Library, George Peabody Library, 1892 *Introduction to the History of Science* George Sarton, 1927 **Catalogue of the Library of the Peabody Institute of the City of Baltimore ...** George Peabody Library, 1892 Catalogue of the Library of the Peabody Institute of the City of Baltimore N. H. Morison, 1892 Catalogue of the Library of the Peabody Institute of the City of Baltimore , 1883 *Apuleius: Fragmentary Works (Apulei Madaurensis Operum deperditorum reliquiae)* Antonio Stramaglia, Aldo Corcella, 2025-07-19 This edition of Apuleius's fragmentary works includes 62 items which based on the most up to date scholarship can be attributed with reasonable certainty to the lost Apuleius In most cases identifying the ipsissima verba of the author is difficult or impossible and even the methodological validity of such an attempt remains open to debate Following established precedents no distinction is drawn between testimonia and fragmenta instead a single consecutive numbering system is adopted for the various reliquiae These are drawn from sources in Latin and Greek as well as in Syriac Arabic and Armenian Passages known from oriental languages are presented here in a Latin back translation specially prepared for this edition Each entry includes a pre apparatus wherever applicable and a selective but meticulous apparatus criticus For certain Greek and Latin sources still lacking a reliable modern edition the principal relevant manuscripts have been reexamined This edition is further enriched by 161 purported new fragments of Apuleius embedded in Niccol Perotti's Cornu Copiae a hitherto scarcely accessible set of dubious items which merit greater scholarly attention An extensive praefatio in Latin surveys all the works either lost or falsely attributed to Apuleius while also detailing the principles and methods underlying this edition The Empire of the Self Christopher Star, 2012-12-01 Christopher Star uncovers significant points of contact between Seneca and Petronius two important Roman writers long thought to be antagonists In *The Empire of the Self* Christopher Star studies the question of how political reality affects the concepts of body soul and self Star argues that during the early Roman Empire the establishment of autocracy and the development of a universal ideal of individual autonomy were mutually enhancing phenomena The Stoic ideal of individual empire or complete self command is a major theme of Seneca's philosophical works The problematic consequences of this ideal are explored in Seneca's dramatic and satirical works as well as in the novel of his contemporary Petronius Star examines the rhetorical links between these diverse texts He also demonstrates a significant point of contact between two writers generally thought to be antagonists the idea that imperial speech structures reveal the self Know Yourself Ole Jakob Filtvedt, Jens Schröter, 2023-12-31 The book explores ancient interpretations and usages of the famous Delphic maxim know yourself The primary emphasis is on Jewish

Christian and Greco Roman sources from the first four centuries CE The individual contributions examine both direct quotations of the maxim as well as more distant echoes Most of the sources included in the book have never previously been studied in any detail with a view to their use and interpretation of the Delphic maxim Thus the book contributes significantly to the origin and different interpretations of the maxim in antiquity as well as to its reception history in ancient philosophical and theological discourses The chapters of the book are linked to each other by numerous cross references which makes it possible to compare the different views of the maxim with each other It also helps readers to notice relationships and trajectories within the material The explorations of the relevant sources are also set in the context of ongoing debates about the shape and nature of ancient conceptions of self and self knowledge The book thus demonstrates the wide variety of philosophical and theological approaches in that the injunction to know oneself could be viewed and how these interpretations provide windows into ancient discourses about self and self knowledge
