Pledging Allegiance The Last Campaign Of The Cold War

Peter B. Levy

Pledging Allegiance The Last Campaign Of The Cold War:

Pledging Allegiance Sidney Blumenthal, 1991 Spanning the watershed period from the beginning of Ronald Reagan's second term and the rise of Mikhail Gorbachev in 1985 to George Bush's first State of the Union address in 1990 *Pledging Allegiance* focuses on the 1988 campaign to reveal the turning point when the old doctrines of the Cold War began to dissolve Includes political portraits of Bush Dukakis Hart Dole and other power players *The Reagan Rhetoric* Toby Glenn Bates, 2011-05-17 *The Reagan Rhetoric* examines the extraordinary connections between President Ronald Reagan's conversations with the American people and the profound changes that swept the nation under those conversations influence Through the lens of history rhetoric and memory Bates work draws connections between the style manner and consistency of Reagan's oratory and the social and cultural settings in which it played so vital a role Specifically focusing on the 1980 Neshoba County Mississippi Campaign visit the popular culture memory of the Vietnam War and the controversy of Iran Contra this book illustrates Reagan's sweeping ability to change how Americans thought about themselves their past and their politics By concluding with an examination of media coverage of Reagan's 2004 death Bates reveals that certain interpretations Reagan rhetorically offered during his presidency had become an accepted collective memory for millions of Americans In death as in life Reagan had the last word Through extensive archival research the careful examination of well known and obscure 1980s print media and popular culture as well as new interviews Bates challenges the prevailing Reagan historiography and provides a thoughtful reality check on some of the traditional views of his eight years in the Oval Office *The Reagan Rhetoric* offers new and important contributions to Reagan studies that will appeal to scholars of the 40th president This look at the 1980s will be of great interest to the growing number of historians studying that decade

American Foreign Policy Since the Vietnam War Richard A. Melanson, 1996 *Statecraft and Stagecraft* Robert Schmuhl, 1992-04-30 In this second edition of *Statecraft and Stagecraft* Robert Schmuhl brings up to date his provocative exploration of the involvement of the media in our public life by including a new chapter on the Persian Gulf War *Good Fight* Peter Beinart, 2013-06-18 More than six years after the September 11 attacks the close friendship forged between George W Bush and John Howard remains But in their nations more broadly the common purpose has withered drained by the sense that both men have failed the moral and intellectual challenges of that day In this powerful and provocative book Peter Beinart offers a new liberal vision based on principles liberals too often forget that America's greatness cannot simply be asserted it must be proved That American leadership is not American empire And that liberalism cannot merely define itself against the right but must fervently oppose the totalitarianism that stalks the Islamic world today Peter Beinart's *The Good Fight* is a passionate rejoinder to the conservatives who have ruled Washington since 9/11 Beinart argues that America can again embrace the creed that brought it greatness in the past but only if liberals remember that democracy begins at home Above all it is a call for liberals to revive the spirit that once swept America and inspired the world *Destiny and*

Power Jon Meacham, 2016-10-18 1 NEW YORK TIMES BESTSELLER In this illuminating USA Today biography Pulitzer Prize winning author Jon Meacham chronicles the life of George Herbert Walker Bush *Destiny and Power* reflects the qualities of both subject and biographer judicious balanced deliberative with a deep appreciation of history and the personalities who shape it The New York Times Book Review ONE OF THE WASHINGTON POST'S TEN BEST BOOKS OF THE YEAR A BEST BOOK OF THE YEAR The New York Times Book Review Time NPR St Louis Post Dispatch Drawing on President Bush's personal diaries on the diaries of his wife Barbara and on extraordinary access to the forty first president and his family Meacham paints an intimate and surprising portrait of an intensely private man who led the nation through tumultuous times From the Oval Office to Camp David from his study in the private quarters of the White House to Air Force One from the fall of the Berlin Wall to the first Gulf War to the end of Communism *Destiny and Power* charts the thoughts decisions and emotions of a modern president who may have been the last of his kind This is the human story of a man who was like the nation he led at once noble and flawed From the Pacific to the presidency *Destiny and Power* charts the vicissitudes of the life of this quietly compelling American original Meacham sheds new light on the rise of the right wing in the Republican Party a shift that signaled the beginning of the end of the center in American politics *Destiny and Power* is an affecting portrait of a man who driven by destiny and by duty forever sought ultimately to put the country first *Winning Elections in the 21st Century* Dick Simpson, Betty O'Shaughnessy, 2016-04-04 A national cochair of the presidential campaign of Barack Obama when few thought he could ever be elected Congresswoman Jan Schakowsky is here to tell you Yes you can And the book she recommends for candidates campaign staff volunteers and citizens is *Winning Elections in the 21st Century* a handbook for anyone who wants to know how campaigns are run and won today Written by longtime political veterans both former elected officials *Winning Elections* is steeped in old fashioned political know how and savvy about the latest campaign techniques methods and strategies using social media vote analytics small donor online fundraising and increasingly sophisticated microtargeting Using examples from across the United States the authors discuss the nuts and bolts of state and local races as well as best practices in national elections A successful campaign they assert and evidence confirms merges the new technology with proven techniques from the past and their book helps candidates students and citizens consider all the opportunities and challenges that these tools provide never losing sight of the critical role that personal contact plays in getting voters to the polls At the heart of this book is the conviction that we need to win democracy along with elections Accordingly Simpson and O'Shaughnessy write primarily about campaigns in which the maximum number of citizens participate as opposed to those determined by a few wealthy individuals and interest groups People power can prevail with the right candidates issues and support and *Winning Elections in the 21st Century* shows how **The Powell Doctrine and US Foreign Policy** Luke Middel, 2016-03-03 The Vietnam War is one of the longest and most controversial in US history This book seeks to explore what lessons the US military took from that conflict as to how and when it was

appropriate for the United States to use the enormous military force at its disposal and how these lessons have come to influence and shape US foreign policy in subsequent decades In particular this book will focus on the evolution of the so called Powell Doctrine and the intellectual climate that lead to it The book will do this by examining a series of case studies from the mid 1970s to the present war in Afghanistan **A Companion to 20th-Century America** Stephen J.

Whitfield,2008-04-15 A Companion to 20th Century America is an authoritative survey of the most important topics and themes of twentieth century American history and historiography Contains 29 original essays by leading scholars each assessing the past and current state of American scholarship Includes thematic essays covering topics such as religion ethnicity conservatism foreign policy and the media as well as essays covering major time periods Identifies and discusses the most influential literature in the field and suggests new avenues of research as the century has drawn to a close *Exit with Honor* William E Pemberton,2015-03-04 Few presidents have sparked as much interest in recent years as Ronald Reagan already the subject of a large number of biographies and specialized subjects This biography based on recent research into the Reagan archives and synthesis of the large memoir literature explores the shaping of his values and beliefs during his childhood in the American heartland his leadership of the American conservative movement and his successful political career culminating in the first two term presidency since Dwight Eisenhower Pemberton finds Reagan s personal career and ability to understand and communicate with the American people admirable but finds many of the long term effects of his presidency harmful Defining Americans Mary E. Stuckey,2023-03-17 Andrew Jackson spoke to Americans in ways that reflected the concerns of a young nation Grover Cleveland helped citizens redefine themselves after the havoc of the Civil War era FDR confronted widespread hardship with hope and determination while Eisenhower spoke to our fears of the Communist menace Throughout our history presidents by their very utterances have shaped our sense of who we are as Americans As Mary Stuckey observes presidents embrace articulate and reinvigorate our sense of national identity They define who Americans are often by declaring who they aren t In this book she shows how presidential speech has served to broaden the American political community over the past two centuries while at the same time excluding others Ranging broadly from Andrew Jackson to Bill Clinton and George W Bush Stuckey demonstrates how presidents accomplish the dual enactment of inclusion and exclusion through their rhetorical and political choices Our early leaders were preoccupied with balancing the growing nation later presidents were concerned with the nature and definitions of citizenship By examining the political speeches of presidents exemplifying distinctly different circumstances she presents a series of snapshots which when taken together reveal both the continuity and the changes in our national self understanding Ambitious and sweeping Stuckey s work documents the tactics that have naturalized and legitimated inclusion and exclusion tracing the progress of groups such as women and African Americans from political invisibility to partial visibility and eventual inclusion She also shows how the terms of inclusion have varied with changing political winds helping us understand how depictions of the

powerless by the powerful reflect and influence the status of various groups Stuckey's analysis shows how presidents use language rooted in their times and circumstances to frame and influence contemporary definitions of citizenship A provocative book that documents the changes in our understanding of who is and who isn't one of us *Defining Americans* reveals that all presidents draw upon the same set of national ideals values and events but not all use those ideas in precisely the same ways

Still Seeing Red John Kenneth White, 2018-02-07 In *Still Seeing Red* John Kenneth White explores how the Cold War molded the internal politics of the United States In a powerful narrative backed by a rich treasure trove of polling data White takes the reader through the Cold War years describing its effect in redrawing the electoral map as we came to know it after World War II The primary beneficiaries of the altered landscape were reinvigorated Republicans who emerged after five successive defeats to tar the Democrats with the soft on communism epithet A new nationalist Republican party whose Cold War prescription for winning the White House was copyrighted to Dwight Eisenhower Richard M Nixon Barry Goldwater and Ronald Reagan attained primacy in presidential politics because of two contradictory impulses embedded in the American character a fanatical preoccupation with communism and a robust liberalism From 1952 to 1988 Republicans won the presidency seven times in ten tries The rare Democratic victors John F Kennedy Lyndon B Johnson and Jimmy Carter attempted to rearm the Democratic party to fight the Cold War Their collective failure says much about the politics of the period Even so the Republican dream of becoming a majority party became perverted as the Grand Old Party was recast into a top down party routinely winning the presidency even as its electoral base remained relatively stagnant In the post Cold War era Americans are coming to appreciate how the fifty year struggle with the Soviet Union organized thinking in such diverse areas as civil rights social welfare education and defense policy At the same time Americans are also more aware of how the Cold War shaped their lives from the duck and cover drills in the classrooms to the bomb shelters dug in the backyard when most Baby Boomers were growing up Like millions of Baby Boomers Bill Clinton can truthfully say I am a child of the Cold War With the last gasp of the Soviet Union Baby Boomers and others are learning that the politics of the Cold War are hard to shed As the electoral maps are being redrawn once more in the Clinton years landmarks left behind by the Cold War provide an important reference point In the height of the Cold War voters divided the world into us noncommunists versus them communists and reduced contests for the presidency into battles of which party would be tougher in dealing with the Evil Empire But in a convoluted post Cold War era politics defies such simple characteristics and presidents find it harder to lead Recalling how John F Kennedy could so easily rally public opinion an exasperated Bill Clinton once lamented Gosh I miss the Cold War

God is a Conservative Kenneth J. Heineman, 1998-08 Surveying the past 30 years historian Kenneth Heineman offers a revealing look at the expanding role of the conservative movement in American politics and society Heineman ultimately questions whether moral politics are a diversion from our most pressing problems or a cure for what ails the nation

[Clinton's Elections](#) Michael Nelson, 2020-02-21 In the presidential elections of 1980

1984 and 1988 the three Democratic nominees won an average of about 10 percent of the Electoral College vote a smaller share than any party in any three consecutive presidential elections in US history In the next seven elections Democrats won the popular vote in all but one 2004 a feat not achieved by a political party since the Democratic Party's inception in the 1820s What separated these record setting runs was the election and presidency of Bill Clinton whose pivotal role in ushering in a new era of American politics for better and for worse this book explores Perhaps because Clinton's presidency was hobbled by six years of divided government ended in a sex scandal and impeachment and was sandwiched between Republican administrations it is easy to forget that he revived a presidential party that had become nearly moribund In Clinton's Elections Michael Nelson describes how by tacking relentlessly to the center Clinton revived the Democrats' presidential fortunes but also paradoxically effectively erased the center in the process introducing the new political reality of extreme partisan divisiveness and dysfunctional government Tracing Clinton's place in American politics from his emergence as a potential nominee in 1988 to his role in political campaigns right up to 2016 Nelson draws a deft portrait of a savvy politician operating in the midst of divided government and making strategic moves to consolidate power and secure future victories With its absorbing narrative and incisive analysis his book makes sense of a watershed in the modern American political landscape and lays bare the roots of our current era of political dysfunction **Make My Day** J.

Hoberman, 2019-07-02 Named a Best Book of the Year by Financial Times Singular stylish and slightly intoxicating in its scope Rolling Stone Acclaimed media critic J Hoberman's masterful and majestic exploration of the Reagan years as seen through the unforgettable movies of the era The third book in a brilliant and ambitious trilogy celebrated cultural and film critic J Hoberman's **Make My Day** is a major new work of film and pop culture history In it he chronicles the Reagan years from the waning days of the Watergate scandal when disaster films like *Earthquake* ruled the box office to the nostalgia of feel good movies like *Rocky* and *Star Wars* and the delirium of the 1984 presidential campaign and beyond Bookended by the Bicentennial celebrations and the Iran Contra affair the period of Reagan's ascendance brought such movie events as *Jaws* *Apocalypse Now* *Blade Runner* *Ghostbusters* *Blue Velvet* and *Back to the Future* as well as the birth of MTV the Strategic Defense Initiative and the Second Cold War An exploration of the synergy between American politics and popular culture **Make My Day** is the concluding volume of Hoberman's *Found Illusions* trilogy the first volume *The Dream Life* was described by Slate's David Edelstein as one of the most vital cultural histories I've ever read Film Comment called the second *An Army of Phantoms* utterly compulsive reading Reagan a supporting player in Hoberman's previous volumes here takes center stage as the peer of Indiana Jones and John Rambo the embodiment of a Hollywood that even then no longer existed Bulletin of the Atomic Scientists, 1991-06-30 Encyclopedia of the Clinton Presidency Peter B. Levy, 2001-11-30 First president of his generation Second president to be impeached Bill Clinton led the nation during eight years of unprecedented economic prosperity and peace creating millions of new jobs swapping deficit for surplus and advancing his agenda of social programs

Yet he was riddled with scandal This encyclopedia of more than 230 alphabetical entries covers all the major events issues and personalities of the Clinton administration including full treatments of his impeachment Whitewater Travelgate Monica key members of his administration Congressional opponents foreign and domestic policy elections laws terms and catchphrases and national and foreign events that impacted Clinton s presidency This balanced account is a perfect reference for students of detractors from and supporters of William Jefferson Clinton Among the domestic issues covered are health care reform gays in the military abortion gun control and welfare reform Also included are the many foreign policy issues Clinton dealt with such as Bosnia Northern Ireland and the Middle East Numerous charts tables and graphs provide vital statistical information about legislation the economy federal spending election returns and crime during the Clinton years A chronology of events and many photos accompany the text Thorough cross referencing will aid researchers as will bibliographies of print and Internet sources following each entry

See How They Ran Gil Troy,2012-09-18 *See How They Ran* explores why candidates campaign as they do why Americans complain about it and what these evolving patterns and changing images tell us about American democracy itself On the eve of every election many Americans become convinced that this presidential campaign is worse than it has ever been Frustrated we long for the good old days of dignified campaigns and worthy candidates However as Gil Troy s fascinating history demonstrates they never existed Originally candidates did not run for office but awaited the people s call in dignified silence When Stephen Douglas campaigned in 1860 he pretended to be visiting his mother as he traveled not actively campaigning In the post 1945 world however both Democratic and Republican candidates have stopped to kiss babies donned hard hats and pumped hands along the campaign trails From the founding of our nation Americans have wanted a leader who is simultaneously a man of the people and a man above the people In *See How They Ran* Troy shows that our disappointment with current presidential campaigns is simply the latest chapter in a centuries long struggle to make peace with the idea of leadership in a democratic society This is an engrossing and essential read

The A to Z of the Reagan-Bush Era Richard S. Conley,2009-09-28 The 1980s and early 1990s were remarkable for the triumph of conservatism in the United States and its closest allies The victories of Presidents Ronald Reagan and George H W Bush in the United States were complemented by the electoral successes of Margaret Thatcher in the United Kingdom and Brian Mulroney in Canada The relationship between Reagan and Bush and their conservative counterparts was particularly important in providing a united front on foreign policy whether the target was the Soviet Union Communist insurgencies in Africa or Latin America or Iraqi dictator Saddam Hussein The Reagan Bush era witnessed some of the most dramatic events of the latter half of the 20th century the collapse of the Soviet Union a presidential assassination attempt political scandal a stock market crash military invasions and the explosion of the space shuttle Challenger *The A to Z of the Reagan Bush Era* relates these events and provides extensive political economic and social background on this era through a detailed chronology an introduction appendixes a bibliography and several hundred

cross referenced dictionary entries on important persons events institutions policies and issues Law's Promise, Law's Expression Kenneth L. Karst, 1993-01-01 In this text a constitutional law scholar argues that most of the social issues agenda for law violates the constitutional principle of equal citizenship The conservative social issues agenda is targeted at voters who have felt left out by other civil rights movements

Thank you for downloading **Pledging Allegiance The Last Campaign Of The Cold War**. As you may know, people have search hundreds times for their favorite books like this Pledging Allegiance The Last Campaign Of The Cold War, but end up in harmful downloads.
