*Speak Out!* Brixton Black Women's Group, 2023-10-10 The first ever collection of writing from the Brixton Black Women's Group one of the first and most important black radical organisations of the 1970s We came to Britain in search of better opportunities or to get some of the wealth which had been misappropriated from the Caribbean but what in reality did we find *Speak Out* brings together the writings of Brixton Black Women's Group for the first time in a landmark collection Established in response to the lack of interest in women's issues experienced in male dominated Black organisations the Brixton Black Women's Group's aim was to create a distinct space where women of African and Asian descent could meet to focus on political social and cultural issues as they affected black women Brixton Black Women's Group published its own newsletter *Speak Out* which kept alive the debate about the relevance of feminism to black politics and provided a black women's perspective on immigration housing health and culture **PMT** Judy Lever, Brian Haynes, Michael George Brush, 1980 **Issues of Blood** Sophie Laws, 1991-01-01 An approach to the subject of menstruation which claims that women's feelings about their periods are shaped by men's attitudes and the imposition of their views on women Sophie Law's research covered men as lovers fathers husbands doctors and experts *Evening Primrose Oil* Judy Graham, 1989-03 Here is the story of the remarkable evening primrose and the uses to which the oil from its seeds can be put one of the major ones being in the treatment of premenstrual tension Unlike most natural products which are on the whole useful for one condition only the oil of the evening primrose has properties which make it useful for a wide range of conditions among them MS arthritis vascular problems and PMS **Managing the Monstrous Feminine** Jane M. Ussher, 2006-01-18 This book will expand on the author's previous work to include her latest research and thoughts on this topic This book advances the study of women and our bodies in new and exciting ways it is an important addition to the existing literature The author introduces interview and case material to bring potentially complex ideas of women's experience of their bodies alive *Cognition and the Menstrual Cycle* John T.E. Richardson, 2012-12-06 This book originated in a symposium that was held at the London Conference of the British Psychological Society BPS in December 1988 The fact that the various contributors were able to assemble at all was very much due to the kind generosity of the Scientific Affairs Board of the BPS which had made resources available from its Initiatives Fund to enable Barbara Sommer to travel to the United Kingdom to participate in the event The broad continuity among the contributions to this symposium in terms of their underlying themes led us to the view that a single volume consisting of original papers by those concerned would be a timely contribution to the research literature not simply on menstruation and cognitive performance but more generally on the nature of female psychology This was confirmed by a clear sense that in their different ways the individual researchers involved were achieving genuine conceptual theoretical and empirical progress in this area and were generating ideas and findings that accorded well with changing views of women in psychology and cognate disciplines We hope that the various chapters in this book convey some sense of
