Subcommittee on Financial Institutions,1977 **What's Left Now?** Andrew Hindmoor,2018-01-26 Our sense of history shapes how we think about ourselves One of the distinguishing features of the left in Britain is that it holds to a remorselessly bleak and miserabilist view of our recent political history one in which Margaret Thatcher s election in 1979 marked the start of a still continuing fall from political grace made evident by the triumph of a free market get what you can neoliberal ideology dizzying levels of inequality social decay rampant individualism state authoritarianism and political corruption The left does not like what has happened to us and it does not like what we have become Andrew Hindmoor argues that this history is wrong and self harming It is wrong because Britain has in many respects become a more politically attractive and progressive country over the last few decades It is self harming because this bleak history undermines faith in politics Post Brexit post Grenfell and post the 2010 2015 and 2017 general elections things may not right now look that great But looked at over the longer haul Britain is a long way from being a posterchild for neoliberalism Left wing ideas and arguments have shaped and continue to shape our politics **I Want It Now** Donna Bee-Gates,2015-07-14 In today s world of mega stores and unbridled materialism people are spending more money than ever in an attempt to find fulfillment in themselves and children are no exception In her compelling and inspiring exploration of kids and consumerism Donna Bee Gates helps us all understand how a culture of instant gratification influences spending habits and erodes self worth She argues that placating

kids with material rewards is detrimental to social and psychological development Similarly she reveals that kids often seek out material goods as emotional compensation and fall prey to corporate strategies that lure them in as loyal consumers at an early age Bee Gates brings together cutting edge research and interviews to show that a healthy childhood sometimes means a simpler one one that values good communication and interaction with peers and family She highlights strategies to counter materialism and foster stronger identities in our children as they navigate a complex world and discusses ways that we can help build self awareness in children and encourage skills that will help them become adults with strong character and integrity

Foucault Now James Faubion,2014-02-27 Michel Foucault is recognized as one of the twentieth century s most influential thinkers however the authors in this volume contend that more use can be made of Foucault than has yet been done and that some of the uses to which Foucault has so far been put run the risk of and occasionally simply amount to misuse This interdisciplinary volume brings together a group of esteemed scholars recognized for their command of and insights into Foucault s oeuvre They demonstrate the many respects in which Foucault s project of an ontology of the present remains vital and continues to yield compelling insights and show that an ontology of the present is restricted to no particular terrain but instead ranges widely and on paths that frequently intersect The essays in this much needed new collection address the key components of Foucault s thought ranging from his approach to power biopolitics and parrhesia to analysis of key texts such as *Folie et D raison* and *Histoire de la sexualit* This collection will spark debate amongst students and scholars alike and demonstrates that that every further encounter with Foucault s corpus is more likely than not to demand a revisiting of interpretations already formulated conclusions already drawn uses already devised Contributors include Didier Eribon Eric Fassin John Forrester Ian Hacking Lynne Huffer Colin Koopman James Laidlaw Laurence McFalls Mariella Pandolfi Paul Rabinow and Cary Wolfe

Good White People Shannon Sullivan,2014-05-15 Argues for the necessity of a new ethos for middle class white anti racism Building on her book *Revealing Whiteness* Shannon Sullivan identifies a constellation of attitudes common among well meaning white liberals that she sums up as white middle class goodness an orientation she critiques for being more concerned with establishing anti racist bona fides than with confronting systematic racism and privilege Sullivan untangles the complex relationships between class and race in contemporary white identity and outlines four ways this orientation is expressed each serving to establish one's lack of racism the denigration of lower class white people as responsible for ongoing white racism the demonization of antebellum slaveholders an emphasis on colorblindness especially in the context of white childrearing and the cultivation of attitudes of white guilt shame and betrayal To move beyond these distancing strategies Sullivan argues white people need a new ethos that acknowledges and transforms their whiteness in the pursuit of racial justice rather than seeking a self righteous distance from it
