Aristotle on the Nature of Truth Christopher P. Long,2010-11-22 This book reconsiders the traditional correspondence theory of truth which takes truth to be a matter of correctly representing objects Drawing Heideggerian phenomenology into dialogue with American pragmatic naturalism Christopher P Long undertakes a rigorous reading of Aristotle that articulates the meaning of truth as a co operative activity between human beings and the natural world that is rooted in our endeavours to do justice to the nature of things By following a path of Aristotle s thinking that leads from our rudimentary encounters with things in perceiving through human communication to thinking this book traces an itinerary that uncovers the nature of truth as ecological justice and it finds the nature of justice in our attempts to articulate the truth of things

The Concept of Time and Historical Experience Mihai Popa, 2023-09-26 This book is focused on the question does the event from which we extract historical experience acquire this status at the moment it occurs or later as it is remembered through the generations Historical experience is not a concept that facilitates the ascent of the historian to the fact it is closely related to the fact This does not make it easier to handle because the fact itself is retractable it hides its social cultural essence and meaning in time The present of the historian narrator restores as in an incessant change of perspective the diachrony of the fact looking for the present of the past fact The experience suddenly becomes a relationship between two temporal actualities that seek their own cultural identity From this perspective history moves with us The weight of the conceptualization of a past reality is given by the comprehensive weight impossibility of the fact experience The work is about the philosophy of history It is addressed to students historians and researchers in the field of the theory of history

The Tangled Bank Michael S Hogue, 2010-07-29 In response to the confluence of moral uncertainty with the increase of human power to alter nature and through critical integration of the philosophical naturalism of Hans Jonas and the critical religious naturalism of James M Gustafson The Tangled Bank argues for an ecotheological ethics of responsible participation By making the case that the moral pressures of our time call for a vision that is as deeply naturalistic as it is deeply theological a critical perspective is advanced that is attuned to human embeddedness within nature as well as to human distinctiveness In support of this a moral anthropological method is deployed as a creative new way to integrate the comparative critical and constructive tasks of theological ethics The insights of Hans Jonas and James M Gustafson interpreted comparatively for the first time are critically drawn together to suggest new directions for scholarship and teaching in theology and religion and science studies

The Nature and Destiny of Man Reinhold Niebuhr, 2021-11-02 The Nature and Destiny of Man issues a vigorous challenge to Western civilization to understand its roots in the faith of the Bible particularly in the Hebraic tradition Niebuhr here lays out his influential understanding of the two poles of human existence finitude and freedom Individual human thriving requires that we fully understand and honor both of these aspects of our nature yet human history demonstrates our penchant for placing one over the other This book is arguably Reinhold Niebuhr's most important work It offers a sustained articulation of Niebuhr's theological ethics and is considered a landmark in twentieth century thought
