Brown, 2012-12-06 *A Companion to Albert the Great* Irven Resnick, 2013-03-27 Albert the Great, Albertus Magnus, d. 1280 is one of the most prolific authors of the Middle Ages and the only scholar to be known as the Great during his own lifetime. As the only Scholastic to have commented upon all the works of Aristotle, Albert is also known as the Universal Doctor, Doctor Universalis, for his encyclopedic intellect which enabled him to make important contributions not only to Christian theology but also to natural science and philosophy. The contributions to this omnibus volume will introduce students of philosophy, science, and theology to the current state of research and multiple perspectives on the work of Albert the Great. Contributors include Jan A. Aertsen, Henryk Anzulewicz, Benedict M. Ashley, Miguel de Asa, Steven Baldner, Amos Bertolacci, Thérèse Bonin, Maria Burger, Markus F. Philosophers investigate not just the metaphysics of time and our experience and representation of time but the role of time in ethics and action and philosophical issues in the sciences of time, especially with regard to quantum mechanics and relativity theory. This Handbook presents twenty-three specially written essays by leading figures in their fields; it is the first comprehensive collaborative study of the philosophy of time and will set the agenda for future work. **Elementary Treatise on Natural Philosophy** Augustin Privat-Deschanel, 1880 **Philosophical Foundations for a Christian Worldview** J. P. Moreland, William Lane Craig, 2003-03-31 Arguments are clearly presented and rival theories are presented with fairness and accuracy. **BOOK JACKET** Handbook of Medieval Culture. Volume 3 Albrecht Classen, 2015-08-31 A follow-up publication to the Handbook of Medieval Studies, this new reference work turns to a different focus: medieval culture. Medieval research has

grown tremendously in depth and breadth over the last decades. Particularly our understanding of medieval culture of the basic living conditions and the specific value system prevalent at that time has considerably expanded to a point where we are in danger of no longer seeing the proverbial forest for the trees. The present innovative handbook offers compact articles on essential topics: ideals, specific knowledge and concepts defining the medieval world as comprehensively as possible. The topics covered in this new handbook pertain to issues such as love and marriage, belief in God, hell and the devil, education, lordship and servitude, Christianity versus Judaism and Islam, health, medicine, the rural world, the rise of the urban class, travel, roads and bridges, entertainment, games and sport activities, numbers, measuring the education system, the papacy, saints, the senses, death and money.
