book demonstrates how self regulation online is practiced and delves into how it has also become an expression of resistance in the 21st century Electronic Hearth Cecelia Tichi,1992-10-29 We all talk about the tube or box as if television were simply another appliance like the refrigerator or toaster oven But Cecilia Tichi argues that TV is actually an environment a pervasive screen world that saturates almost every aspect of modern life In Electronic Hearth she looks at how that environment evolved and how it in turn has shaped the American experience Tichi explores almost fifty years of writing about television in novels cartoons journalism advertising and critical books and articles to define the role of television in the American consciousness She examines early TV advertising to show how the industry tried to position the new device as not just a gadget but a prestigious new piece of furniture a highly prized addition to the home The television set she writes has emerged as a new electronic hearth the center of family activity John Updike described this primitive appeal of the hearth in Roger s Version Television is its irresistible charm a fire Entering an empty room we turn it on and a talking face flares into being Sitting in front of the TV Americans exist in a safety zone free from the hostility and violence of the outside world She also discusses long standing suspicions of TV viewing its often solitary almost autoerotic character its supposed numbing of the minds and imagination of children and assertions that watching television drugs the minds of Americans Television has been seen as treacherous territory for public figures from generals to presidents where satire and broadcast journalism often deflate their authority And the print culture of journalism and book publishing has waged a decades long war of survival against it only to see new TV generations embrace both the box and the book as a part of their cultural world In today s culture she writes we have become teleconscious seeing for example real life being certified through television as seen on TV and television constantly ratified through its universal presence in art movies music comic strips fabric prints and even references to TV on TV Ranging far beyond the bounds of the broadcast industry Tichi provides a history of contemporary American culture a culture defined by the television environment Intensively researched and insightfully written The Electronic Hearth offers a new understanding of a critical but much maligned aspect of modern life **Structure-Activity**

Coining for Capital Jyotsna Kapur, 2005 This book is a welcome addition to the literature on children and the media and a most stimulating application of social theory to questions of the child in contemporary film and consumer culture Ellen Seiter author of *The Internet Playground* *Children's Access Entertainment* and *Mis Education* Since the 1980s a peculiar paradox has evolved in American film Hollywood's children have grown up and the adults are looking and behaving more and more like children In popular films such as *Harry Potter* *Toy Story* *Pocahontas* *Home Alone* and *Jumanji* it is the children who are clever savvy and self sufficient while the adults are often portrayed as bumbling and ineffective Is this transformation of children into little adults an invention of Hollywood or a product of changing cultural definitions more broadly In *Coining for Capital* Jyostna Kapur explores the evolution of the concept of childhood from its portrayal in the eighteenth century as a pure innocent and idyllic state the opposite of adulthood to its expression today as a mere variation of adulthood complete with characteristics of sophistication temptation and corruption Kapur argues that this change in definition is not a media effect but rather a structural feature of a deeply consumer driven society Providing a new and timely perspective on the current widespread alarm over the loss of childhood *Coining for Capital* concludes that our present moment is in fact one of hope and despair As children are fortunately shedding false definitions of proscribed innocence both in film and in life they must now also learn to navigate a deeply inequitable antagonistic and consumer driven society of which they are both a part and a target

Cavalla, 2012-12-06 The appreciation of risk like the awareness of beauty lies very much in the eyes of the beholder It involves a value judgement and can never be absolute Yet paradoxically modern society is demanding ever greater degrees of safety in the medicines it takes to the extent that nothing short of the total absence of risk will be tolerated Since 1960 and mainly as a result of the thalidomide tragedy governmental regulation of testing and use of new medicines has grown apace throughout the world It has derived impetus not only from the understandable wish of the public to seek protection but also from the anxiety of bureaucrats and politicians not to be seen to have made mistakes Both these concerns have been inflamed by the recognition of the media that all drugs make news and horror drugs make the best news of all Prior to this time the physician and his cures enjoyed a relatively supportive public It was true that quacks existed and were recognized as such but in the main people wanted to take medicines and expected them to do them good Supercritical Fluid Technology for Drug Product Development Peter York, Uday B.
