Several Deaths Later:

Several Deaths Later Ed Gorman, 2016-09-17 The popular game show Celebrity Circle is something of a graveyard for show biz mediocrities so Tobin the five foot five movie critic with the fiery hair and the equally fiery temper is less than thrilled to accept a guest stint as the show films a week's worth of broadcasts aboard an ocean liner But Tobin's career has hit the skids since he solved his TV partner's murder Murder on the Aisle money is money and besides he gets a free cruise in the bargain But someone on board has more in mind than fabulous prizes and Ken Norris the smarmy emcee of Celebrity Circle turns up with a knife in his back The Captain blames Cindy McBain the young secretary from Kansas City in whose room the victim's body was discovered Although Tobin finds her wearing nothing but a robe covered in Norris blood he thinks she is innocent if less than pure and he swears his belief has nothing to do with her incredible body or her enthusiastically expressed affection for celebrities

Dying and Death in Later Anglo-Saxon England Victoria Thompson, 2012 Study of late Anglo Saxon texts and grave monuments illuminates contemporary attitudes towards dying and the dead Pre Conquest attitudes towards the dying and the dead have major implications for every aspect of culture society and religion of the Anglo Saxon period but death bed and funerary practices have been comparatively and unjustly neglected by historical scholarship In her wide ranging analysis Dr Thompson examines such practices in the context of confessional and penitential literature wills poetry chronicles and homilies to show that complex and ambiguous ideas about death were current at all levels of Anglo Saxon society Her study also takes in grave monuments showing in particular how the Anglo Scandinavian sculpture of the ninth to the eleventh centuries may indicate not only the status but also the religious and cultural alignment of those who commissioned and made them Victoria Thompson is Lecturer in the Centre for Nordic Studies at the University of the Highlands and Islands

Environment, Society and the Black Death Per Lagerås, 2016-01-30 In the mid fourteenth century the Black Death ravaged Europe leading to dramatic population drop and

social upheavals Recurring plague outbreaks together with social factors pushed Europe into a deep crisis that lasted for more than a century The plague and the crisis and in particular their short term and long term consequences for society have been the matter of continuous debate Most of the research so far has been based on the study of written sources and the dominating perspective has been the one of economic history A different approach is presented here by using evidence and techniques from archaeology and the natural sciences Special focus is on environmental and social changes in the wake of the Black Death Pollen and tree ring data are used to gain new insights into farm abandonment and agricultural change and to point to the important environmental and ecological consequences of the crisis The archaeological record shows that the crisis was not only characterized by abandonment and decline but also how families and households survived by swiftly developing new strategies during these uncertain times Finally stature and isotope studies are applied to human skeletons from medieval churchyards to reveal changes in health and living conditions during the crisis The conclusions are put in wider perspective that highlights the close relationship between society and the environment and the historical importance of past epidemics

Poems by the Late Thomas Lovell Beddoes, Author of Death's Jest-book Thomas Lovell Beddoes,1851

Death in Late Bronze Age Greece Joanne M. A. Murphy,2020-01-06 Late Bronze Age tombs in Greece and their attendant mortuary practices have been a topic of scholarly debate for over a century dominated by the idea of a monolithic culture with the same developmental trajectories throughout the region This book contributes to that body of scholarship by exploring both the level of variety and of similarity that we see in the practices at each site and thereby highlights the differences between communities that otherwise look very similar By bringing together an international group of scholars working on tombs and cemeteries on mainland Greece Crete and in the Dodecanese we are afforded a unique view of the development and diversity of these communities The papers provide a penetrative analysis of the related issues by discussing tombs connected with sites ranging in size from palaces to towns to villages and in date from the start to the end of the Late Bronze Age This book contextualizes the mortuary studies in recent debates on diversity at the main palatial and secondary sites and between the economic and political strategies and practices throughout Greece The papers in the volume illustrate the pervasive connection between the mortuary sphere and society through the creation and expression of cultural narratives and draw attention to the social tensions played out in the mortuary arena

Deaths After Police Contact David Baker,2016-10-18 This book investigates death after police contact in England and Wales in the twenty first century It examines how regulatory bodies construct accountability in such cases Cases of death after police contact have the potential to cause deep unease in society They highlight the unique role of the police in being legitimately able to use force whilst at the same time being expected to preserve life People who are from Black or Minority Ethnic backgrounds or have mental health issues or are dependent on substances are disproportionately more likely to die in these cases and this emphasises the sensitive nature of many of these deaths to society Deaths after Police Contact examines police legitimacy and the legitimacy

of police regulators in these cases The book argues that accountability is produced by a relatively arbitrary system of regulation that investigates such deaths as individual cases rather than attempting to learn lessons from annual trends and patterns that might prevent future deaths It will be of great interest to scholars and upper level students of policing and criminal justice

The Death Penalty in Late-Medieval Catalonia Flocel Sabaté,2019-09-03

The death penalty was unusual in medieval Europe until the twelfth century From that moment on it became a key instrument of rule in European society and we can study it in the case of Catalonia through its rich and varied unpublished documentation The death penalty was justified by Roman Law accepted by Theology and Philosophy for the Common Good and used by rulers as an instrument for social intimidation The application of the death penalty followed a regular trial and the status of the individual dictated the method of execution reserving the fire for the worst crimes as the Inquisition applied against the so called heretics The executions were public and the authorities and the people shared the common goal of restoring the will of God which had been broken by the executed person The death penalty took an important place in the core of the medieval mind people included executions in the jokes and popular narratives while the gallows filled the landscape fitting the jurisdictional limits and also showing rotten corpses to assert that the best way to rule and order the society is by terror This book utilises previously unpublished archival sources to present a unique study on the death penalty
