Nuclear Debate:

The Nuclear Power Debate Jerry W. Mansfield, 2019-03-28 Originally published in 1984 This annotated bibliography will serve as a starting point for information on the issue of nuclear power Arranged for easy use into three sections Pro Nuclear Anti Nuclear and Neutral the book cites over a hundred of the most important books on the subject offering for each full bibliographic data and a lengthy annotation that is balanced and informative This work which features author title and subject indexes is simultaneously a collection building tool a guide for non specialist library patrons and an invaluable aid for research

Nuclear Neighbourhoods J. Richard Eiser, Joop Pligt, Russell Spears, 1995 This divergence reflects the importance and value which supporters and opponents attach to different aspects of the issues and different consequences of any development A very important consideration is people's trust in the competence and commitment of industry and government to manage and prevent the risks of accidents

Nuclear Safety, 1978

India's Nuclear Bomb and National Security Karsten Frey, 2007-01-24 Karsten Frey gives an analytic account of the dynamics of India's nuclear build up putting forward a new comprehensive model which goes beyond the classic strategic model of accepting motives of arming behaviour and incorporates the dynamics in India's nuclear programme

The Nuclear Shadow over South Asia, 1947 to the Present Kaushik Roy, 2017-03-02 This collection of seminal articles illustrates the reasons for the spiraling nuclear race in the Asian subcontinent and introduces the principal debates in the field Authors discuss whether the acquisition of nuclear weapons by the South Asian powers has raised the likelihood of a nuclear war in the subcontinent or reduced the chance of a conventional war breaking out They examine whether a small nuclear arsenal or a nuclear triad as declared by India is suitable for bringing stability to the region as well as the risk of an accidental nuclear conflagration The first section charts the evolution of nuclear programmes on the basis of realpolitik and the second section analyses nuclear policies on the basis of religious and cultural ethos A few essays turn the spotlight on the role of external powers in accelerating decelerating and mediating the ongoing nuclear tension between India and Pakistan

The Nuclear Power Debate Scott Fenn, 1981

Non-Proliferation Stockholm International Peace Research Institute, 2020-11-19 Is the appearance of new nuclear weapon states inevitable Who are the sponsors and apologists of nuclear weapons and why are others in favour of renouncing them What are the implications for international security of the increasingly wide use of nuclear energy How can nuclear threats be defused Originally published in 1985 SIPRI's study suggests some answers to these questions The book examines the situation in a number of countries of key importance for non proliferation the two nuclear weapon states which have declined to join the 1968 Non Proliferation Treaty China and France a group of nuclear threshold states also remaining outside the Treaty Argentina Brazil India Israel Pakistan South Africa and Spain and a group of states both developed and developing which for various reasons have joined the Treaty Canada Egypt South Korea Sweden Switzerland and Taiwan The focus of the book is on motivations for and against nuclear proliferation An analysis of these

motivations leads the editor to make detailed recommendations aimed at halting the spread of nuclear weapons Appendices include a list of nuclear facilities in the countries studied specifying the degree of their coverage by international controls and other relevant documentation

Arms Control Kenneth W. Thompson, 1990 Many of the world's most influential policy makers and analysts view arms control as a scientific and technological problem They tend to ignore the human and qualitative aspects of power This book shifts the emphasis to elements bound up in the moral political and historical lessons of the nuclear age Non quantitative factors have been central to studies of national defense and military power since the rise of the modern nation state system One purpose of this collection of papers is to redirect attention to the moral political and historical lessons that the nuclear age presents What most distinguishes the writings of contributors to this volume is their use of certain well established principles and concepts long acknowledged in military and foreign policy analysis

The Rhetoric of Antinuclear Fiction Patrick Mannix, 1992 Given the ever present threat of world wide calamity that nuclear weapons present it is not surprising that they have fascinated fiction writers and filmmakers ever since their development Nor is it surprising that many of these artists would seek to use their work to influence mass opinion about these weapons What may be surprising is that few studies have been made of how antinuclear fiction actually attempts to persuade its audiences The Rhetoric of Antinuclear Fiction is an effort to do so Organized around the three traditional modes of rhetorical appeal the ethical the rational and the emotional the book describes and classifies the persuasive strategies of a wide range of antinuclear fiction from the period 1945 to 1989 Works examined include On the Beach Fail Safe A Canticle for Leibowitz Dr Strangelove The Day After War Day Testament Threads and Riddley Walker During the course of these studies Patrick Mannix reveals what sorts of fictional characters have been most widely used to deliver antinuclear messages and he follows the major arguments of the nuclear debate as they have been reflected in fiction He also shows which emotions are invoked most often to secure the audience's opposition to nuclear weapons and how those emotions have been generated by the creators of antinuclear fiction The range of characters that this volume examines includes the pacifistic but loyal Air Force general of Fail Safe the pious but shrewd monks of A Canticle for Leibowitz the suburban housewife of Threads and even the computer of War games which teaches humanity the folly of nuclear war We also follow fictional manifestations of the nuclear debate from veiled arguments for world government in The Day the Earth Stood Still through warnings of the dangers of Mutual Assured Destruction depicted by Fail Safe Dr Strangelove and Wargames to attacks on the concepts of limited nuclear war and the Strategic Defense Initiative in War Day This study also demonstrates the dynamic of fear in works as diverse as Ape and Essence The Day After and Them and dissects the powerful use of scorn in Dr Strangelove It also shows us the paradoxical role of hope in securing the effectiveness of antinuclear fiction While maintaining his focus on the persuasive nature of this literature Mannix does consider the aesthetic value of the fiction he studies noting that the relationship between the two elements is complex and often problematical While admitting

that the aesthetic elements of some works would limit their audience and therefore reduce the scope of their rhetorical effect he demonstrates how the skillful combination of artistic and rhetorical elements raises a film like Dr Strangelove above the similarly themed Fail Safe as both a persuasive act and an aesthetic artifact

Does India Negotiate? Karthik Nachiappan, 2019-09-13 India plays a key role in addressing multilateral issues like climate change terrorism piracy humanitarian crises and nuclear disarmament Scholarly work mapping India's multilateral behaviour ranges from covering the United Nations to a wide range of fora where India seeks to influence issues that affect its security and development Yet there has been no serious exploration of how India concretely negotiates international rules In this book Karthik Nachiappan investigates how India negotiated four key multilateral agreements The Framework Convention on Tobacco Control The Framework Convention on Climate Change The Comprehensive Test Ban Treaty and the Uruguay Round Trade Agreement Based on untapped primary sources including archival documents detailing how negotiations transpired official records of the Lok Sabha and Rajya Sabha a series of interviews with former Indian negotiators and newspaper sources Does India Negotiate demonstrates that India's multilateral behaviour is fundamentally strategic working to shape and ratify international rules that advance core interests while resisting rules that harm those interests

Japan's Remilitarisation Christopher W. Hughes, 2017-10-03 Is Japan on a path towards assuming a greater military role internationally or has the recent military normalisation ground to a halt since the premiership of Junichiro Koizumi In this book Christopher W Hughes assesses developments in defence expenditure civilmilitary relations domestic and international militaryindustrial complexes Japans procurement of regional and global power projection capabilities the expansion of USJapan cooperation and attitudes towards nuclear weapons constitutional revision and the use of military force In all of these areas dynamic and long term changes outweigh Japans short term political logjam over security policy Hughes argues that many post war constraints on Japans military role are still eroding and that Tokyo is moving towards a more assertive military role and strengthened USJapan cooperation Japans remilitarisation will boost its international security role and the dominance of the USJapan alliance in regional and global security affairs but will need to be carefully
