Sawyer, 2020-04-07 *The Seven Military Classics* is one of the most profound studies of warfare ever written a stanchion in sinological and military history It presents an Eastern tradition of strategic thought that emphasizes outwitting one's opponent through speed stealth flexibility and a minimum of force an approach very different from that stressed in the West Safeguarded for centuries by the ruling elite of imperial China even in modern times these writings have been known only to a handful of Western specialists This volume contains seven separate essays written between 500 BCE and 700 CE that preserve the essential tenets of strategy distilled from the experience of the most brilliant warriors of ancient China

The Seven Military Classics of Ancient China Sun Tzu, Wu Qi, Wei Liao, Sima Rangju, Jiang Ziya, 2017-09-21 Written between 500 BCE and 700 CE these seven texts have inspired generals for millennia both in China and the wider world Featuring Sun Tzu's *The Art of War* this new translation brings to light the military masterpieces of ancient China These seven texts display an understanding of strategy and warfare still relevant more than 2 000 years after they were originally written Together they present a uniquely eastern tradition of warfare that emphasizes speed stealth and cunning This collection includes *The Art of War* Wuzi Wei Liaozi Taigong's Six Secret Teachings *The Methods of the Sima* Questions and Replies Between Emperor Taizong of Tang and General Li Jing

The Essence Of War Ralph D. Sawyer, 2009-04-29 From antiquity the history of China has been marked by invading tribes warring states and popular uprisings This heritage of conflict produced a body of martial literature exploring the fundamental principles of warfare and their methods of employment Fully aware of the tragic consequences of battle the authors of these texts emphasized that bloodshed and war should be avoided whenever possible But they argued this is possible only when the principles of leadership and strategy have been mastered and the dynamics of conflict thoroughly analyzed Over the centuries these texts have been studied throughout Asia not only by generals on the battlefield but by leaders of all kinds concerned with the management of human conflict in all its forms *The Essence of War* presents eight of these classics written from 500 B C E to 700 C E including Sun tzu's *Art of War* and Sun Pin's *Military Methods* The book introduces the core principles of Chinese military science grouping selected passages and key

Amoral Politics Ben-Ami Scharfstein,2016-02-24 This is a study of how and why politics is amoral It deals especially with what the author terms Machiavellism the disregard of moral scruples for political ends that leads to the justification and use of deception and force in all aspects of political life A comparative cultural study it examines the theory and practice of politics in ancient China ancient India Renaissance Italy and modern Europe as well as tribal cultures in order to test how widespread such political amorality has been throughout history Scharfstein concludes that political or ethical theories that do not view Machiavellism

as inseparable from political life are inadequate to human affairs and of doubtful relevance to politics In reaching this conclusion he explores such topics as why people readily accept political violations of truthfulness and fairness whether decisive philosophical arguments have been advanced against Machiavellism whether the use of deception in politics is in politicians own best interests and whether the prevalence of Machiavellism rules out the likelihood of a better political future
