Do (Not) Feed the Bears Alice Wondrak Biel, 2006-03-16 It was a familiar sight at Yellowstone National Park traffic backed up for miles as visitors fed bears from their cars It may have been against the rules but park officials were willing to turn a blind eye if it kept the public happy But bear feeding eventually became too widespread and dangerous to everyone including the bears for the National Park Service NPS to allow it any longer As one of the park s most beloved and enduring symbols the Yellowstone bears have long been a flashpoint for controversy Alice Wondrak Biel traces the evolution of their complex relationship with humans from the creation of the first staged wildlife viewing areas to the present and situates that relationship within the broader context of American cultural history Early on park bears were largely thought of as

performers or surrogate pets and were routinely fed handouts from cars as well as hotel garbage dumped at park sanctioned lunch counters for bears But as these activities led to ever greater numbers of tourist injuries and of bears killed as a result and as ideas about conservation and the NPS mission changed the agency refashioned the bear s image from cute circus performer to dangerous wild animal and eventually to keystone inhabitant of a fragile ecosystem Drawing on the history of recorded interactions with bears and providing telling photographs depicting the evolving bear human relationship Biel traces the reaction of park visitors to the NPS s efforts from warnings by Yogi Bear which few tourists took seriously to the increasing promotion of key ecological issues and concerns Ultimately as the rules were enforced and tourist behavior dramatically shifted the bears returned to a more natural state of existence Biel s entertaining and informative account tracks this gradual renaturalization while also providing a cautionary tale about the need for careful negotiation at the complex nexus of tourists bears and all things wild
