the Mediated Text Richard Pearson, 2017-11-01 This title was first published in 2000 Thackeray's minor writings remain caught in a debate about what constitutes literature and whether magazine writing and journalism might be construed as such This debate was present during the inception of the mass periodical press in the 1830s when Thackeray began his career and forms part of the context of reasoning within and techniques of Thackeray's work Throughout his career Thackeray was enmeshed in critical arguments about periodicals novels realism and commercialism He was himself both and neither journalist and literary artist and was at once a product of and critical of emerging writing practices This book argues that an understanding of Thackeray's writings for periodicals and the literary and commercial context of these is central to an understanding of his literary achievement Focusing principally on the foundational part of his career from 1833 1847 but relating this to the novels particularly *Pendennis* and *The Adventures of Philip* and the *Cornhill Magazine* of the 1860s the book explores Thackeray's ambiguous response to the burgeoning periodical press and considers his negotiation and critique of the market place through a variety of publishing media **Dickens and the Business of Death** Claire Wood, 2015-03-05 Charles Dickens is famous for his deathbed scenes but these have rarely been examined within the context of his ambivalence towards the Victorian commodification of death Dickens repeatedly criticised ostentatious funeral and mourning customs and asserted the harmful consequences of treating the corpse as an object of speculation rather than sympathy At the same time he was fascinated by those who made a living from death and recognised that his authorial profits implicated

him in the same trade This book explores how Dickens turned mortality into the stuff of life and art as he navigated a thriving culture of death based consumption It surveys the diverse ways in which death became a business from body snatching undertaking and joint stock cemetery companies to the telling and selling of stories This broad study offers fresh perspectives on death in *The Old Curiosity Shop* and *Our Mutual Friend* and discusses lesser known works and textual illustrations

The Intersection of Material and Poetic Economy Anna Helm,2009 This work explores the intersection of the material and poetic economies in *Soll und Haben* and *Der Nachsommer* It demonstrates how the main poetical strategies of the two novels dichotomization *Soll und Haben* and total economization *Der Nachsommer* are defined by economic themes structures and forms The economopoetics of the novels i e the multitude of connections between economics and aesthetics pervades the texts on three different levels as content as representational model and as literary strategy Although very different in their treatment of topics relating to business and economics both novels are driven by narratives parsed with economic expression The diverging patterns of economopoetics support central commentaries on their underlying realist aesthetics One important finding is that in spite of money s apparent absence from the core content of some literary texts economic relations are inherent in the narrative structure of those texts The book shows that economopoetics is relevant not only to any extant literature which attempts explicitly to thematize business and economics such as *Soll und Haben* but also to that which does not such as *Der Nachsommer* Economic organizing principles are pervasive signatures of the novel s aesthetic

Victorian Literary Mesmerism ,2006-01-01 Victorian Literary Mesmerism examines the engagement between literature and mesmerism in Victorian writing Drawing on recent trends in interdisciplinary literary scholarship the essays collected here investigate the complex connections between scientific mesmerism its manifestations in the Victorian social and cultural world and the literary imagination Here for the first time the varied themes and contexts shaped by mesmeric practices are brought together in one volume Mesmerism s influence on phrenology medicine and mental health its interaction with the occult and with communication technologies the effects of mesmeric principles on gender and sexuality as well as on criminal behaviour are all set within the context of literary texts that interrogate and critique mesmerism s influence on the Victorians This volume will be of interest therefore to scholars of Victorian literature and the history of science as well as to those interested in cultural history with a focus on gender sexuality and sciences of the mind

Silver Fork Novels, 1826-1841 Vol 6 Harriet Devine Jump,Gary Kelly,2024-10-28 The novels in this collection present a vivid picture of late Regency society clinging to modes of behaviour which soon became obsolete and mark an important point of transition to Victorian cultural values

Print and Performance in the 1820s Angela Esterhammer,2020-02-20 Illuminates Britain s literary field during the 1820s as a decade of improvisation speculation and rapid cultural change

Figures of Finance Capitalism Borislav Knezevic,2004-03 *Figures of Finance Capitalism* brings into focus Victorian narratives by major middle class writers in which the workings of finance capitalism are prominently featured and reads this interest in finance

capitalism in the context of middle class misgivings about a class system still dominated by a patrician elite This book illustrates the centrality of finance capitalism to the mid Victorian middle class social imagination by discussing a selection of major Victorian texts by Dickens Gaskell Thackeray and Macaulay In so doing it draws on several new perspectives on British history as offered in the work of historians such as Tom Nairn David Cannadine and P J Cain and A G Hopkins Articulating the basic coordinates for a new sociology of mid Victorian literature Borislav Knezevic views texts through the prism of the mid Victorian literary field and its negotiations of the contemporary field of power *Guilty Money* Ranald C

Michie,2015-09-30 This is an engaging study of the place occupied by the City of London within British cultural life during the Victorian and Edwardian periods Michie uses both literary and popular novels to examine socio economic representations during this period **A Prescription for Murder** Angus McLaren,1995-06 McLaren develops a historiographical survey on

Victorian attitudes toward sexuality and morality and their relation to violence as he describes the story of Dr Thomas Cream Cream murdered prostitutes and women seeking abortions in England and North America between 1877 and 1892

Morality and the Market in Victorian Britain Geoffrey Russell Searle,1998 In this lively and interesting study G R Searle tackles the conundrum at the heart of Victorian life how could capitalist values be harmonized with Christian beliefs and with concepts of public morality and social duty Middle class Victorians who broadly welcomed industrial growth and embraced the doctrines of political economy were sensitive to the charge that theirs was a selfish and materialistic creed Consequently if public morality was to be reconciled with the market wage labour had to be distinguished from slavery investment from speculation and entrepreneurial acumen from dishonesty and fraud These ideas about citizenship and public virtue offered a greater challenge to rampant capitalism than any pressing need to alleviate poverty Through its exploration of Victorian values this book provides lessons for all those engaged in the present day debate about the moral and social consequences of unleashing free market forces George Eliot and the British Empire Nancy Henry,2002-01-17 In this study Nancy Henry

introduces a set of facts that place George Eliot s life and work within the contexts of mid nineteenth century British colonialism and imperialism Henry examines Eliot s roles as an investor in colonial stocks a parent to emigrant sons and a reader of colonial literature She highlights the importance of these contexts to our understanding of both Eliot s fiction and her situation within Victorian culture Henry argues that Eliot s decision to represent the empire only as it infiltrated the imaginations and domestic lives of her characters illuminates the nature of her Realism The book also re examines the assumptions of postcolonial criticism about Victorian fiction and its relation to empire
