Nauru Environmental Devastation Under International Trusteeship:

Traversing the Divide Kim Rubenstein, 2021-03-05 This collection honours the work of Deborah Cass 15 February 1960 4 June 2013 a brilliant Australian constitutional and international lawyer Deborah studied at the University of Melbourne and Harvard Law School and taught at Melbourne Law School The Australian National University and the London School of Economics A member of The Australian National University's Centre for International and Public Law from 1993 to 2000 Deborah's work offered illuminating new perspectives in a range of fields from the right to self-determination critical international legal theory and feminist legal theory to the international trade law system The title of this edited collection draws on one of her articles *Traversing the Divide* International Law and Australian Constitutional Law 1998 20 Adelaide Law Review 73 This book evolves from a symposium held to draw together academics from around the globe to reflect on Deborah's extensive scholarship and contributions to public law and international law and to examine how her work is of value to current domestic and international law issues The pieces selected for this volume both remind us of Deborah's outstanding academic career and provide important insights on current public law and international law pressing issues While devoting fine attention to the stuff of everyday life Deborah Cass was also a brilliant scholar Although the deep sense of loss and sadness at Deborah's death remains it is wonderful to have her writings as a continuing source of inspiration and consolation In them we continue to hear Deborah's firm clear voice her appreciation of language her seriousness her curiosity her sensitivity and her wry humour Professor Hilary Charlesworth

Disappearing Island States in International Law Jenny Grote Stoutenburg, 2015-07-28 Several low-lying atoll island states are at risk of losing their entire territory due to climate change-induced sea level rise In *Disappearing Island States in International Law* Jenny Grote Stoutenburg examines the most relevant and pressing international legal questions facing threatened island states at which point would a sovereign state disappear Who could make that determination Which legal status would its citizens have What would happen to the state's maritime entitlements and its international rights and obligations Does international law protect the international legal personality of states that lose their effective statehood for reasons beyond their control In answering these questions the book goes to the root of a fundamental problem of international law the nature of statehood *The Law of the Sea Convention* Myron H. Nordquist, John Norton Moore, Alfred H.A. Soons, Hak-So Kim, 2012-03-19 This text provides valuable insight into a number of contemporary and pressing issues concerning the world's oceans and their management

International Environmental Law in the Asia Pacific Ben Boer, Donald R. Rothwell, Ross Ramsay, Donald Rothwell, 1998-02-18 The purpose of this book is to assess the development of international environmental law in the Asia Pacific Consideration is given to the impact upon the region of global regional and subregional environmental law An assessment is also undertaken of how certain states and groups of states have responded domestically and within their own subregions to these developments For the purposes of this book the Asia Pacific is defined as essentially the states which

comprise East and Southeast Asia Australia New Zealand and the island states of the Southwest Pacific Occasional consideration is also given to the states of South Asia Environmentalism of the Rich Peter Dauvergne, 2018-02-09 What it means for global sustainability when environmentalism is dominated by the concerns of the affluent eco business eco consumption wilderness preservation Over the last fifty years environmentalism has emerged as a clear counterforce to the environmental destruction caused by industrialization colonialism and globalization Activists and policymakers have fought hard to make the earth a better place to live But has the environmental movement actually brought about meaningful progress toward global sustainability Signs of global unsustainability are everywhere from decreasing biodiversity to scarcity of fresh water to steadily rising greenhouse gas emissions Meanwhile as Peter Dauvergne points out in this provocative book the environmental movement is increasingly dominated by the environmentalism of the rich diverted into eco business eco consumption wilderness preservation energy efficiency and recycling While it's good that for example Barbie dolls packaging no longer depletes Indonesian rainforest and that Toyota Highlanders are available as hybrids none of this gets at the source of the current sustainability crisis More eco products can just mean more corporate profits consumption and waste Dauvergne examines extraction booms that leave developing countries poor and environmentally devastated with the ruination of the South Pacific island of Nauru a case in point the struggles against consumption inequities of courageous activists like Bruno Manser who worked with indigenous people to try to save the rainforests of Borneo and the manufacturing of vast markets for nondurable goods for example convincing parents in China that disposable diapers made for healthier and smarter babies Dauvergne reveals why a global political economy of ever more more growth more sales more consumption is swamping environmental gains Environmentalism of the rich does little to bring about the sweeping institutional change necessary to make progress toward global sustainability Environmental Law of Armed Conflict Nada Al-Duaij, 2021-10-25 This timely study examines how the environmental impact of modern warfare violates fundamental principles of international environmental and humanitarian laws and why these consideration need to be included in rules of armed conflict If direct attacks on innocent civilians are universally recognized as unacceptable then environmental devastation of their habitat by acts of war must also be recognized as an unacceptable consequence of armed conflict The author presents the case that the international community understand its responsibility to curb environmental consequences of modern weaponry and incorporate environmental concerns into the conventions regulating armed conflict Published under the Transnational Publishers imprint Imperialism, Sovereignty and the Making of International Law Antony Anghie, 2007-04-26 Examines the relationship between imperialism and international law **Fragmentation and the International Relations of Micro-states** Jorri Duursma, 1996-10-31 At a time when nearly all armed conflicts are related to self determination and frequently to claims for secession this meticulous study examines the legal issues at stake in the light of the existence of European micro States Liechtenstein San Marino Monaco Andorra and the Vatican City Jorri Duursma

makes a thorough analysis of the true origins meaning and faults of the modern right of self determination asking fundamental questions What constitutes a people with a right to self determination How small a people has this right Who are allowed to secede What is a state according to international law Jorri Duursma s book provides an up to date and informed account of these important issues which also draws on recent experiences in Eastern Europe and Yugoslavia It is the first book to provide a thorough international legal account of the European micro states and develops a novel approach to the problems of fragmentation

Nauru C. G. Weeramantry, 1992 Nauru is a small island in the Pacific which was endowed by nature with some of the richest phosphates in the world Phosphate mining began on the island in 1906 when Nauru was still part of the German empire Following Germany s defeat in 1918 Nauru was entrusted by the League of Nations to the care of the United Kingdom Australia and New Zealand It was a fiduciary relationship which after the Second World War continued under the trusteeship system of the United Nations During this period Nauru s idyllic landscape was disastrously transformed reducing much of the island to a lunar waste fringed in tropical splendour Nauru Environmental Damage under International Trusteeship summarizes part of the ten volume Report of the Commission of Inquiry on the Rehabilitation of Phosphate Lands in Nauru which was presented to the Government of Nauru in 1988 The report covered the responsibilities of the powers which controlled Nauru for rehabilitation of the lands which had been devastated by phosphate mining It also inquired into the feasibility and manner of rehabilitation Professor Christopher Weeramantry the Chairman of the Commission has written a fascinating and accessible summary of the portion of the report dealing with international responsibility The issues include a number of areas of international law relating to mandate and trusteeship environmental law abuse of power unjust enrichment acquired rights and permanent sovereignty over natural resources Nauru is probably the most detailed practical study of an international mandate and trusteeship ever written The issues explored in the book are of far reaching importance The story of Nauru has a significance reaching well beyond the tiny coral island

International Status in the Shadow of Empire Cait Storr, 2020-09-17 Nauru is often figured as an anomaly in the international order This book offers a new account of Nauru s imperial history and examines its significance to the histories of international law Drawing on theories of jurisdiction and bureaucracy it reconstructs four shifts in Nauru s status from German protectorate to League of Nations C Mandate to UN Trust Territory to sovereign state as a means of redescribing the transition from the nineteenth century imperial order to the twentieth century state system The book argues that as international status shifts imperial form accretes as Nauru s status shifted what occurred at the local level was a gradual process of bureaucratisation Two conclusions emerge from this argument The first is that imperial administration in Nauru produced the Republic s post independence failures The second is that international recognition of sovereign status is best understood as marking a beginning not an end of the process of decolonisation
