Nature And Destiny Of Man Vol 1:

The Nature and Destiny of Man Reinhold Niebuhr, 1996-01-01 Thought to be Niebuhr's most significant work as well as one of the few great 20th century works of theology by an American writer considers human nature from a Christian perspective

The Bonds of Freedom Rebekah L. Miles, 2001-08-23 In this constructive study Miles proposes a new feminist theological ethic drawing together the contributions of Reinhold Niebuhr Sharon Welch and Rosemary Ruether Seeking to critically reappropriate the Christian realism articulated by Niebuhr she reinterprets solutions to problems emergent from his theology Miles presents feminist Christian realism as an alternative that can reclaim a positive interpretation of divine transcendence and human self transcendence while maintaining newer emphases on human boundedness and divine immanence Theologians and ethicists will find her critical reassessment of the three authors distinctive and her challenging proposal for a positive creative transformation a significant contribution to the development of feminist ethics

Human Nature and the Discipline of Economics Patricia Donohue-White, 2002-01-01 Foundations of Economic Personalism is a series of three book length monographs each closely examining a significant dimension of the Center for Economic Personalism's unique synthesis of Christian personalism and free economic market theory In the aftermath of the momentous geo political and economic changes of the late 1980s a small group of Christian social ethicists began to converse with free market economists over the morality of market activity This interdisciplinary exchange eventually led to the founding of a new academic subdiscipline under the rubric of economic personalism These scholars attempt to integrate economic theory history and methodology with Christian personalism's stress upon human dignity humane social structures and social justice This second volume in the series surveys the anthropological foundations to the disciplines of economics and moral theology The first part of the book presents an overview of the German French and Polish branches of personalist thought Particular attention is given to theological anthropology especially as it is developed by such thinkers as Emmanuel Mounier Max Scheler Gabriel Marcel Karol Wojtyla and Emil Brunner Part two surveys models of human nature that have been espoused by various schools of free market thought including mainstream neoclassical economics In conclusion the authors demonstrate how an expanded understanding of human nature can augment the ability of economic science to model and predict human behavior

God's Patience and our Work Ben Fulford, 2024-02-28 In God's Patience and our Work Ben Fulford argues that Hans Frei's theology and ethics offers unheralded but valuable resources for thinking about the social and political engagement of Christian communities in pluralistic societies in light of hope in Jesus Christ He shows how Frei's project of recovering the conditions for and shape of a generous orthodoxy runs through his work offering broad flexible vision of Christian identity ethical responsibility and humanistic witness focused in the person and presence of Jesus Christ In dialogue with liberation theologies Fulford draws from Frei an account of divine patience and providence to frame hopeful pragmatic Christian participation in work for dignity justice and penultimate reconciliation rooted in new and deeper

contextual reading of his work **Love Your Enemies** Lisa Sowle Cahill,1994 The author examines the theological bases of just war theory and pacifism especially in the light of the concept of God as that motif illuminates Christian discipleship Differences between the theory of just war and the practice of pacifism are highlighted in the overview of the history of Christian thought on the subject and the inclusiveness of the ideal of the kingdom for pacifism is emphasized *The Doctrine of Humanity in the Theology of Reinhold Niebuhr* Kenneth Morris Hamilton,2013-09-03 Reinhold Niebuhr was a twentieth century American theologian who was known for his commentary on public affairs One of his most influential ideas was the relating of his Christian faith to realism rather than idealism in foreign affairs His perspective influenced many liberals and is enjoying a resurgence today most recently Barack Obama has acknowledged Niebuhr's importance to his own thinking In this book Kenneth Hamilton makes a claim that no other work on Niebuhr has made that Niebuhr's chief and abiding preoccupation throughout his long career was the nature of humankind Hamilton engages in a close reading of Niebuhr's entire oeuvre through this lens He argues that this preoccupation remained consistent throughout Niebuhr's writings and that through his doctrine of humankind one gets a full sense of Niebuhr the theologian Hamilton exposes not only the internal consistency of Niebuhr's project but also its aporia Although Niebuhr's influence perhaps peaked in the mid twentieth century enthusiasm for his approach to religion and politics has never waned from the North American public theology and this work remains relevant today Although Hamilton wrote this thesis in the mid 1960s it is published here for the first time Jane Barter Moulaison in her editorial gloss and introduction demonstrates the abiding significance of Hamilton's work to the study of Niebuhr by bringing it into conversation with subsequent writings on Niebuhr particularly as he is re appropriated by twenty first century American theology **Women and Pride** Luping Huang,2018-09-30 Reinhold Niebuhr is largely regarded as the leading twentieth century theologian of sin However many feminist theologians criticize Niebuhr's view of pride as the primary sin arguing that it fits only with men's experience In this detailed study Dr Luping Huang engages with Niebuhr and his feminist critics to provide a response to the feminist critique of Niebuhr's theology of sin Dr Huang provides a thorough analysis and examination of both the Niebuhrian and feminist understandings of sin highlighting the strengths and limitations of both arguments While some aspects of the feminists opposition to Niebuhr's doctrine of sin are valid there are weaknesses and limitations within its own framework Through her research and interaction with women's testimonies Huang's argument bridges these two competing views of women and sin resulting in a more accurate understanding and application of the theology of sin particularly in reference to women *Roots of Realism* Benjamin Frankel,2013-10-11 Political realism sees politics as a permanent struggle for power and security The essays in this volume examine the tradition of realist political analysis of international relations from the Sophists and Thucydides to the modern era *The Promise and Peril of AI and IA* Ted Peters,2023-12-31 How should public theologians and social ethicists assess anticipate and amend the projected path taken by Artificial Intelligence and Intelligence Amplification With the advent of

generative AI along with large language models suddenly our techie whiz kids are sounding the fire alarm Will a Frankenstein monster escape its creator s design Will more highly evolved superintelligence render today s human race extinct Is this generation morally obligated to give birth to a tomorrow in which we outdated humans can no longer participate This book collects foresighted analyses and recommendations from computer scientists neuroscientists AI ethicists along with Christian and Muslim theologians

Virtue and Irony in American Democracy Daniel A. Morris, 2015-07-01 What virtues are necessary for democracy to succeed This book turns to John Dewey and Reinhold Niebuhr two of America s most influential theorists of democracy to answer this question Dewey and Niebuhr both implied although for very different reasons that humility and mutuality are important virtues for the success of people rule Not only do these virtues allow people to participate well in their own governance they also equip us to meet challenges to democracy generated by free market economic policy and practices Ironically though Dewey and Niebuhr quarreled with each other for twenty years and missed the opportunity to achieve political consensus In their discourse with each other they failed to become one out of many a task that is distilled in the democratic rallying cry e pluribus unum This failure itself reflects a deficiency in democratic virtue Thus exploring the Dewey Niebuhr debate with attention to their discursive failures reveals the importance of a third virtue democratic tolerance If democracy is to succeed we must cultivate a deeper hospitality toward difference than Dewey and Niebuhr were able to extend to each other
