Les ailes du Sahel Le Zwarts, Rob G. Bijlsma, Jan van der Kamp, Eddy Wymenga, 2014-04-14. Living on the Edge examines the function of the Sahel region of Africa as an important wintering area for long distance migrant birds. It describes the challenges the birds have to cope with climate change of course and rapid man-made habitat changes related to deforestation, irrigation and reclamation of wetlands. How have all these changes affected the birds and have birds adapted to these changes? Can we explain the changing numbers of breeding birds in Europe by changes in the Sahel or vice versa? Winner of the BB BTO Best Bird Book Award 2010. The Jury commented: It is a tremendous book in every department. It marks a step change in our knowledge of the ecology of this critically important region in the European African migration system and of the many species familiar to us on their breeding grounds that winter there. The authors combine the latest scientific information with vivid descriptions of landscapes and animals. Their book is richly illustrated with large numbers of drawings, maps and photographs by acclaimed experts. The wealth of coloured graphics has been particularly well thought out and encourages readers to delve into the figures and learn more about the region rather than having the all too common opposite effect. Summing up, the jury praises not just the high quality of the texts, the information and the illustrations but also the sheer pleasure of reading the book. One of the key attributes of a good book is to be able to grip the reader's attention and transport him or her to another place. We feel confident that Living on the edge will have that effect.

Case Law on Equitable Maritime Delimitation / Jurisprudence sur les délimitations maritimes selon l'équité Robert Kolb, 2021-10-25. This book provides a complete overview of the jurisprudence on maritime delimitation. Each case is presented under a series of identical headings so as simultaneously to provide the reader with a complete analysis of the individual case and a uniform measure of comparison with other cases. The headings are as follows: geographical context, submissions and arguments of the parties, specific features of the case, the judgement broken down into its various elements, individual and dissenting opinions and academic comment together with a bibliography. The longest section on each case is that devoted to the judgement. The analysis of each relevant element: the role of third States, equity, equidistance, the displacement of a provisional line, islands, proportionality etc. is presented in three ways: 1. a brief introductory part introducing and offering a critique of the essential features of the relevant part of the decision; 2. relevant extracts from the judgement; 3. commentaries, either brief or more developed according to the needs of the case that endeavour to bring out the substance of the judgement in particular by drawing out the various consequences.

making connections with previous and future cases so as to chart the development of the jurisprudence and offering critical reflections The book thus presents a complete panorama of the jurisprudential problems associated with maritime delimitation The clarity and comprehensive nature of the presentation and the quality of the commentaries makes it an indispensable reference work for academics and for practitioners alike *Curating Africa in the Age of Film Festivals* L.
