**Protected Landscapes and Cultural and Spiritual Values** Josep-Maria Mallarach, Josep Maria Mallarach i Carrera, 2008 Documents using case studies the non material values that are to be found in protected landscapes **The Grove Encyclopedia of Medieval Art and Architecture** Colum Hourihane, 2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture **La Conquistadora** Amy G. Remensnyder, 2014-03 La Conquistadora explores Mary's prominence on and off the battlefield in the culturally and ethnically diverse world of medieval Iberia where Muslims Christians and Jews lived side by side and in colonial Mexico where Spaniards and indigenous peoples mingled Charter, Customs, and Constitutions of the Cistercians Thomas Merton, 2015 As master of novices for ten years 1955-1965 at the Cistercian Abbey of Our Lady of Gethsemani in Kentucky Thomas Merton was responsible for the spiritual formation of young men preparing for monastic profession In this volume three related sets of Merton's conferences on ancient and contemporary documents governing the lives of the monks are published for the first time on the Carta Caritatis or Charter of Charity the foundational document of the Order of Cistercians on the Consuetudines the twelfth century collection of customs and regulations of the Order on the twentieth century Constitutions of the Order the basic rules by which Merton and his students actually lived at the time These conferences form an essential part of the overall picture of Cistercian monastic life that Merton provided as part of his project of initiation into the monastic tradition that is evident in the broad variety of courses that he put together and taught over the period of his mastership As Abbot John Eudes Bamberger also himself a former student of Merton notes in his preface to this volume The texts presented in this present book eventually gave rise to the Cistercian way of spiritual living that continues to contribute to the Church's witness in this new millennium This publication is a witness to the process of transformation that ensures the continuity of the Catholic monastic tradition that witnesses to the God who as Saint Augustine observed is ever old and ever new *The Papal Monarchy* Colin Morris, 1989-05-18 The two centuries covered in this volume were among the most creative in the history of the Church Colin Morris charts the emergence of much that is considered characteristic of European culture and religion including universities and commercial cities the crusades the friars chivalry marriage and church architecture In all these developments the Roman Church played an important and often fundamental role A re-evaluation of that role is now particularly apt given the dissolution of Christendom in its old form witnessed by today's generation **The Cistercian Order in Medieval Europe** Emilia Jamrozik, 2015-06-22 The Cistercian Order in Medieval Europe offers an accessible and engaging history of the Order from its beginnings in the twelfth century through to the early

sixteenth century Unlike most other existing volumes on this subject it gives a nuanced analysis of the late medieval Cistercian experience as well as the early years of the Order Jamrozik argues that the story of the Cistercian Order in the Middle Ages was not one of a Golden Age followed by decline nor was the true Cistercian spirit exclusively embedded in the early texts to remain unchanged for centuries Instead she shows how the Order functioned and changed over time as an international organisation held together by a novel management system from Estonia in the east to Portugal in the west and from Norway to Italy The ability to adapt and respond to these very different social and economic conditions is what made the Cistercians so successful This book draws upon a wide range of primary sources as well as scholarly literature in several languages to explore the following key areas the degree of centralisation versus local specificity how much the contact between monastic communities and lay people changed over time how the concept of reform was central to the Medieval history of the Cistercian Order This book will appeal to anyone interested in Medieval history and the Medieval Church more generally as well as those with a particular interest in monasticism

**European Art of the Fourteenth Century** Sandra Baragli,2007 Fourteenth century Europe was ravaged by famine war and most devastatingly the Black Plague These widespread crises inspired a mystical religiosity which emphasized both ecstatic joy and extreme suffering producing emotionally charged and often graphic depictions of the Crucifixion and the martyrdoms of the saints This third volume in the Art through the Centuries series highlights the most noteworthy concepts geographic centers and artists of this turbulent century Important facts about the subjects under discussion are summarized in the margins of each entry and salient features of the illustrated art works are identified and discussed

**Rulers and Rulership in the Arc of Medieval Europe, 1000-1200** Christian Raffensperger,2023-08-24 Rulers and Rulership in the Arc of Medieval Europe challenges the dominant paradigm of what rulership is and who rulers are by decentering the narrative and providing a broad swath of examples from throughout medieval Europe Within that territory the prevalent idea of monarchy and kingship is overturned in favor of a broad definition of rulership This book will demonstrate to the reader that the way in which medieval Europe has been constructed in both the popular and scholarly imaginations is incorrect Instead of a king we have multiple rulers male and female ruling concurrently Instead of an independent church or a church striving for supremacy under the Gregorian Reform we have a pope and ecclesiastical leaders making deals with secular rulers and an in depth interconnection between the two Finally instead of a strong centralizing polity growing into statehood we see weak rulers working hand in glove with weak subordinates to make the polity as a whole function Medievalists Byzantinists and Slavists typically operate in isolation from one another They do not read each other s books or engage with each other s work This book requires engagement from all of them to point out that the medieval Europe that they work in is one and the same and demands collaboration to best understand it
