## **Middle East And Europe The Power Deficit:**

The Middle East and Europe Barbara Allen Roberson, 1998 Leading commentators on Europe and the Middle East explore many of the key issues which have informed the relationship between the two regions Ranging from Europe's colonial legacies to an uncertain economic future in the region the book covers the Cold War and after the profound influence of the US the rise of political Islam case studies including Europe and the Iranian revolution France's experiences in Algeria and Turkey's position between the two regions The EU it is argued has more influence over economic strategies than security issues in the Middle East These strategies have in turn promoted stability in the form of free trade zones ensuring vital economic development between the Middle East and Europe

**The Pro-Israel Lobby in Europe** Elvira King, 2016-03-02

The activities of pro Israel pressure groups and lobbyists in the US are well known But the pro Israel lobby in Europe is less prominent in both academic and media accounts In a unique account Elvira King identifies the pro Israeli groups which attempt to influence policy makers and implementers in the EU specifically examining Christian Zionist groups Through a detailed study of the European Coalition for Israel ECI the only Christian Zionist lobby in Brussels Elvira King analyses whether and how a religious group can and can fail to influence decision makers in the EU By exploring the context of European relations with Israel as well as the mechanisms through which pressure groups are able to influence EU wide policies King offers an analysis which demonstrates how the EU can be a site where religion and politics meet rather than just being a secular institution It therefore contains vital primary research for both those interested in the pro Israel lobby as well as those examining the role of religion in politics more generally

*EU Foreign Policy and Hamas* Adeeb

Ziadeh, 2017-10-20 Shortly after the overwhelming victory of Hamas in the 2006 parliamentary and municipal elections civil war broke out in the Gaza Strip between members of the two factions Hamas and Fatah The EU along with the US UN and Russia not only gave its support to Fatah against Hamas but also imposed a tough siege on the Hamas government in an attempt to force it to accept the Quartet's political conditions described by Hamas leaders as unfair and impossible Many observers are convinced that the EU's behaviour in this matter has been unreasonable and has conflicted with the EU's own democratic beliefs and values This book sheds light on the EU's policies in Palestine mainly from 2003 2013 and provides a thorough examination of the inconsistencies and paradoxes in the EU discourse towards Hamas and the determinants underlying such contradictions It explores the reasons behind the EU labelling the Hamas a terrorist organization and discusses why the EU has boycotted its democratically elected body since 2006 Significantly the book looks at whether the EU jeopardized its reputation and contravened its core normative values and objectives democracy promotion human rights the rule of law and fundamental freedoms by such a categorisation of Hamas Exploring the EU's policy towards Hamas is vital for understanding how the relationship between the EU and the rest of the Islamists in the Middle East is perceived as it enables both sides to have a cognitive basis upon which to construct better relations This book based upon a vast spread of

primary EU documents and interviews will therefore be a valuable resource for those studying the Arab Israeli conflict Political Islamic movements the Middle East Peace Process and anyone with an interest in European Union Foreign Policy

**The Emerging Euro-Mediterranean System** Dimitris Xenakis,Dimitris N. Chrysoschoou,2001 Focusing on the principal challenges facing the Euro Mediterranean partnership since the signing of the Barcelona Declaration in November 1995 this study assesses past European policies towards the region

**Routledge Handbook of Mediterranean Politics** Richard Gillespie,Frédéric Volpi,2017-08-14 The Mediterranean space defined by a major sea a large number of littoral countries and to some extent their hinterlands is at the same time an interface between Europe Africa and Asia This brings complex challenges in terms of achieving peace and stability Recently it has received intense international attention through the internal destructiveness and spill over from conflicts primarily those waged in Libya Syria and more remotely Iraq This Handbook provides an overview of the political processes that shape the Mediterranean region in the contemporary context It explores the issues of crucial importance to Mediterranean dynamics through a series of analytical sections that guide the reader towards a comprehensive understanding of the main regional interactions and trends The Handbook explores the complex historical formation of the contemporary Mediterranean geopolitical perspectives issues around peace and conflict the political economy of the region the role of non state actors and social movements societal and cultural trends The wide range of contributions from many of the leading academic experts on the region offers not only insights into the debates and processes that structure each theme but also key pointers for a more general understanding of how distinct political economic social and cultural dynamics interact across the region It will therefore be a key resource for policy makers and students and scholars of Mediterranean politics and international relations

**International Relations of the Middle East** Louise L'Estrange Fawcett,2016 Now in its fourth edition International Relations of the Middle East provides a thematic overview of the subject combining a history of the region with analysis of key themes actors and conflicts as well as topical material and perspectives

**International Relations of the Middle East** Louise Fawcett,2013-03-21 Leading scholars of Middle East politics and international relations present comprehensive coverage of the international politics of the Middle East a region at the forefront of international attention

**The Political Economy of EU Ties with Iraq and Iran** Amir M. Kamel,2016-01-26 This book analyzes the failure of the EU s peace through trade policy in Iraq and Iran between 1979 and 2009 from a theoretical and empirical perspective The author adds to the trade peace theory debate and provides evidence supporting the need to review the EU s peace through trade policy towards Iraq and Iran and in general

*Europe and Islam* Erik Jones,Saskia van Genugten,2018-02-02 This book provides an in depth analysis of the challenging relationship between Europe and Islam The general chapters on secularism security identity and solidarity show the challenge of promoting a stable multi cultural society In depth analysis of France Germany Britain the Netherlands and Italy reveal the extent to which this challenge of stable multiculturalism differs from one country to the next The argument that emerges is

not that Europe and Islam are incompatible Rather it is that reconciling the tensions that arise from the mixing of different cultures will require enormous patience understanding and investment The contributors represent some of the leading voices in debates about European politics and not just those focusing narrowly on the question of Islam Hence this volume offers both a gateway to understanding the special relationship between Europe and the Muslim world and a means of tying that understanding to the future of European integration This book was previously published as a special issue of The International Spectator *International Organizations and The Rise of ISIL* Daniel Silander, Don Wallace, John Janzekovic, 2016-07-15 This book seeks to understand the obligations of the international community to promote and protect state and human security in situations of international humanitarian crises In Iraq and Syria as well as in neighbouring states the rise of ISIL has raised serious state and human security challenges This study explores the relationships between the Global Regional Partnership the United Nations and nine organizations in their attempt to deal with the challenges presented by ISIL Each organization is analyzed in terms of how it has responded in the past and how it is now responding to the ISIL threat based on three perspectives resource capacities military political economic technological normative willingness and readiness and impediments to capacity and abilities The overall aim is to discern what capacities and abilities international organizations have to protect state and human security and prevent civilians from mass atrocities inflicted by ISIL forces The study addresses the role of international organizations when the UNSC is unable or unwilling to uphold the most fundamental norms and values in the UN Charter This approach acknowledges that within the international community there is an overall acceptance on security for a partnership between the UN and regional organizations but that there is also a contested call for a renegotiated international contract on state and human security This volume will be of much interest to students of international relations human rights peace and conflict studies terrorism studies and International Relations

**Contested State Identities and Regional Security in the Euro-Mediterranean Area** Raffaella A. Del

Sarto, 2006-07-07 Del Sarto argues that internal disputes over national identity limit the ability of states to participate in regional forums This is a close look at problems faced in negotiating the Euro Mediterranean Partnership EMP as a regional security project with particular attention to case studies of Israel Egypt and Morocco **After the Arab Uprisings**

Raymond Hinnebusch, 2018-02-02 The Arab Uprisings that began in 2010 removed four presidents and made more mobilized mass publics an increased factor in the politics of regional states The main initial problematic of the Arab Uprising was how to translate mass protest into democratization and ultimately democratic consolidation yet four years later there was little democratization This book explores various aspects of this question while comparing outcomes in three states Egypt Syria and Tunisia The introduction by Raymond Hinnebusch explores how far different starting points the features of the regime and of the uprising explain these pathways Morten Valbjørn then considers the consequences of the Arab uprisings for the credibility of rival democratization and post democratization paradigms Vincent Durac examines the efficacy of anti system

social movements in challenging regimes but their inability to steer a democratic transition Joshua Stacher examines the increased violence deployed by more coercive authoritarian regimes to prevent such a transition Frederic Volpi and Ewan Stein examine the consequences of the relative balance between different kinds of Islamists for outcomes James Allison then examines the impact of workers movements on democratic potentials Adham Saouli assesses the mobilization of communal identities by ruling elites and counter elites Raymond Hinnebusch focuses on the negative impact on democratization of competitive external interference inside the uprising states In Hinnebusch's conclusion the combined effects of the agency of these forces and the political cultural and economic contexts in which they operate are summarized This book was previously published as a special issue of *Democratization*     Negotiating the Euro-Mediterranean Partnership Ricardo Gomez, 2018-01-12 This title was first published in 2003 In this study Ricardo Gomez traces the origins of the external Mediterranean policy of the European Union EU and examines in detail the negotiations that shaped the policy and its impact Combining historical analysis with case studies of the Euro Med partnership initiative EU policy on Algeria and the EU's involvement in the Middle East peace process he covers a diverse array of issues that will appeal to scholars across a variety of sub disciplines of political science and international relations     *A New Euro-Mediterranean Cultural Identity* Stefania Panebianco, 2004-08-02 The Euro Mediterranean Partnership was formed in 1995 in Barcelona In this volume concepts of democracy civil society human rights and dialogue among civilizations in the Mediterranean region are addressed in the context of the new Euro Mediterranean Partnership     **Euro-Mediterranean Security: A Search for Partnership** Sven Biscop, 2017-11-22 This title was first published in 2003 This work provides a clearer understanding of the EU's approach towards security in the Mediterranean After examining the EU's interests and the potential threats to security in the region it analyzes EU security policy towards the region as a whole through the Euro Mediterranean Partnership and towards all disputes and conflicts in the area It recommends opening up the European Security and Defence Policy to Mediterranean participation in order to establish a deep and equitable security partnership between both shores The book argues that this way the EU could implement its innovative comprehensive and co operative approach to security Rather than focusing on the military aspect alone this approach takes into account all dimensions of security political socio economic cultural and ecological and is based on partnership rather than confrontation It therefore contrasts quite sharply with the policies advocated in the US National Security Strategy     **Mediterranean Security Into the Coming Millennium** Stephen J. Blank, 1999     Rogue States and U.S. Foreign Policy Robert Litwak, 2000-02-14 President Clinton and other U S officials have warned that rogue states pose a major threat to international peace in the post Cold War era But what exactly is a rogue state Does the concept foster a sound approach to foreign policy or is it in the end no more than a counterproductive political epithet Robert Litwak traces the origins and development of rogue state policy and then assesses its efficacy through detailed case studies of Iraq Iran and North Korea He shows that the policy is politically selective inhibits the ability

of U S policymakers to adapt to changed conditions and has been rejected by the United States major allies Litwak concludes that by lumping and demonizing a disparate group of countries the rogue state approach obscures understanding and distorts policymaking In place of a generic and constricting strategy he argues for the development of differentiated strategies of containment tailored to the particular circumstances within individual states **Energy in Soviet Policy** ,1981

*The Foreign Policies of the European Union and the United States in North Africa* Francesco Cavatorta,Vincent Durac,2013-09-13 The war in Iraq seemed to bring to a head underlying differences between the United States and the vast majority of European countries regarding the best means to maintain international peace and stability The unilateralism of the United States as opposed to the multilateralism of the European Union is seen as a very significant source of potential rivalry between the two actors This volume examines in detail whether the policies of the United States and the EU are truly diverging with respect to the most pressing issues facing North Africa or whether in fact they are converging in terms of objectives to be achieved and strategies for their implementation Through a number of papers that include both comparative and case specific studies this book enables a better understanding of the differences and similarities in EU and US foreign policies and security strategies for the region a clearer analysis of their respective democracy promotion policies and a better examination of their respective approach to the Islamist question in light of the continued success of such movements This book was originally published as a special issue of the Journal of North African Studies European Union and New Regionalism Mario Telò,2013-03-28 Stemming from an international and multidisciplinary network of leading specialists this best selling text is fully updated with new chapter additions With the first edition prepared at the end of the last century this new edition anticipates the world of regionalism as we move further into this millennium This new edition offers A vigorous response to conventional wisdom on EU international identity An exploration of key issues of regionalism versus globalization and the potential for world economic and political governance through regionalism A key resource for postgraduate or undergraduate study and research of international relations European studies comparative politics and international political economy Taking into account the expanded European Union the volume comprises contributions from established scholars in the field to highlight external relations in the framework of the development of regional arrangements within the globalized world of the 21st century
