Now The Good News Participant:

And Now for the Good News Sue Ray, 2007-01-01 We've supersized our homes cars meals and our news With continuous TV Internet newspaper and radio coverage all that news time to fill we hear the same negative stories accompanied by the same negative images over and over and It's enough to leave us feeling hopeless The truth is this hyper bad news environment isn't giving us an accurate picture of our world If we were aware of all the individuals acting with generosity and even courage to help their communities and beyond the surprisingly positive trends regarding crime rates and international conflicts the many businesses and organizations getting creative and making the world a better place we'd see there's a whole lot to be optimistic about And Now for the Good News is an exploration of American news and media consumption and its effect on our individual and collective psyches But more than that it's a refreshing antidote to all the bad news with positive news and trends and helpful resources that will leave you feeling inspired and motivated Read it and share the good news especially with your kids they need some positive news too *Bad News, Good News* Douglas W. Maynard, 2003-05 When we share or receive good or bad news from ordinary events such as the birth of a child to public catastrophes such as 9 11 our old lives come to an end and suddenly we enter a new world In *Bad News Good News* Douglas W Maynard explores how we tell and hear such news and what's similar and different about our social experiences when the tidings are bad rather than good or vice versa Uncovering vocal and nonvocal patterns in everyday conversations clinics and other organizations Maynard shows practices by which people give and receive good or bad news how they come to realize the news and their new world how they suppress or express their emotions and how they construct social relationships through the sharing of news He also reveals the implications of his study for understanding public affairs in which transmitting news may influence society at large and he provides recommendations for professionals and others on how to deliver bad or good tidings more effectively For anyone who wants to understand the interactional facets of news delivery and receipt and their social implications *Bad News Good News* offers a wealth of scholarly insights and practical advice
