Playing House Bru Baker, 2014-12-22 Dropping Anchor Book Three College sweethearts Frank and Warner have been together for sixteen years married for eleven Having grown up in a freewheeling hippie environment Frank thinks their structured life is great although lately he and Warner have fallen into a rut Frank isn't concerned it's what happens to old marrieds Frank's blindsided though when he finds Warner looking into adopting and Frank realizes just how not okay things really are Frank doesn't want kids They bring chaos and unpredictability He had enough of that growing up Trying to salvage their relationship Frank and Warner reach out for help In the process of marriage counseling and working through their differences Frank discovers his rigid adherence to schedules anxiety attacks and host of personality quirks are actually markers for Asperger Syndrome With the help of a psychologist Frank's life gets easier and he realizes a future with children isn't as unfathomable as he once thought Through it all Frank is stunned by how much making a family with Warner has boosted the intimacy between them It's taken thirty five years but he's finally got a handle on life and the future looks even better 2015 Rainbow Awards Best Gay Contemporary General Fiction Runner Up Playing House Lauren Slater, 2015-07-14 Acclaimed author Lauren Slater ruminates on what it means to be family Lauren Slater's rocky childhood left her cold to the idea of ever creating a family of her own but a husband two dogs two children and three houses later she came around to the challenges trials and unexpected rewards of playing house In these autobiographical pieces Slater presents snapshots of domestic life populating them with the gritty details and jarring realities of sharing home life and body in the curious institution called family She asks difficult questions and probes unsettling truths about sex love and parenting In these pages Slater introduces us to her struggles with her mother her determination to make a home of her own her compromises in deciding to marry her conflicts manifesting as an affair on the eve of her wedding her initial struggle to connect with her newborn child and the dilemmas of mothering with a mental illness She writes openly about her decision to abort her second pregnancy and her later decision to have a second child after all She tells us about the searing decision to have elective double mastectomy and how her love for her husband was magically rekindled after she saw him catch fire in a chemical accident It's not all mastectomies and chemical fires though Slater digs into the everyday challenges of family living from buying a lemon of a car and fighting back menacing weeds to gaining weight and being jealous of the nanny Beautifully written often humorous and always revealing these stories scrutinize the complex questions surrounding family life offering up sometimes uncomfortable truths *Playing House in the American West* Cathryn Halverson, 2013-11-26 Examines an eclectic group of western women's autobiographical texts canonical and otherwise *Playing House in the American West* argues for a distinct regional literary tradition characterized by strategic representations of unconventional domestic life The controlling metaphor Cathryn Halverson uses in her engrossing study is playing house From Caroline Kirkland and Laura Ingalls Wilder to Willa Cather and Marilynne Robinson from the mid nineteenth to the late twentieth centuries western

authors have persistently embraced wayward or eccentric housekeeping to prove a woman's difference from western neighbors and eastern readers alike. The readings in *Playing House* investigate the surprising textual ends to which westerners turn the familiar terrain of the home evaluating community arguing for different conceptions of race and class and perhaps most especially resisting traditional gender roles. Western women writers Halverson argues render the home as a stage for autonomy resistance and imagination rather than as a site of sacrifice and obligation. The western women examined in *Playing House* in the American West are promoted and read as representatives of a region as insiders offering views of distant and intriguing ways of life even as they conceive of themselves as outsiders. By playing with domestic conventions they recast the region they describe portraying the West as a place that fosters female agency individuality and subjectivity.

Playing House in Provence Mary-Lou Weisman, 2017-08-29 Author Mary Lou Weisman and her husband Larry didn't want to tour a foreign country they wanted to become part of it. They were eager to pierce the tourist veil and get as close to the essence of the culture as they could. No more observing from the outside with their noses pressed to the glass. They yearned for someone to open the door and invite them to step right in and make themselves at home. They wanted to become so French that even Americans wouldn't like them. In September of 2003 the Weismans arrived in Provence France for the first of four monthlong stays. *Playing House in Provence* follows them on their sometimes wonderful sometimes humiliating always playful pursuit as they learn that feeling disoriented and stupid on a daily basis can be fun. So can looking up French words they need to ask for directions. *o est la pharmacie* only to realize there's *pas une chance* they will understand the answer. Funnier smarter and more wickedly honest than any memoir about Provence. Sybil Steinberg Contributing Editor Publishers Weekly
