History Christopher Pelling,2011-12-31 Much of ancient history can only be written thanks to evidence supplied by Plutarch The historical methods and qualities of this vital source were for long subjected to little systematic analysis However over the last two decades an authoritative and profoundly influential set of studies has appeared in the field the work of Christopher Pelling Dispersed until now in a wide range of international journals and symposia these fifteen studies are here published in a single volume revised by the author with up to date annotations and bibliography Together with three new studies they form an essential reference work for serious students of classical Greece and Rome **Natural Spectaculars** Michiel

Meeusen,Luc Van der Stockt,2015-11-17 The value of Plutarch s perception of physical reality and his attitude towards the natural spectacle Plutarch was very interested in the natural world around him not only in terms of its elementary composition and physical processes but also with respect to its providential ordering and marvels His writings teach us a lot about his perception of physical reality and about his attitude to the natural spectacle He found his greatest inspiration in the ontological and epistemological framework of Plato s Timaeus but a wide range of other authors were also of seminal interest to his project Moreover the highly literary value of Plutarch s natural philosophical writings should not be underrated It is therefore not surprising that recently scholars have started to reassess the ancient scientific value of Plutarch s natural philosophical writings Natural Spectaculars aims to give further impetus to this dynamic by treating several aspects of Plutarch s natural philosophy which have remained unexplored up to now **The Fragments of the Roman Historians**

Tim Cornell,Edward Bispham,John Rich,2013 This title is a definitive and comprehensive edition of the fragmentary texts of all the Roman historians whose works are lost Historical writing was an important part of the literary culture of ancient Rome and its best known exponents including Sallust Livy Tacitus and Suetonius provide much of our knowledge of Roman history However these authors constitute only a small minority of the Romans who wrote historical works from around 200 BC to AD 250 In this period we know of more than 100 writers of history biography and memoirs whose works no longer survive for us to read They include well known figures such as Cato the Elder Sulla Cicero and the emperors Augustus Tiberius Claudius Hadrian and Septimius Severus Page 4 of cover *Sage and Emperor* Philip A. Stadter,L. Van der Stockt,2002 The overall objective is to establish the context of Plutarch s work in the society and the historical circumstances for which it was written Spartan Society Thomas J. Figueira,2004-12-31 This is the fifth volume from the International Sparta Seminar in the series founded by Anton Powell and Stephen Hodkinson Thomas J Figueira is here the editor of sixteen papers fifteen are new the other is newly translated from the French Among the authors are most of the world s leading authorities on the history of Sparta There are particular concentrations of papers on Spartan women the economy of Sparta

helots and Messenians Xenophon and Sparta and the modern reception of Sparta Le triumphe des vertuz Jean Thenaud,1997 **La compétence de l'Aréopage en matière de procès publics** Odile de Bruyn,1995 Outre ses attributions dans le domaine des crimes de sang l Areopage avait des competences en matiere de crimes contre la surete de l Etat et l ordre public complots contre le regime democratique haute trahison corruption des magistrats et delits commis par eux dans l exercice de leurs fonctions impiete ou oisivete Une etude fouillee de cet aspect moins connu de l activite de l Areopage a conduit l auteur a conclure que le Conseil loin de correspondre a l etiquette oligarchique et conservatrice dont on l avait si souvent revetu etait en realite un des rouages de la democratie athenienne et un des garants principaux de son equilibre et de sa stabilite Franz Steiner 1995 Plutarch in the Religious and Philosophical Discourse of Late Antiquity ,2012-10-23 The works of Plutarch notably his Moralia provide us with exceptional evidence to reconstruct the spiritual and intellectual atmosphere of the first centuries CE As a priest of Apollo at Delphi Plutarch was a first range witness of ancient religious experience as a Middle Platonist he was also actively involved in the developments of the philosophical school Besides he also provided a more detached point of view both regarding numerous religious practices and currents that were permeating the building of ancient pagan religion and the philosophical views of other schools His combining the insider and the sensitive observer s perspectives make Plutarch a crucial starting point for the understanding of the religious and philosophical discourse of Late Antiquity **Rhetorical theory and praxis in Plutarch** International Plutarch Society. International Congress,L. Van der Stockt,2000 **Until it is Fulfilled** Anders E. Nielsen,2000 Anders E Nielsen presents a fresh look on New Testament eschatology by analysing the Gospel of Luke and the Book of Acts He first of all considers whether ancient literary expressions of farewell motif may or may not lead to an outlook of some sort of transcendental nature which could play an active role in the composition of the text as read text He concludes that in a fairly representative number of non biblical as well as biblical farewell addresses we do find transcendental outlooks with eschatological implications Furthermore these particular outlooks seem to be at work in close relation to the approaching death of the intended speaker of the addresses Against this background the two major farewell addresses the one of Jesus in Luke 22 and the one of Paul in Acts 20 are at great length analysed by means of a rhetorical and text linguistic approach Anders E Nielsen divides his exegetical theological findings into three main points First of all the traditional hypothesis of an imminent expectation of the parousia is seen as problematic because the eschatology in Luke seems to be less a matter of chronology and more a question of quality Secondly some of the sayings in a hellenistic work like Luke Acts may sometimes be free to express a vertical transcendent aspect with individual eschatological associations while other phases are sufficiently vague to call up in the audience both individual and or collective eschatological connotations Thirdly all this put together suggests that Luke s religious language does in fact not play down eschatology On the contrary Anders E Nielsen suggests that one can speak of some sort of applied eschatology in the sense that all the relevant expressions in the compositions examined

La dialectique des stoïciens Jean-Baptiste Gourinat, 2000 Pendant cinq siècles de 300 av J C jusqu'au crépuscule de Marc Aurèle la philosophie stoïcienne domina la culture antique Encore aujourd'hui notre grammaire notre logique et notre linguistique sont les héritières plus ou moins conscientes de l'une des trois parties de cette philosophie la dialectique qui fut dans sa forme classique l'œuvre de Chrysippe 280-204 av J C Ce livre est la première reconstruction synthétique de la dialectique stoïcienne dans son ensemble Son point de vue est en outre

entièrement nouveau En effet pour l'auteur les stoiciens n'avaient pas une logique au sens moderne du terme mais une dialectique c'est à dire une technique de l'argumentation dialoguée Sa conception complexe à première vue multiple et équivoque reçoit ainsi un éclairage inédit qui permet de comprendre son originalité et d'en réinterpréter la place dans l'ensemble du système Cela nous permet aussi de mieux comprendre le sens des disciplines qui en sont les héritières infidèles
