Price,2011-09-27 About the Book Human Nature and the Devine Nature of God is a new dispensation of the scripture revealing new things about the Old Testament and The New Testament A book of Remembrance It was prophesied by Malachi 3 16 18 that a book of remembrance would be written that would allow you to discern between righteousness and wickedness between one who serves God and one who does not serve him Think you know right from wrong think again The promise of Christ Christ said These things have I spoken unto you in proverbs but the time cometh when I shall no more speak unto you in proverbs but I shall shew you plainly of the Father John 16 25 Christ spoke of the Father to the Jews saying Yet ye have not known him and if I should say I know him not I shall be a lie like unto you But I know him and keep his saying John 8 55 The time have come that all must know the Father and this is the book that will plainly identify the Father This promise was confirmed through a prophecy to Jeremiah 31 34 saying They shall teach no more every man his brother saying know the Lord for they shall all know me from the least of them unto the greatest of them Find out why the Ten Commandments was written on stone Learn God's definition for Love it will surprise and delight you and much more Christ came to do two things and that was to fulfill the law and to fulfill all righteousness Human nature and the divine nature of God will tell you how this was accomplished Christ changed the law and gave us a new law human nature and the divine nature of God will identify the change in the law and the new law and will identify Christ's authority to change law and give new law About the Author I am a layman not trained to conform to any specific church doctrine The churches are divided in their concept of Christ and Christianity I believe that Christ is one and his doctrine is one I have denied myself the influence and contamination of their doctrines in search of the true undefiled doctrine of Christ I do not depend upon academic excellence or human intelligence to discern the scripture only the grace of God The things contained in this book is not the product of human inventions but by the spirit as it was revealed to me Theology is the study of God and his doctrine I do not study God I do not have the intellectual capacity to study him I depend upon him to reveal himself to me A person may question my ability to reach God but they can not question his ability to reach me and I establish my relationship with him based upon this principle I look at the world and I try to understand the reason for the condition that we face we have the have and have nots the oppressed and the oppressor the compassionate and the apathetic and why mankind is the most vicious and feared beast on earth Every nation on earth have an army to protect mankind from himself and yet the scripture state that man was created in the image of God how can this be if God was the embodiment of death nothing could live I have listen to the local national and world leaders educators ministers and philosophers concerning these things and their logic and reasoning all come down to complexity and confusion I decided to seek the answers from God himself to find out what he had to say about the situation and the solution to the problem and Human Nature and the Devine Nature of God is the answer I received see what you think *Nature, God and Humanity* Richard L. Fern,2002-04-04 This study interweaves philosophical scientific religious and cultural factors to reveal why non human animals and nature are objects of moral

concern and how our well being depends on harmony with nature as it was created This argument is unique in its comprehensiveness its overt reliance on traditional forms of religious faith and its account of how those with conflicting ethics can work together to end the current foolish abuse of nature *The Intrinsic Value of Nature* Leena Vilkkä,1997

What is intrinsic value What is the origin of value Are people always superior to nature This book is a philosophical analysis of the human relationship to the non human world It is a pioneering study of the philosophy of nature conservation in relation to the discussion of intrinsic value Vilkkä develops a naturalistic or naturocentric theory of value that is based on ethical extensionism and pluralism Vilkkä analyzes natural values and environmental attitudes zoocentrism biocentrism and ecocentrism This book forms a taxonomy for nature having intrinsic value The theory of intrinsic value is based on naturocentric and naturogenic values The book questions the thesis of weak anthropocentrism that denies the existence of naturogenic values In Vilkkä s theory animals and nature are the origin of value She defends the existence of zoogenic and biogenic values in the non human world and discusses the possibility of ecogenic value nature as a whole having value independent of human or animal minds Vilkkä analyzes the goodness and rights of nature the problem of priorities and ecological humanism A naturocentric recommendation is that the well being of animals and nature should have priority over human values at least in some real decision contexts Ecological humanism recommends an attitude of respect for people animals and nature The book includes an extensive glossary index and bibliography **Nature, God and Humanity** Richard L. Fern,2002-04-04

Nature God and Humanity clarifies the task of forming an ethics of nature thereby empowering readers to develop their own critical faith based ethics Calling on original thought provoking analyses and arguments Richard L Fern frames a philosophical ethics of nature assesses it scientifically finds support for it in traditional biblical theism and situates it culturally Though defending the moral value of beliefs affirming the radical Otherness of God and human uniqueness this book aims not to compel the adoption of any particular ethic but rather illumine the contribution diverse forms of inquiry make to an ethics of nature How does philosophy clarify moral conviction What does science tell us about nature Why does religious faith matter Rejecting the illusion of a single rationally compelling ethics Fern answers these questions in a way that fosters both agreement and disagreement allowing those holding conflicting ethics of nature to work together for the common good **God's Action in Nature's World** Nathan Hallanger,2016-04-22

In 1981 Robert John Russell founded what would become the leading center of research at the interface of science and religion the Center for Theology and the Natural Sciences Throughout its twenty five year history CTNS under Russell s leadership has continued to guide and further the dialogue between science and theology Russell has been an articulate spokesperson in calling for creative mutual interaction between the two fields God s Action in Nature s World brings together sixteen internationally recognized scholars to assess Robert Russell s impact on the discipline of science and religion Focusing on three areas of Russell s work methodology cosmology and divine action in quantum physics this book celebrates Robert John

Russell's contribution to the interdisciplinary engagement between the natural sciences and theology **Biotechnology, Human Nature, and Christian Ethics** Gerald McKenny, 2018-01-19 In public debates over biotechnology theologians, philosophers, and political theorists have proposed that biotechnology could have significant implications for human nature. They argue that ethical evaluations of biotechnologies that might affect human nature must take these implications into account. In this book, Gerald McKenny examines these important yet controversial arguments which have in turn been criticized by many moral philosophers and professional bioethicists. He argues that Christian ethics is in principle committed to some version of the claim that human nature has normative status in relation to biotechnology. Showing how both criticisms and defences of this claim have often been facile, he identifies, develops, and critically evaluates three versions of the claim and contributes a fourth, distinctively Christian version to the debate. Focusing on Christian ethics in conversation with secular ethics, McKenny's book is the first thorough analysis of a controversial contemporary issue.
