**1994: Australian public affairs information service ,     The World Map Directory 1989 Aaron Maizlish,William S. Hunt,1988     Kastom, property and ideology Siobhan McDonnell,Matthew Allen,Colin Filer,2017-03-22 The relationship between customary land tenure and modern forms of landed property has been a major political issue in the Spearhead states of Melanesia since the late colonial period and is even more pressing today as the region is subject to its own version of what is described in the international literature as a new land rush or land grab in developing countries This volume aims to test the application of one particular theoretical framework to the Melanesian version of this phenomenon which is the framework put forward by Derek Hall Philip Hirsch and Tania Murray Li in their 2011 book Powers of Exclusion Land Dilemmas in Southeast Asia Since that framework emerged from studies of the agrarian transition in Southeast Asia the key question addressed in this volume is whether land transformations in Melanesia are proceeding in a similar direction or whether they take a somewhat different form because of the particular nature of Melanesian political economies or social institutions The contributors to this volume all deal with this question from the point of view of their own direct engagement with different aspects of the land policy process in particular countries Aside from discussion of the agrarian transition in Melanesia particular attention is also paid to the growing problem of land access in urban areas and the gendered nature of landed property relations in this region     **Papua New Guinea Conservation Needs Assessment** ,1993     **Handbook of Humanitarian Health Care Logistics** George Mc Guire,2015-10-31     **Rural Development for Sustainable Social-ecological Systems** Claudia Baldwin,Séverine van Bommel,2023-07-31 This book provides an overview of interdisciplinary approaches that have applied social science to research focused on issues around food agriculture and natural resource management The book demonstrates that those who work in rural sociology either as researchers or practitioners apply community development and participatory techniques to socio environmental interaction The book discusses how the evolving concept of interconnected social and ecological systems SES emerged recognizing the inherent complexity adaptive nature and resilience of such systems This book engages with contemporary theory as well as new cutting edge transdisciplinary research evidenced in case studies from three continents     *The Report: Papua New Guinea* 2015 Oxford Business Group,2016-09-17 In Papua New Guinea hopes are high that real change is on its way the country s**

political administrative financial and technical leaders now have to find a way to ensure the most productive distribution and use of financial resources Many international actors are watching closely to see how this young country negotiates its path Papua New Guinea became a major exporter of gas in 2014 when the 19bn PNG liquefied natural gas LNG project was completed ahead of schedule and within budget significantly increasing the size and strength of the economy The year ahead is likely to see PNG benefit from the further development of its hydrocarbons sector fuelling the growth of its economy as a whole The LNG influx also poses challenges however in terms of ensuring inclusive growth and productive use of the new revenues PNG takes pride in being a final frontier of natural and cultural development but the task ahead is to protect the country s heritage while becoming part of the global economy      **To the Islands** Paul Battersby,2007-01-01 To the Islands traces the persistence across two centuries of a regional idea expressed variously as Australasia the Malay Archipelago and the Islands The book explores the manifestations of this idea in trade travel investment and diplomatic interactions between Australia and its island neighbors from the early years of British colonization to the present day
