Playing To Win Employability And Jobs In The Knowledge Economy:

The Mismanagement of Talent Phillip Brown, Anthony Hesketh, Sara Williams, 2004-07-29 The knowledge economy conjures a world of smart people in smart jobs doing smart things in smart ways for smart money a world increasingly open to all rather than a few Glossy corporate brochures present a future in challenging exciting and financially rewarding jobs for the winners in the competition for fast track management appointments They also convey an image of enlightened employers actively seeking to diversify their talent pool reflected in their approach to identifying hiring and retaining outstanding talent We are told that the challenge confronting governments around the world is to enhance the employability of the workforce Every effort must be made to expand access to higher education dismantle barriers to talent regardless of social circumstances gender or skin colour and to harness human creativity and enterprise to meet the demands of the new economy The Mismanagement of Talent comes to a different conclusion Those leaving the world of mass higher education find themselves in a scramble for jobs with rising stakes for the winners and losers The Mismanagement of Talent examines what determines the outcome of this race when a degree loses its badge of distinction It shows how some graduates are playing the game to win a competitive advantage and what really happens in the selection events of leading edge employers It also argues that talent is being mismanaged by employers that have yet to come to terms with the realities and possibilities of mass higher education The Mismanagement of Talent will be thought provoking and controversial reading for those involved in the recruitment of graduates and those concerned with the way knowledge based firms recruit and the impact of higher education policy Professionals working in university careers services HRM training or recruitment generally Researchers academics or students of Business and Management Human Resource Management Public Policy Education or Sociology and Job candidates themselves the players and purists described in the book

New Statesman, 2004 **Commoditization and the Strategic Response** Andrew Holmes, 2016-05-23 Organizations and those who work within them are under attack from the increasingly pervasive impacts of commoditization With little to distinguish one company's products and services from another or one person's skills and capabilities from the next organizations and workers alike are finding themselves trapped in the me too hell of commoditization For many this means the survival of the cheapest as price becomes the principal basis for decision making For others it requires them to think creatively to avoid the trap of commoditization even though this may only provide a temporary respite In this groundbreaking book Andrew Holmes sets out why commoditization represents such a clear and present danger to every corporation and all white collar workers Starting with the nature of the commodities we are familiar with such as coal and cotton Holmes moves on to describe how commoditization is affecting entire industries and is increasingly touching the work of the professional classes The evidence is both fascinating and compelling and it is clear that the impacts of commoditization are far reaching The author also outlines the impact of commoditization on an organization's strategy towards brand supply chain value chain innovation pricing and competition He explores the implications for skills attitudes and behaviours in the workplace before describing a series of strategies for avoiding the risk and exploiting the opportunities offered by a new commoditized world such as outsourcing innovation offshoring mergers and acquisitions divestments and first mover advantage Holmes offers organizations and white collar workers a range of strategic responses which can be used to combat its worst impacts And as commoditization continues to make inroads into the corporate and working worlds this book will be an invaluable companion to addressing the challenges which it presents **New Society Models for a New Millennium** Michael Kuhn, 2007

Textbook **Family Mobility** Catherine Doherty, Wendy Patton, Paul Shield, 2014-08-21 Family mobility decisions reveal much about how the public and private realms of social life interact and change This sociological study explores how contemporary families reconcile individual members' career and education projects within the family unit over time and space and unpacks the intersubjective constraints on workforce mobility This Australian mixed methods study sampled Defence Force families and middle class professional families to illustrate how families' educational projects are necessarily and deeply implicated in issues of workforce mobility and immobility in complex ways Defence families move frequently often absorbing the stresses of moving through viscous institutions as private troubles In contrast the selective mobility of middle class professional families and their no go zones contribute to the public issue of poorly serviced rural communities Families with different social material and vocational resources at their disposal are shown to reflexively weigh the benefits and risks associated with moving differently The book also explores how priorities shift as children move through educational phases The families' narratives offer empirical windows on larger social processes such as the mobility imperative the gender imbalance in the family's intersubjective bargains labour market credentialism the social construction of place and the family's role in the reproduction of class structure Employment and Job Creation in a Global Economy , **Can Music Make**

You Sick? Sally Anne Gross, George Musgrave, 2020-09-29 Musicians often pay a high price for sharing their art with us Underneath the glow of success can often lie loneliness and exhaustion not to mention the basic struggles of paying the rent or buying food Sally Anne Gross and George Musgrave raise important questions and we need to listen to what the musicians have to tell us about their working conditions and their mental health Emma Warren Music Journalist and Author Singing is crying for grown ups To create great songs or play them with meaning music s creators reach far into emotion and fragility seeking the communion we demand of it However music s toll on musicians can leave deep scars In this important book Sally Anne Gross and George Musgrave investigate the relationship between the wellbeing music brings to society and the wellbeing of those who create It s a much needed reality check deglamorising the romantic image of the tortured artist Crispin Hunt Multi Platinum Songwriter Record Producer Chair of the Ivors Academy It is often assumed that creative people are prone to psychological instability and that this explains apparent associations between cultural production and mental health problems In their detailed study of recording and performing artists in the British music industry Sally Anne Gross and George Musgrave turn this view on its head By listening to how musicians understand and experience their working lives this book proposes that whilst making music is therapeutic making a career from music can be traumatic The authors show how careers based on an all consuming passion have become more insecure and devalued Artistic merit and intimate often painful self disclosures are the subject of unrelenting scrutiny and data metrics Personal relationships and social support networks are increasingly bound up with calculative transactions Drawing on original empirical research and a wide ranging survey of scholarship from across the social sciences their findings will be provocative for future research on mental health wellbeing and working conditions in the music industries and across the creative economy Going beyond self help strategies they challenge the industry to make transformative structural change Until then the book provides an invaluable guide for anyone currently making their career in music as well as those tasked with training and educating the next generation

mechanisms The STEM faculty development outputs construct focuses on how to best understand the influence of STEM faculty development on outcomes such as productivity teacher quality and identity in relation to faculty development Questions addressed in the handbook around this topic include How has STEM FD influenced higher education practices and settings What are appropriate output measures and how are they used in practice What collaborations emerge from STEM FD How does STEM FD affect other STEM stakeholders e g students administration business community The aim for this handbook was to examine the multifaceted demands of faculty roles and together with members of the STEM education community envision pathways through which universities and individuals may support STEM colleagues regardless of their experience or rank to enjoy long and satisfying careers Our hope is for these chapters to aid readers in deep reflection on challenges faculty face to contemplate adaptations of models presented and to draw inspiration for creating or engaging in new professional development programs Chapters across this handbook highlight a variety of institutional contexts from 2 year technical colleges to teaching focused institutions in addition to research centric settings Some chapters focus primarily on teaching and learning practices and offer models for improving STEM instruction Others focus on barriers that emerge for STEM faculty when trying to engage in development experiences There are chapters that examine tenure structures in relation to faculty development and how STEM FD efforts could support research endeavors Mentorship and leadership models are also addressed along with a focus on equity issues that permeate higher education and impact STEM FD It is our sincere hope that this Handbook sparks increased discourse and continued explorations related to STEM FD and in particular the intentional focus of faculty development initiatives to extend to the many facets of academic life

College Mentoring Handbook James L. Gray, EdD, 2016-02-27 The Mentoring Handbook invites students to experience the power of learning by adopting the self directed learning approach to college Eleven mentoring lessons are presented that reveal winning strategies and conceptual insights on how a student can liberate him or her from the role of passive learner and take personal responsibility for active learning instead of being fed by faculty The author demystifies the degree and the GPA as the end game of college illustrating to students how not to let college get in the way of a good education which ultimately is to enhance employability potential and build work readiness skill sets Most important the mentoring lessons will help students reframe the purpose of college and use the learning experience to transform themselves as competitive job seekers in a murky job market and an uncertain economic landscape As they rethink the outdated traditional instructor driven education college model that they have fallen victim to they become empowered to take control of their professional growth and career aspirations
