Adell, 2015-12-15 African American women have increasingly begun to see their plays performed from regional stages to Broadway. Yet many of these artists still struggle to gain attention. In this volume Sandra Adell draws from the vital wellspring of works created by African American women in the twenty-first century to present ten plays by both prominent and up-and-coming writers. Taken together the selections portray how these women engage with history as they delve into and shake up issues of gender and class to craft compelling stories of African American life. Gliding from gritty urbanism to rural landscapes these works expand boundaries and boldly disrupt modes of theatrical representation. Selections: *Blue Door* by Tanya Barfield, *Levee* by James S. M. Shephard, *Massat* by Hoodoo Love, *Katori* by Hall, *Carnaval* by Nikkole Salter, *Single Black Female* by Lisa B. Contemporary Women Playwrights Penny Farfan, Lesley Ferris, 2014-01-23 Breaking new ground in this century this wide-ranging collection of essays is the first of its kind to address the work of contemporary international women playwrights. The book considers the work of established playwrights such as Caryl Churchill, Marie Clements, Lara Foot Newton, Maria Irene Fornes, Sarah Kane, Lisa Kron, Young Jean Lee, Lynn Nottage, Suzan-Lori Parks, Djanet Sears, Caridad Svich, and Judith Thompson, but it also foregrounds important plays by many emerging writers. Divided into three sections: Histories, Conflicts, and Genres, the book explores such topics as the feminist history play, solo performance, transcultural dramaturgies, the identity play, the gendered terrain of war, and eco-drama, and encompasses work from the United States, Canada, Latin America, Oceania, South Africa, Egypt, and the United Kingdom. With contributions from leading international scholars and an introductory overview of the concerns and challenges facing women playwrights in this new century, *Contemporary Women Playwrights* explores the diversity and power of women's playwriting since 1990, highlighting key voices and examining crucial critical and theoretical developments within the field.

Women in Early America Dorothy Auchter Mays, 2004-11-23 This volume fills a gap in traditional women's history books by offering fascinating details of the lives of early American women and showing how these women adapted to the challenges of daily life in the colonies. *Women in Early America: Struggle, Survival, and Freedom in a New World* provides insight into an era in American history when women had immense responsibilities and unusual freedoms. These women worked in a range of occupations such as tavernkeeping, printing, spiritual leadership, trading, and shopkeeping. Pipe smoking, beer drinking, and premarital sex were widespread. One of every eight people traveling with the British Army during the American Revolution was a woman. The coverage begins with the 1607 settlement at Jamestown and ends with the War of 1812. In addition to the role of Anglo-American women, the experiences of African, French, Dutch, and Native American women are discussed. The issues discussed include how women coped with rural isolation, why they were prone to superstitions, who was likely to give birth out of wedlock, and how they raised large families while coping with immense household responsibilities.

Women, Medicine and Theatre 1500-1750 M.A. Katritzky, 2017-03-02 Well illustrated, accessibly presented, and drawing on a comprehensive range of historical documents including British, German, and other European images and literary as well as non-literary texts, many previously unconsidered in this context, this study offers the first interdisciplinary, gendered assessment of early modern performing itinerant healers, mountebanks, charlatans, and quacksalvers. As Katritzky shows, quacks, male or female, combined in widely varying proportions three elements: the medical, the itinerant, and the theatrical. Above all, they were performers. They used theatricality in its widest possible sense to attract customers and to promote and advertise their pharmaceuticals and health care services. Katritzky investigates here the performative aspects of quack marketing and healing methods and their profound links with the rise of Europe's professional actresses. Fields of enquiry which are only now beginning to attract significant attention from historians of medicine, economics, or the theatre. *Women, Medicine and Theatre* also recovers women's roles in the economy of the itinerant quack stage. Women associated with mountebank troupes were medically and theatrically active at every level, from major stage celebrities to humble urine sample collectors, but also included sedentary relatives, non-performing assistants, door and bookkeepers, wardrobe mistresses, prop and costume loaners, landladies, spectators, patrons, and clients. Katritzky's study of the whole range of women who supported the troupes contextualizes the activities of their male counterparts and rehabilitates a broad spectrum of diversely occupied women. The strength of this title's research method lies in its comparative examination of documents that are

generally examined from the point of view of either their performative or their medical aspects by historians of respectively the theatre and medicine Taken as a whole these handbills literary descriptions a **Women Playing Men** Jin
