The Ideology of Ritual Frank H. Gorman,1990-01-01 For the Priestly writers ritual was a fundamental form of theological reflection This study analyses the conceptual categories of space time and status in an effort to clarify the larger cultural and conceptual categories operative in the Priestly ritual system Drawing on interpretative models derived from cultural anthropology the author argues that Priestly creation theology forms a necessary context for understanding the Priestly rituals **Encyclopedia of Religion and Nature** Bron Taylor,Jeffrey Kaplan,2005-01-01 No Marketing Blurb The Restorative Justice Ritual Lindsey Pointer,2020-12-23 Restorative justice is an innovative approach to responding to crime and conflict that shifts the focus away from laws and punishment to instead consider the harm caused and what is needed to repair that harm and make things right Interest in restorative justice is rapidly expanding with new applications continuously emerging around the world The restorative philosophy and conference process have shown great promise in providing a

justice response that heals individuals and strengthens the community Still a few key questions remain unanswered First how is the personal and relational transformation apparent in the restorative justice process achieved What can be done to safeguard and enhance that effectiveness Second can restorative justice satisfy the wider public's need for a reaffirmation of communal norms following a crime particularly in comparison to the criminal trial And finally given its primary focus on making amends at an interpersonal level does restorative justice routinely fail to address larger structural injustices This book engages with these three critical questions through an understanding of restorative justice as a ritual It proffers three dominant ritual functions related to the performance of justice the normative the transformative and the proleptic Two justice rituals namely the criminal trial and the restorative justice conference are examined through this framework in order to understand how each process fulfills or fails to fulfill the multifaceted human need for justice The book will be of interest to students academics and practitioners working in the areas of Restorative Justice Criminal Law and Criminology
