Therapist's Notebook Volume 3 Catherine Ford Sori, Lorna L. Hecker, 2008-06-10 The Therapist's Notebook Volume 3 includes clinician field tested activities for therapists who work with individuals, children and adolescents, couples, families and groups. The reproducible handouts are designed to be practical and useful for the clinician and cover the most salient topics that counselors are likely to encounter in their practices with various theoretical approaches. Each chapter includes a Reading and Resources for the Professional section that guides readers toward useful books, videos or websites that will further enhance their understanding of the chapter contents. This book is an excellent tool for both experienced and novice counselors for increasing therapeutic effectiveness. Contemporary Art Therapy with Adolescents Shirley Riley, 1999

Contemporary Art Therapy with Adolescents offers practical and imaginative solutions to the multifaceted challenges that clinicians face when treating young people. The author fuses the contemporary theories of clinical treatment with the creative processes of art therapy to arrive at a synthesis which yields successful outcomes when working with adolescents. Clinicians of allied disciplines, particularly art therapists, will find practical suggestions for using imagery to enrich their relationships with teenaged clients. The process of using art making therapeutically and the challenges of applying creativity in the current mental health world are explored. Shirley Riley reviews current theories on adolescent development and therapy and emphasizes the primary importance of relying on the youths' own narrative in the context of their social and economic backgrounds. She has found this approach preferential to following pre-designed assessment directives as a primary function of art therapy. Family group and individual treatment are examined as is the adolescent's response to short and long term treatment in residential and therapeutic school settings. The book is firmly rooted in Riley's clinical experience of working with this age group and her proven ability to combine contemporary theories of adolescent treatment with inventive and effective art expressions. **Using Solution Focused Practice with Adults in Health and Social Care** Judith

Australia Andrea J. Gilroy, Sheridan Linnell, Tarquam McKenna, Jill Westwood, 2019-01-28 Art Therapy in Australia Taking a Postcolonial Aesthetic Turn explores and enacts established and emergent art therapy histories, narratives and practices in the specific postcolonial context of contemporary Australia. It is the first published book to attempt to map this terrain. In doing so, the book aims to document important aspects of art therapy in Australia including how Australian approaches both reiterate and challenge the dominant discourse of art therapy. This book is as much a performance as an account of the potential of art therapy to honour alterity, illuminate possibilities and bear witness to the intrapsychic, relational and social realms. The book offers a selective window into the rambling assemblage that is art therapy in the Great Southern Land.
