Pluralism And Liberal Neutrality:

Pluralism and Liberal Neutrality Richard Bellamy, Martin Hollis, 2020-04-27 The crisis of liberalism is in its claim to endorse neutral procedures that allow individuals and groups to pursue their own good when the very possibility of such neutrality is affected by the growth of plural societies and resulting divisions of loyalty This collection explores this crisis

Pluralism and Liberal Neutrality Robin Barklis, Hatfield School of Government, 2008 **Liberalism and Pluralism** Richard Bellamy, 2002-01-04 In Liberalism and Pluralism the author explores the challenges conflicting values interests and identities pose to liberal democracy Richard Bellamy illustrates his criticism and proposals by reference to such topical issues as the citizens charter constitutional reform the Rushdie affair and the development of the European Union Liberalism and Value Pluralism George Crowder, 2002-04-30 Value pluralism is the idea associated with the late Isaiah Berlin that fundamental human values are irreducibly plural and incommensurable Ends like liberty equality and community are intrinsic goods which can neither be ranked in an absolute hierarchy nor translated into units of a common denominator If that is true how can we choose among such values when they come into conflict in particular cases In particular what reason is there to justify the value ranking characteristic of liberal democracy favouring personal autonomy and toleration Recent commentators have seen value pluralism as undermining the traditional claims of liberalism to universal authority rendering it at best no more than one political form among others with no greater claim to legitimacy Against that view George Crowder argues that a strong distinctive case for liberalism as a universal project is implied by value pluralism itself Reflection on the elements of value pluralism yields a set of ethical principles including respect for universal values rejection of political utopianism promotion of value diversity accommodation of reasonable disagreement and cultivation of civic virtues Those principles are best satisfied by a liberal form of politics characterised by a strong commitment to personal autonomy by policies of moderate redistribution and multiculturalism and by constitutional restraints on democratic politics This is the first book length defence of liberalism on the basis of value pluralism complementing and extending the work of Berlin and others **Moral Pluralism and Legal Neutrality** Wojciech Sadurski, 1989-12-31 It is a commonplace that law and morality intersect and interpenetrate in all the areas of legal decision making that in order to make sense of constitutional statutory or common law questions judges and other legal decision makers must first resolve certain philosophical issues which include moral judgments of right and wrong_ This is particularly evident with regard to constitutional interpretation especially when constitutions give a mandate for the protection of the substantive norms and values entrenched as constitutional rights In these Situations as a leading contemporary legal philosopher observed the Constitution fuses legal and moral issues by making the validity of a law depend on an answer to complex moral 1 problems But the need for substantive value elucidation is not confined of course only to constitutional interpretation under Bills of Rights This however immediately raises a dilemma stemming from the moral diversity and pluralism of modern liberal

societies How can law remain sensitive to this pluralism and yet provide clear answers to the problems which call for a legal resolution Sharply conflicting values in modern societies clash in the debates over the death penalty abortion homosexuality separation of state and religion the scope of the freedom of the press or affirmative action It would often be difficult to discern a broader consensus within which these clashes of values operate unless this consensus were described in such vague terms as to render it practically meaningless

Cultural Pluralism and Dilemmas of Justice Monique

Deveaux, 2018-10-18 How should democratic societies define justice for cultural minority groups and how might such justice be secured This book is a nuanced and judicious response to a critical issue in political theory the challenge of according equal respect and recognition to minority groups and accommodating their claims for special cultural rights and arrangements Monique Deveaux contends that liberal theorists fail to grant enough importance to identity and the content of cultural life in their attempts to conceive of political institutions for plural societies She takes to task the spectrum of theories on pluralism from weak and strong theories of tolerance through neutralist liberalism to comprehensive liberalism and finally to arguments for deliberative politics that build on Jürgen Habermas's discourse ethics The solution proposed here is deliberative liberalism which incorporates both critically reconceived principles of deliberative democracy and central liberal norms of consent and respect Cultural conflicts in democratic societies include clashes involving Aboriginal peoples ethnic and linguistic minorities and recent immigrant groups in Europe North America and Australia Drawing on examples from several countries Deveaux concludes that genuine respect and recognition for cultural minorities requires full inclusion in existing institutions and the right to help shape the political culture of their own societies through democratic dialogue and deliberation

Historical Destiny and National Socialism in Heidegger's Being and Time Johannes Fritzsche, 1999-06-24 Fritzsche's book which is closely researched carefully argued and philologically rigorous will become an indispensable point of reference for further debates on Heidegger's ambiguous political and ethical legacy Richard Wolin author of *The Politics of Being* Unquestionably Fritzsche has a highly unusual command of the Heideggerian idiom which he uses to very good effect Tom Rockmore author of *On Heidegger's Nazism and Philosophy*

Becoming Europe Patrick Ireland, 2004-08-22

Across Europe millions of immigrants refugees and asylum seekers have often had difficulties fitting into their new societies Most analysts have laid the blame on a clash of cultures *Becoming Europe* provides evidence that institutions matter more than culture in determining the shape of ethnic relations Patrick Ireland argues that it is incorrect blithely to anticipate unavoidable conflict between Muslim immigrants and European host societies Noting similarities in the structure of the welfare states in Germany the Netherlands and Belgium as well as in their respective North African and Turkish immigrant communities he compares national and city level developments to show how approaches toward immigrant settlement have diverged widely and evolved over time *Becoming Europe* demonstrates how policymakers have worked hard to balance immigrants' claims to distinct traditions with demands for equal treatment Ultimately it reveals a picture of people learning

by doing in the day to day activities that shape how communities come together and break apart **Political Neutrality**

Roberto Merrill, Daniel Weinstock, 2014-07-31 The topic of neutrality on the good is linked rather closely to the ideal of political liberalism as formulated by John Rawls Here internationally renowned authors in several cases among the most prominent names to be found in contemporary political theory present a collection of ten essays on the idea of liberal neutrality *The Tragedy of Liberalism* Bert van den Brink, 2000-08-24 Drawing on recent developments in liberal theory Bert van den Brink develops an alternative defense of liberalism He argues that liberal theorists should admit that their doctrine is not neutral with regard to conceptions of the good life that it in fact fosters ideals of personal autonomy and a pluralist environment These ideals generate irreconcilable tragic conflicts between liberal and nonliberal ideals and it is only by taking these conflicts seriously that liberals can learn of the unwanted consequences of liberal doctrine effectively rebut critics and react adequately to the complex pluralism of contemporary societies **Pluralism** Rainer Eisfeld, 2006-04-20 The book focuses on the study of democratic processes Special emphasis is put 1 on the existence of a diversity of e g socio economic ethno cultural interests and the transformation of this diversity into public policies 2 on the participatory features of democracy and on barriers to individual and group participation due to disparities in economic and political resources

Liberal Neutrality and State Support for Religion Leni Franken, 2016-05-18 This book focuses on the financing of religions examining some European church state models using a philosophical methodology The work defends autonomy based liberalism and elaborates how this liberalism can meet the requirements of liberal neutrality The chapters also explore religious education and the financing of institutionalized religion This volume collates the work of top scholars in the field Starting from the idea that autonomy based liberalism is an adequate framework for the requirement of liberal neutrality the author elaborates why a liberal state can support religions and how she should do this without violating the principle of neutrality Taking into account the principle of religious freedom and the separation of church and state this work explores which criteria the state should take into account when she actively supports religions faith based schools and religious education A number of concrete church state models including hands off religious accommodation and the state church are evaluated and the book gives some recommendations in order to optimize those church state models where needed

Practitioners and scholars of politics law philosophy and education especially religious education will find this work of particular interest as it has useful guidelines on policies and practices as well as studies of church state models **Is Political Philosophy Impossible?** Jonathan Floyd, 2017-09-07 A major new statement on how we do and we ought to do political philosophy Liberal Neutrality Alexa Zellentin, 2012-08-31 Liberal neutrality has two underlying intuitions and therefore two distinct elements On the one hand it refers to the intuition that there are matters the state has no business getting involved in On the other hand it is motivated by the idea that the state ought to treat citizens as equals and show equal respect for their different conceptions of the good life This book defends this two fold understanding of neutrality with

reference to Rawls conception of citizens as free and equal persons Treating citizens as equals requires the state to grant its citizens equal political rights and also to ensure that these rights have fair value Given the danger that cultural bias undermines the equal standing of citizens the state has to ensure procedures of political decision making that are able to take citizens different conceptions into account The Market John O'Neill,1998-04-09 Following the failure of really existing socialism in Eastern Europe and Asia the market is now generally perceived by Left and Right to be supreme in any rational economic system The current debate now focuses on the proper boundaries of markets rather than the system itself This book examines the problems of defining these boundaries for t *Liberalism: Justice and reason* G.
