Nuclear Weapons The Way Ahead:

Nuclear Weapons Ronald Gaskell, 1982 *Hotter Than the Sun: Time to Abolish Nuclear Weapons* Scott Horton, 2022-07-09 This book contains interviews conducted over more than a decade with experts of all descriptions including Daniel Ellsberg Seymour Hersh Gar Alperovitz Hans Kristensen Gordon Prather Joe Cirincione and more about the threat of nuclear war between major and minor powers the nuclear arms industrial complex the nuclear programs and weapons of the so called rogue states of Iraq Iran Syria Israel and North Korea the bitter truths and eternal lessons of America's nuclear bombing of Japan in World War II and the dedicated activists working to abolish the bomb for all time

Peaceworks, 1995 *The Road Ahead* Flynt Leverett, 2005-11-01 The war on terror and the battle in Iraq provided the framework for George W Bush's first term in office As he embarked on a second term the president reaffirmed his administration's commitment to a transformative Middle East agenda that now includes the challenges of promoting democracy non proliferation and Israeli Palestinian peace The Saban Center at the Brookings Institution commissioned a group of its experts to critique the Bush administration's first term performance and present alternative approaches for its second term The Road Ahead covers the full set of challenges confronting President Bush in his second term from fighting Bin Ladenism to promoting Arab reform from achieving Middle East peace to saving Iraq and from tackling Iran to engaging Syria and Saudi Arabia The contributors argue that the Bush administration will need to develop an integrated Middle East strategy that improves the prospects for achieving a priority identified during the 2004 presidential campaign strengthening alliances and utilizing them to ease the burden on American leadership The Road Ahead provides the necessary elements for a genuinely integrated strategic framework that will help decisionmakers manage both the changes and the continuities in America's post 9 11 Middle East policy Contributors Martin Indyk Flynt Leverett Kenneth Pollack James Steinberg Shibley Telhami and Tamara Cofman Wittes all connected with the Saban Center at the Brookings Institution A Saban Center Report

United States. Congress. House. Committee on International Relations. Subcommittee on International Security and Scientific Affairs,1975

Disarmament under International Law John Kierulf,2017-01-01 Russia s annexation of Crimea and involvement in the conflict in eastern Ukraine has in many respects set back post Cold War improved relations between Russia the United States and Europe The continued war in Syria threatens the security and stability of many countries in the Middle East and attacks by ISIS and other terrorist organizations are causing increased fear and instability in Iraq and in neighbouring countries In many areas negotiations on disarmament and arms control are at a standstill In *Disarmament under International Law* John Kierulf examines and discusses how disarmament arms control and non proliferation of both conventional weapons and weapons of mass destruction are regulated in existing treaties and conventions From his perspective as a former disarmament negotiator Kierulf explains the United Nations disarmament machinery and procedures and describes the UN s essential role in promoting disarmament Underlining the continued and serious threat posed by nuclear weapons Kierulf appeals for increased and effective international efforts to reduce their number and ultimately eliminate them Presenting information and analysis on a comprehensive range of issues *Disarmament under International*

Law is an essential guide for anyone interested in gaining knowledge about the current state of international security

Towards A War-free World: Annals Of Pugwash 1994 Joseph Rotblat, 1995-10-31 The book focuses on subjects of nuclear disarmament the reduction and control of conventional weapons the arms trade future roles of the UN regional confidence building measures global governance sustainable use of resources and ethical challenges in the modern era all of which related to the ultimate goal of eliminating war

New Nukes Praful Bidwai, Achin Vanaik, 2000 Nuclear tests in India and Pakistan brought the threat of nuclear war back to the world's centre stage The tests and nuclear moves have raised regional tension increased poverty in already impoverished nations and could possibly have fuelled an arms race which goes beyond the borders of the two countries This text examines the causes and consequences of India and Pakistani nuclear tests The book provides a framework for understanding the global context of these tests and looks at approaches for nuclear abolition in Asia and the West

The National Security Strategy of the United States Of George W. Bush, 2009-04 The challenges America faces are great yet we have enormous power and influence to address those challenges The times require an ambitious national security strategy yet one recognizing the limits to what even a nation as powerful as the United States can achieve by itself Our national security strategy is idealistic about goals and realistic about means There was a time when two oceans seemed to provide protection from problems in other lands leaving America to lead by example alone That time has long since passed America cannot know peace security and prosperity by retreating from the world America must lead by deed as well as by example This is how we plan to lead and this is the legacy we will leave to those who follow

Tactical Nuclear Weapons and Euro-Atlantic Security Paolo Foradori, 2013-07-18 This book offers a comprehensive examination of the important security issue of tactical nuclear weapons in Europe Nuclear nonproliferation and disarmament have returned to the top of the international political agenda The issue assumes particular importance in regard to NATO given that some 150 200 US tactical nuclear weapons TNWs are still present in five countries belonging to the Alliance Belgium Germany Italy the Netherlands and Turkey The past few years have seen animated debate in the United States and Europe on the role of such weapons in the current scenario of international security and whether they can be further reduced or completely removed from Europe Bringing together leading scholars and analysts of TNW with country specific competences this volume improves our understanding of this debate by providing in depth analysis of the presence role perceived value and destiny of TNWs in Europe The book addresses the issue in a systematic manner taking into account the perspectives of all main actors directly or indirectly involved in the debate This approach provides new and important insights that can inform both theoretical and policy work on a very critical and timely international issue especially during the ongoing review of NATO's deterrence and defence posture This book will be of much interest to students of European politics European security nuclear proliferation and IR in general
