Plots Against Presidents:

The Plots Against the President Sally Denton, 2012-01-03 In March 1933 Franklin Delano Roosevelt finally became the nation's thirty second president. The man swept in by a landslide four months earlier now took charge of a country in the grip of panic brought on by economic catastrophe. Though no one yet knew it not even Roosevelt it was a radical moment in America. And with all of its unmistakable resonance with events of today it is a cautionary tale. *The Plots Against the President* follows Roosevelt as he struggled to right the teetering nation armed with little more than indomitable optimism and the courage to try anything. His bold New Deal experiments provoked a backlash from both extremes of the political spectrum. Wall Street bankers threatened by FDR's policies made common cause with populist demagogues like Huey Long and Charles Coughlin. But just how far FDR's enemies were willing to go to thwart him has never been fully explored. Two startling events that have been largely ignored by historians frame Sally Denton's swift tense narrative of a year of fear: anarchist Giuseppe Zangara's assassination attempt on Roosevelt and a plutocrats plot to overthrow the government that would come to be known as the Wall Street Putsch. *The Plots Against the President* throws light on the darkest chapter of the Depression and the moments when the fate of the American republic hung in the balance.

[The Plot Against the President](#) Lee Smith, 2019-10-29 Investigative journalist Lee Smith uses his unprecedented access to Congressman Devin Nunes former head of the House Intelligence Committee to expose the deep state operation against the president and the American people. Investigative journalist Lee Smith's *The Plot Against the President* tells the story of how Congressman Devin Nunes uncovered the operation to bring down the commander in chief. While popular opinion holds that Russia subverted democratic processes during the 2016 elections the real damage was done not by Moscow or any other foreign actor. Rather this was a slow moving coup engineered by a coterie of the American elite the deep state targeting not only the president but also the rest of the country. The plot officially began July 31 2016 with the counterintelligence investigation that the FBI opened to probe Russian infiltration of Donald Trump's presidential campaign. But the bureau never followed any Russians. In fact it was an operation to sabotage Trump the candidate then president elect and finally the presidency. The conspirators included political operatives law enforcement and intelligence officials and the press. The plot was uncovered by Nunes chairman of the House Intelligence Committee and his investigative team. They understood that the target of the operation wasn't just Trump but rather the institutions that sustain our republic. A country where operatives use the intelligence and security services to protect their privileges by spying on Americans coordinating with the press and using extra constitutional means to undermine an election then undo a presidency is more like the third world than the republic envisioned by the founding fathers. Without Nunes and his team the plot against the president and against the country never would have been revealed. Told from the perspective of Nunes and his crack investigators men and women who banded together to do the right thing at a crucial moment for our democracy the story of the biggest political scandal in a generation reads like a great
