The Disposition of Nature Jennifer Wenzel, 2019-12-03 Finalist 2022 Ecocriticism Book Prize Association for the Study of Literature and the Environment Shortlisted 2020 Book Prize Association for the Study of the Arts of the Present How do literature and other cultural forms shape how we imagine the planet for better or worse In this rich original and long awaited book Jennifer Wenzel tackles the formal innovations rhetorical appeals and sociological imbrications of world literature that might help us confront unevenly distributed environmental crises including global warming The Disposition of Nature argues that assumptions about what nature is are at stake in conflicts over how it is inhabited or used Both environmental discourse and world literature scholarship tend to confuse parts and wholes Working with writing and film from Africa South Asia and beyond Wenzel takes a contrapuntal approach to sites and subjects dispersed across space and time Reading for the planet Wenzel shows means reading from near to there across experiential divides between specific sites at more than one scale Impressive in its disciplinary breadth Wenzel s book fuses insights from political ecology geography anthropology history and law while drawing on active debates between postcolonial theory and

world literature as well as scholarship on the Anthropocene and the material turn In doing so the book shows the importance of the literary to environmental thought and practice elaborating how a supple understanding of cultural imagination and narrative logics can foster more robust accounts of global inequality and energize movements for justice and livable futures

Becoming Nature Positive Marco Lambertini, Joseph W. Bull, Leroy Little Bear, Harvey Locke, Eva Zabey, Dorothy Maseke, Carlos Manuel Rodríguez, 2025-06-02 As humanity sits at an existential crossroads this book introduces the need to build a nature positive future to secure the functioning and stability of Earth systems essential to the survival and wellbeing of present and future human generations as well as the rest of Earth's amazing diversity of life Alongside the change in climate a more silent but equally terrifying crisis is unfolding the loss of nature and biodiversity These twin crises are in fact interconnected After decades of ignoring our impacts on the natural world we are beginning to realise that nature conservation is a security issue for humanity and an imperative for intersectional and intergenerational justice For these reasons we must embrace a transition from a nature negative to a nature positive society one that ensures human development and addresses today's inequality while conserving restoring and sustainably benefiting from nature's resources and services A Nature Positive future is one with more nature than today more forests more fish more pollinators more soil biodiversity with benefits for the Planet and for us In this book we define what becoming Nature Positive means from a variety of perspectives what it takes to deliver it and why it is possible and most importantly necessary This book is essential reading for those concerned with conserving nature and securing a safe future for humanity in the face of climate breakdown biodiversity loss and ecological collapse The future can be bright The choice is ours [monthly review of the u.s. bureau of labor statistics](#) u.s. department of labor bureau of labor statistics, 1918 *Journal* Chartered Insurance Institute, 1929
