The European Union and National Defence Policy Jolyon Howorth, Anand Menon, 2005-08-18 Filling a surprising gap in existing studies this book addresses many of the unanswered questions surrounding the role of european integration in shaping national defence policy The impressive array of contributors consider the pressures on state policy emanating from the process of integration The book is divided into three distinct parts an outline of the tortuous history of attempts to link defence with European integration a study of the four larger member states France Germany Italy and the UK as well as a chapter on The Netherlands an analysis of the effects of the nuclear weapons and arms procurement policies This the second book in The State and the European Union series sheds light on an increasingly important and topical aspect of contemporary European security and will be essential reading for those studying European Politics Public Policy and International Relations

*The Origins of Energy and Environmental Policy in Europe* Thomas C. Hoerber, 2013 This book examines the development of a European

environmental conscience through successive steps of European integration in energy policy In the 1960s 70s the world was slowly beginning to realise that environment degradation was not sustainable With phenomena such as acid rain it became clear that pollution did not stop at national boundaries and the European environmental conscience developed in parallel to such growing environmental concerns The oil crisis in 1973 was a turning point in the integration process for both energy policy and environment policy and while further integration towards the European energy policy failed the environmental policies took shape in measures such as energy saving The Commission incorporated both energy and environmental policies into the EU policy canon and built an institutional framework responding to the insufficiency of national policy answers and the developing environmental conscience of the European people This book will be of interest to students and scholars of European Integration European Union politics and history and environmental politics and policy Foreign Policies of EU Member States Amelia Hadfield,Ian Manners,Richard G. Whitman,2017-06-14 Foreign Policies of EU Member States provides a clear and current overview of the motivations and outcomes of EU Member States regarding their foreign policy making within and beyond the EU It provides an in depth analysis of intra EU policy making and sheds light in an innovative and understandable way on the lesser known aspects of the inter EU and extra EU foreign policies of the twenty eight Member States The text has an innovative method of thematic organisation in which case study state profiles emerge via dominant foreign policy themes The text examines the three main policy challenges currently faced by the twenty eight Member States First EU Member States must cooperate within the mechanisms of the EU including the Common Foreign and Security Policy CFSP Second EU Member States continue to construct their own inter EU foreign policies Third the sovereign prerogative exercised by all EU Member States is to construct their own foreign policies on everything from trade and defence with the rest of the world This combination of clarity thematic structure and empirical case studies make this an ideal textbook for all upper level students of European foreign policy comparative European politics and European studies

*EU Policies in a Global Perspective* Gerda Falkner,Patrick Müller,2013-11-20 Recent decades have seen a rise in the significance of governance layers beyond the nation state and even Europe Nonetheless few efforts have been made thus far to systematically examine the EU s interaction with global policy regimes This book maps the relative importance of EU policies in the multi level global governance system in comparison with national and global activities It provides a unique comparative analysis of the EU s capacity for projecting its policies outward Focusing on trade policy agriculture food safety competition social rights environmental policy transport migration nuclear non proliferation or financial regulation each chapter contributes to a better understanding of the EU s role in shaping global policies the mechanisms it uses and the conditions leading to success or failure The contributors comparative research highlights that policy export is a demanding phenomenon that faces severe limitations and frequently comes with drawbacks Still EU policy export played a key role in shaping the rules of the global trade regime and influenced global policy outcomes at least to a minor extent or in technical

aspects in the majority of the covered policy areas Overall however this book reveals that the EU not only aims to export its policies but interacts with its global environment in a number of distinct ways including policy import and policy protection to shield it from global pressures Concluding with a comparison of all policies on the meta level and relevant policy recommendations this book will be of interest to students scholars and practitioners of European politics European public policy global governance and international relations *The EU and the Non-Proliferation of Nuclear Weapons* S.
