Southeast Asia Donald G McCloud, 2018-02-07 Bridging the perceived gap between Southeast Asia's historical and contemporary situations Donald McCloud focuses on continuities in the region's internal dynamics as well as its relationship to the greater global environment The author challenges widely held views that diversity and fragmentation are the hallmarks of the region identifying instead the commonalities that have bound the countries of Southeast Asia together through at least two millennia and have provided the basis for a unique regional dynamic It has only been since World War II that Southeast Asians long influenced by the global environment have defined and developed their own institutions social structures and communities Turning away from inadequate and unadaptable Western institutions they have begun to create structures more in tune with their own historical experiences Particularly in the political sphere many of these new structures seemed to be straightforward military dictatorships However time has shown them to be more complex and many unique organizational practices have developed that may presage more open political systems if not democracies by strict Western definitions With the expansion of regional cooperation through ASEAN and strong economic growth confidence among Southeast Asian states has grown as well The growing references to an Asian way of life have given verbal expression to a surge in neotraditional values and behavior that have always been part of the fabric of Asian life but that in the past were frowned upon as nonwestern This text traces the evolution of Southeast Asia and focuses for the first time on the neotraditional bases for contemporary independent development of the region **Southeast Asian Ecocriticism** John Charles Ryan, 2017-11-08 Southeast Asian Ecocriticism presents a timely exploration of the rapidly expanding field of ecocriticism through its devotion to the writers creators theorists traditions concerns and landscapes of Southeast Asian countries While ecocritics have begun to turn their attention to East and South Asian contexts and particularly to Chinese and Indian cultural productions less emphasis has been placed on the diverse environmental traditions of Southeast Asia Building on recent scholarship in Asian ecocriticism the book gives prominence to the range of theoretical models and practical approaches employed by scholars based within and located outside of the Southeast region Consisting of twelve chapters Southeast Asian Ecocriticism includes contributions on the ecological prose poetry cinema and music of Indonesia Malaysia Myanmar the Philippines Thailand and Vietnam The authors emphasize the transnational exchanges of materials technologies texts motifs and ideas between Southeast Asian countries and Australia England Taiwan Formosa and the United States From environmental hermeneutics postcolonial studies indigenous studies and ecofeminism to critical plant studies ecopoetics and ecopedagogy the edited collection embodies the dynamic breadth of interdisciplinary environmental

scholarship today Southeast Asian Ecocriticism foregrounds the theories practices and prospects of ecocriticism in the region The volume opens up new directions and reveals fresh possibilities not only for ecocritical scholarship in Southeast Asia but for a comparative environmental criticism that transcends political boundaries and national canons The volume highlights the important role of literature in heightening awareness of ecological issues at local regional and global scales **South-East Asian Linguistics** J. H. C. S. Davidson, 2013-01-11 Published in the year 1990 Understanding Party System Change in Western Europe is a valuable contribution to the field of Politics Southeast Asia Christoph Antweiler, 2004 **The Politics of Environment in Southeast Asia** Philip Hirsch, Carol Warren, 2002-01-31 The Politics of Environment in Southeast Asia charts the emergence of the environment as an issue of public debate in the region Through a series of case studies the authors explore the coalescence of social forces around environmental issues the process of alliance formation and the role of state institutions media and NGOs in the complex political battles over resource allocation The volatile tensions between the winners and losers in this struggle for the environment will make Southeast Asia a focus of increased attention **The Malay World of Southeast Asia** Patricia Lim Pui Huen, 1986 Over 5 000 entries arranged in four parts Part I comprises reference and general works to provide a guide to information on Southeast Asia Part II provides the setting of space and time Part III features the people and Part IV the many facets of culture and society language ideas beliefs values institutions creative expression and social and cultural change Within each section the arrangement is geographical beginning with Southeast Asia as a whole followed by the various countries in alphabetical order **Sacred Natural Sites** Bas Verschuuren, Jeffrey McNeely, Robert Wild, Gonzalo Oviedo, 2012-06-25 This book illustrates that sacred natural sites although often under threat exist within and outside formally recognised protected areas and heritage sites Sacred sites may well be some of the last strongholds for building resilient networks of connected landscapes as well as forming important nodes for maintaining a dynamic cultural fabric in the face of global change The book therefore bridges the gap between approaches to the conservation of cultural and biological diversity It applies a multidisciplinary approach to recognizing understanding and managing sacred natural sites It provides examples of how economic benefits such as from tourism and fisheries can be compatible goals with the conservation of sacred biodiversity and thus advancing the welfare of both people and wildlife It concludes that conservation efforts are likely to be successful only if the cultural and spiritual values are taken into account together with the socio economic interests of the custodian communities and other relevant stakeholders from books google ocm hk
