Power Of Babel:

The Power of Babel John McWhorter, 2003-01-07 There are approximately six thousand languages on Earth today each a descendant of the tongue first spoken by Homo sapiens some 150 000 years ago While laying out how languages mix and mutate over time linguistics professor John McWhorter reminds us of the variety within the species that speaks them and argues that contrary to popular perception language is not immutable and hidebound but a living dynamic entity that adapts itself to an ever changing human environment Full of humor and imaginative insight The Power of Babel draws its illustrative examples from languages around the world including pidgins Creoles and nonstandard dialects

The Old Testament Is Dying (Theological Explorations for the Church Catholic) Brent A. Strawn, 2017-03-14 The Old Testament constitutes the majority of the Christian Bible and provides much of the language of Christian faith However many churches tend to neglect this crucial part of Scripture This timely book details a number of ways the Old Testament is showing signs of decay demise and imminent death in the church Brent Strawn reminds us of the Old Testament's important role in Christian faith and practice criticizes current misunderstandings that contribute to its neglect and offers ways to revitalize its use in the church

The Power of Babel Ali Al'Amin Mazrui, Alamin M. Mazrui, Alamin Mazrui, 1998-08-03 Linguists estimate that there are currently nearly 2 000 languages in Africa a staggering figure that is belied by the relatively few national languages While African national politics economics and law are all conducted primarily in the colonial languages the cultural life of the majority of citizens is conducted in a bewildering Babel of local and regional dialects making language itself the center of debates over multiculturalism gender studies and social theory In The Power of Babel the noted Africanist scholar Ali Mazrui and linguist Alamin Mazrui explore this vast territory of African language The Power of Babel is one of the first comprehensive studies of the complex linguistic constellations of Africa It draws on Ali Mazrui's earlier work in its examination of the triple heritage of African culture in which indigenous Islamic and Western traditions compete for influence In bringing the idea of the triple heritage to language the Mazruis unravel issues of power culture and modernity as they are embedded in African linguistic life The first section of the book takes a global perspective exploring such issues as the Eurocentrism of much linguistic scholarship on Africa part two takes an African perspective on a variety of issues from the linguistically disadvantaged position of women in Africa to the relation of language policy and democratic development the third section presents a set of regional studies centering on the Swahili language's exemplification of the triple heritage The Power of Babel unites empirical information with theories of nationalism and pluralism among others to offer the richest contextual account of African languages to date

The Power of Pentecost Martin Salter,2012-03-16 Two thousand years ago a Jewish fisherman stood up before a crowd of thousands to explain an extraordinary event A bewildered crowd had heard the wonders of God being declared in their own languages Peter's explanation This was the fulfillment of the promise of the prophet Joel a promise that in the last days people would prophesy see dreams and visions and perform signs and wonders That extraordinary day and that extraordinary promise have shaped the church over the last two thousand years The question before us is what does it mean for us today This book seeks to address and answer some of those questions by examining carefully the verses in question Acts 2 17 21 and their wider context and purpose
