Naturalism And Normativity Philosophical Issues

Marcin Milkowski, Konrad Talmont-Kaminski

Naturalism And Normativity Philosophical Issues:

Naturalism and Normativity Mario De Caro, David Macarthur, 2010 Normativity concerns what we ought to think or do and the evaluations we make For scientific naturalists the moral is reached by reducing the normative to the nonnormative For orthodox nonnaturalists the moral is found in the transcendent realm of norms This book challenges both sides of this debate Beyond Description Marcin Milkowski, Konrad Talmont-Kaminski, 2010 The contributors to this volume engage with issues of normativity within naturalised philosophy The issues are critical to naturalism as most traditional notions in philosophy such as knowledge justification or representation are said to involve normativity Some of the contributors pursue the question of the correct place of normativity within a naturalised ontology with emergentist and eliminativist answers offered on neighbouring pages Others seek to justify particular norms within a naturalised framework the more surprising ones including naturalist takes on the a priori and intuitions Finally yet others examine concrete examples of the application of norms within particular epistemic endeavours such as psychopathology and design The overall picture is that of an intimate engagement with issues of normativity on the part of naturalist philosophers questioning some of the fundamentals at the same time as they try to work out many of the details **The Routledge Companion to Twentieth Century**

Philosophy Dermot Moran, 2008-10-27 Featuring twenty two chapters written by leading international scholars this major publication covers all the key figures and movements from Frege to Derrida and philosophy of language to feminist philosophy Christian Ethics and Commonsense Morality Kevin Jung, 2014-11-27 Christian Ethics and Commonsense Morality goes against the grain of various postmodern approaches to morality in contemporary religious ethics In this book Jung seeks to provide a new framework in which the nature of common Christian moral beliefs and practices can be given a new meaning He suggests that once major philosophical assumptions behind postmodern theories of morality are called into question we may look at Christian morality in quite a different light On his account Christian morality is a historical morality insofar as it is rooted in the rich historical traditions of the Christian church Yet this kind of historical dependence does not entail the evidential dependence of all moral beliefs on historical traditions It is possible to argue for the epistemic autonomy of moral beliefs according to which Christian and other moral beliefs can be justified independently of their historical sources The particularity of Christian morality lies not in its particular historical sources that also function as the grounds of justification but rather in its explanatory and motivational capacity to further articulate the kind of moral knowledge that is readily available to most human beings and to enable people to act upon their moral knowledge **Returning to Scientific**

Practice Xu Zhu, Wu Tong, 2019-05-17 This book is a result from a collective study on philosophy of scientific practice PSP which began around 2002 and still ongoing There is an apparently increasing interest in scientific practice influenced by the historicistic philosophy of science and the sociology of scientific knowledge SSK Prof WU Tong and his research group believe that it is necessary for PSP to turn from the theory dominant position to the practice dominance PSP has also put

forward the possibility of reinterpreting the epistemic status of local knowledge in Chinese tradition which provides the most significant motivation to participate this study In this book we have selected three main cases namely Chinese medicine Fengshui and Ethnobotany to examine the effect of PSP The aim of our collective study is not merely on theoretical construction of PSP but also to consider the various applications of PSP especially for re interpreting and demonstrating the variety of local knowledge from traditional China which seems to be a genuine contribution to the international enterprise of philosophy of science particularly made by Chinese scholars

The Selected Writings of Eva Picardi

Eva Picardi,2020-07-09 Eva Picardi has been one of the most influential Italian analytic philosophers of her generation She taught for forty years at the University of Bologna raising three generations of students This collection of selected writings honors her work confirming Picardi s status as one of the most important Frege scholars of her generation and a leading authority on the philosophy of Donald Davidson Bringing together Picardi s contributions to the history of analytic philosophy it includes her papers on major 20th century figures such as Wittgenstein Quine Davidson Rorty and Brandom She examines their work in comparison with the philosopher Michael Dummett s illuminating contrasts between American Neo pragmatism and Continental philosophy By considering key contributions made by Gadamer and Adorno and contrasting them with Davidson and Rorty s proposals Picardi is able to bridge the Analytic and Continental divide Featuring an introduction by Annalisa Coliva and new translations of previously unpublished papers this collection emphasizes the significance of Picardi s work for a new generation of readers

Nietzsche's Renewal of Ancient Ethics

Neil Durrant,2022-12-29 Nietzsche s Renewal of Ancient Ethics connects different strands in Nietzsche studies to progress a unique interpretation of friendship in his writings Exploring this alternative approach to Nietzsche s ethics through the influence of ancient Greek ideals on his ideas Neil Durrant highlights the importance of contest for developing strong friendships Durrant traces the history of what Nietzsche termed a higher friendship to the ancient Greek ideal of the Homeric hero In this kind of friendship neither person attempts to tyrannize or dominate the other but rather aims to promote the differences between them as a way of stimulating stronger and fiercer contests Through this exchange they discover new heights new standards of excellence both for themselves and for others Durrant shows how the development of this approach to personal relationships relied on Nietzsche rejecting the Christian ideals of love and compassion to build an ethics which incorporated aspects of evolutionary biology into the ancient Homeric ideals he was himself wedded to The resulting higher friendship is strong enough to include not only love and compassion but also enmity and opposition expanding our notion of what is good and ethical in the process

The Waning of Materialism Robert C. Koons,George Bealer,2010-03-25 The case against materialism comprises arguments from conscious experience from the unity and identity of the person from intentionality mental causation and knowledge
