SAMUEL JOHNSON (FOUNDED CHIEFLY UPON BOSWELL). ALEXANDER MAIN,1874 **The Human Meaning** Valentin Matcas,2017-04-20 Love and the Divine are the best meanings there can be just because love stands at the top of your feelings and you treasure the most while the Divine is everything that exists You cannot find anything beyond love and the

Divine capable enough to set your meaning in life and in this world simply because there is nothing else beyond them However there is significantly more to learn and understand about the human meaning just because as it is presented in this world today through science literature philosophy and through the rest of ideologies it is not enough You fail to understand the human meaning and this causes you to fail your own meaning in life and in this world at least your natural meaning as you receive it from Life and from the Divine Because the concept of meaning is presented to you empirically today you cannot understand it accurately in this manner but only through doctrine and beliefs you can never engage your reasoning in this manner in order to grasp accurately your own natural meaning your natural meaning is easily hijacked and everything is done on purpose to harm and exploit you In this manner you end up fulfilling consensually implemented meanings throughout life on behalf of the rich and the powerful of this world since they are the ones controlling ideologies and therefore consensual meanings in this world Not much that you do now counts for Life and for the Divine despite of what ideologies tell and promise and when you look back now you may see the kind of world that you create And do not blame the rich and the powerful of this world since you are the one doing everything for them Many times it is for your children that you struggle throughout life to make them happy to make them worthy and to make everything count because this is exactly your meaning in your family Yet can t it be the same in your community and in society Does it ever make a difference to have or not to have a specifically defined meaning in life and in this world Yes it certainly makes a difference because all meanings count even the slightest ones since they are connected And it is always a matter of identifying your meanings instead of fulfilling them unknowingly otherwise you end up working your entire life in vain While through your consensually induced meanings you end up working against the meanings of others deliberately or not living your life against your loved ones While they can certainly feel and this ruins entire relationships This is your consensual meaning in your family in society in life and in this world And so you end up living your life against yourself against your own natural meaning Throughout this book we follow identify define understand and model the human meaning genuine and consensual from all perspectives and in all contexts You learn about your meaning in life in this world in society within your family and genetic line within you own cognitive system within higher worlds and within everything that exists
