New Ways In Germanistik:

Understanding Ingeborg Bachmann Karen Achberger,1995 Bachmann her critique of postwar Europe **New Ways in Germanistik** Richard Sheppard,1990-05-10 Why study German literature in an age when national identity is being eroded by a cosmopolitan multinational culture The authors provide diverse answers but all agree that modern German literature has been generated by a culture which has undergone extraordinary historical experiences the effects of which are still with us **Encyclopedia of Contemporary German Culture** John Sandford,2013-04-03 With more than 1 100 entries written by an international group of over 150 contributors the Encyclopedia of Contemporary German Culture brings together myriad strands of social political and cultural life in the post 1945 German speaking world With a unique structure and format an inclusive treatment of the concept of culture and coverage of East West and post unification Germany as well as Austria and Switzerland the Encyclopedia of Contemporary German Culture is the first reference work of its kind Containing longer overviews of up to 2 000 words as well as shorter factual entries cross referencing to other relevant articles useful further reading suggestions and extensive indexing this highly useable volume provides the scholar teacher student or non specialist with an astonishing breadth and depth of information **Challenging Modernity** Mark A. Pegrum,2000-04-01 When Dada burst onto the European stage in 1916 it shocked and scandalized the public of its day with art forms ideas and attitudes which were so revolutionary that it is only in recent decades that they have begun to find recognition within the broad cultural movement known as postmodernism In fact many postmodern artistic and intellectual tendencies can be seen to have descended via an underground tradition from the experiments of the Dadaists earlier this century Yet the existence of this close link has been largely neglected by scholars This book for the first time examines in depth the link between modernism and postmodernism and demonstrates the extensive similarities as well as the few crucial differences between the ideas and art of the Dadaists on the one hand and those of contemporary postmodern thinkers and artists on the other Although they did not have access to postmodern terminology it is clear that many Dadaists were essentially attempting to escape constrictive Enlightenment and modernist structures in order to create a proto postmodern space of difference otherness and flux Their successes failures and compromises in this respect are very illustrative for anyone interested in the progress of our own intellectual and artistic culture in its wavering between modern and postmodern This book offers a much needed historical perspective and solid basis for the on going debate on postmodernism **The systemic and empirical approach to literature and culture as theory and application** Steven Tötösy de Zepetnek,Irene Sywenky,University of Alberta. Research Institute for Comparative Literature and Cross-Cultural Studies,1997 *The Turn of the Century/Le tournant du siècle* Christian Berg, Frank Durieux, Geert Lernout,2012-06-21 No detailed description available for The Turn of the Century Le tournant du siècle **High Theory/Low Culture** M. Brottman,2005-03-01 In High Theory Low Culture Brottman uses the tools of high cultural theory to examine many areas of today's popular culture including style magazines

sport shopping tabloid newspapers horror movies and pornography In doing so she not only demonstrates the practical use of high theory as it relates to our everyday world but she also investigates the kinds of low culture that are regularly dismissed by academic scholars Through a close examination of these cultural forms Brottman reveals how the kinds of popular culture that we usually take for granted are in fact far more complex and sophisticated than is normally assumed *Philosophy and German Literature, 1700–1990* Nicholas Saul, 2002-05-02 Although the importance of the interplay of literature and philosophy in Germany has often been examined within individual works or groups of works by particular authors little research has been undertaken into the broader dialogue of German literature and philosophy as a whole *Philosophy and German Literature 1700 1990* offers six chapters by leading specialists on the dialogue between the work of German literary writers and philosophers through their works The volume shows that German literature far from being the mouthpiece of a dour philosophical culture dominated by the great names of Leibniz Kant Hegel Marx Heidegger and Habermas has much more to offer while possessing a high affinity with philosophy it explores regions of human insight and experience beyond philosophy's ken Theorizing Modernisms Steve Giles, 2002-09-11 Provides a much needed corrective to the misleading accounts of modernism that have dominated recent debate shedding new light at the same time on the current controversies surrounding postmodernism

Intertextual Weaving in the Work of Linda Lê Alexandra Kurmann, 2016-01-14 *Intertextual Weaving in the Work of Linda L* Imagining the Ideal Reader uncovers the primary textual relationship that Linda L 1963 the most prolific Francophone author of the Vietnamese diaspora fosters with a literary precursor of Austrian descent the feminist writer in exile Ingeborg Bachmann 1926 1973 This study offers an overdue exploration of the notably European roots of L's writerly formation It traces an unexamined feminist import in her work to a sixteen year inter and intra textual engagement with Bachmann and positions the latter as an imagined ideal reader of L's oeuvre Intertextual analyses of Bachmann's post war novel *Malina* with L's literary essays early fiction and trilogy reveal that to overcome the challenges of writing in exile L adopts an alternative literary forebear of the European tradition **The Lost Honour of Katharina**

Blum Julian Preece, 2022-03-24 Brisk and forceful Sight Sound Lucidly argued Total Film Margarethe von Trotta and Volker Schlöndorff's *The Lost Honour of Katharina Blum* 1975 was a pivotal film for the New German Cinema movement Julian Preece considers what makes Katharina Blum new and radical in particular in respect of women's cinema and its portrayal of the ordeal of its female lead in a world run by men Drawing on archival material including drafts of the screenplay brochures and props reviews and interviews Preece traces the conception of the film and its development from Heinrich Böll's original novel Preece analyses how the film continues to resonate with our contemporary moment and has influenced film makers from the German Turkish director Fatih Akin to the British screenwriter Peter Morgan *Kafka's Castle and the Critical Imagination* Stephen D. Dowden, 1995 Kafka's final unfinished novel *The Castle* remains one of the most celebrated yet most stubbornly uninterpretable masterpieces of modernist fiction Consequently it has been a lightning rod for theories and

methods of literary criticism In this chronological study of its fate at the hands of academic and non academic critics S D Dowden lays emphasis on the acts of critical imagination that have shaped our image and understanding of Kafka and his novel He explores the historical and cultural contingencies of criticism from the Weimar Era of Max Brod and Walter Benjamin to Lionel Trilling s Cold War to the postmodern moment of multiculturalism and its turn to cultural studies Dowden shows how and why *The Castle* became a contested site in the imaginative life of each succeeding generation of criticism In addition he accounts for those moments at which Kafka s novel escapes or at least attempts to escape the gravitational pull of historically anchored understanding Forthright in its prose Dowden s is a book essential for anyone casual reader or professional critic who hopes to grasp the peculiar difficulties and challenges of Kafka s prose in general and of *The Castle* in particular

Post-war Women's Writing in German Chris Weedon,1997-03-01 Women in the Federal Republic the former GDR Switzerland and Austria have initiated a remarkable literary movement especially after 1968 which is also attracting growing attention elsewhere Informed by critical feminist and literary theory this broad ranging collection the first of its kind examines the history of these writings in the context of the social and political developments in the respective countries It combines survey chapters with detailed studies of prominent authors whose work is often unavailable in English

Brecht and the Art of Spectatorship Laura Bradley,2025-07-04 Bertolt Brecht s epic theatre sought to change how spectators watched performances equipping them to critique and intervene in the world outside the theatre Taking its cue from his call for theatre to develop the art of spectatorship this major new study explores vision observation and spectatorship in twelve of his plays spanning his career It relates this analysis to Brecht s own formative experiences of spectatorship to his poems and theories and to productions directed by Brecht and his close collaborators Finally it investigates Brecht s attempts to transform the composition of the audience and cultivate critical spectatorship at the Berliner Ensemble the theatre he founded with his wife the actor Helene Weigel in East Berlin after the Second World War Brecht s plays foreground scenarios in which watching matters as characters witness acts of injustice watch trials or punishments engage in surveillance or observe scientific experiments These instances of onstage spectatorship play a key role in Brecht s drive to transform the viewing practices of the theatre audience showing the audience what characters notice what they overlook and how they use or ignore the knowledge that they have gained through spectatorship Drawing on archival material and sources that have previously been rarely consulted Laura Bradley shows how Brecht and his close collaborators Erich Engel Benno Besson Peter Palitzsch and Manfred Wekwerth dealt with onstage spectatorship in performance presenting characters as observers and spectators from whom the theatre audience should learn By combining analysis of text performance and reception *Brecht and the Art of Spectatorship* provides rich insights into Brecht s plays rehearsal methods and stagings and the experiences of spectators at productions of his plays in the Weimar Republic in exile and in the GDR

The Turn of the Century Christian Berg, Frank Durieux, Geert Lernout,1995 Rewritten versions of contributions to an international conference

held at the University of Antwerp in May 1992 Starting point for the conference was the vagueness of the very terms modernism and modernity In the first section a group of comparatists address the theoretical and terminological problems of modernism Practical readings of modernist writers discussions of different modernist movements and the work of critics who have contributed to debates about modernism make up the second section The third section looks at the problem of modernism from an interartistic and interdisciplinary perspective **Studies in Weimar Classicism** Roger H.

Stephenson,2010 This book is a study of central aspects of Weimar Classicism written in the light of Ernst Cassirer's cultural theory It provides a close reading of key texts ranging across Goethe and Schiller's oeuvre as a whole from their philosophical poems through their drama prose writing and theoretical reflections on cultural and scientific topics The work seeks to demonstrate the attested but hitherto largely unanalysed aesthetic power at the very heart of their writings which in turn underpins their epistemological and ethical significance The main theme of Weimar Classicism is the role of symbolism in Classicism as distinct from the centrality of semiosis in competing cultural norms The overall aim of the book is thus to see Weimar Classicism anew both historically and analytically as an enlightening context in which to reconsider many of the central tenets of contemporary often called postmodern cultural theory The Literature of German Romanticism Dennis F.

Mahoney,2004 Sharply focused essays on the most significant aspects of German Romanticism This volume of sharply focused essays by an international team of scholars deals not only with the most significant literary philosophical and cultural aspects of German Romanticism one of the most influential albeit highly controversial movements in the history of German literature but also with the history and status of scholarship on the literature of the period The introduction and first section establish an overall framework by placing German Romanticism within a European context that includes its English counterpart Goethe and Schiller are considered as are the Jena Romantics The second section is organized according to the traditional distinctions between epic dramatic and lyric modes of writing while realizing that particularly in the Romantic novel there was an attempt to blend these three A final group of essays focuses on German literary Romanticism's relation to other aspects of German culture folklore studies politics psychology natural science gender presentation and representation music and visual art Contributors Gerhard Schulz Arnd Bohm Richard Littlejohns Gerhart Hoffmeister Ulrich Scheck Claudia Stockinger Bernadette Malinowski Fabian Lampart Klaus Peter Gabriele Rommel Martha B Helfer Kristina Muxfeldt Beate Allert Paul Bishop and R H Stephenson Nicholas Saul Dennis F Mahoney is Professor of German and Director of the European Studies Program at the University of Vermont **Encyclopedia of German Literature** Matthias

Konzett,2015-05-11 Designed to provide English readers of German literature the opportunity to familiarize themselves with both the established canon and newly emerging literatures that reflect the concerns of women and ethnic minorities the Encyclopedia of German Literature includes more than 500 entries on writers individual work and topics essential to an understanding of this rich literary tradition Drawing on the expertise of an international group of experts the essays in the

encyclopedia reflect developments of the latest scholarship in German literature culture and history and society In addition to the essays author entries include biographies and works lists and works entries provide information about first editions selected critical editions and English language translations All entries conclude with a list of further readings **Mock-Epic Poetry from Pope to Heine** Ritchie Robertson,2009-11-12 A study of eighteenth and early nineteenth century poetry in English French and German focusing on the mock epic from Pope s Dunciad to Byron s Don Juan as a critique of serious epic poetry and also as a literary means of exploring a wide range of sexual and religious issues in a humorous style **The Child's View of the Third Reich in German Literature** Debbie Pinfold,2001-08-23 This book examines the ways in which German authors have used the child s perspective to present the Third Reich It considers how children at this time were brought up and educated to accept unquestioningly National Socialist ideology and thus questions the possibility of a traditional naive perspective on these events Authors as diverse as G nter Grass Siegfried Lenz and Christa Wolf together with many less well known writers have all used this perspective and this raises the question as to why it is such a popular means of confronting the enormity of the Third Reich This study asks whether this perspective is an evasive strategy a means of gaining new insights into the period or a means of discovering a new language which had not been tainted by Nazism This raises and addresses issues central to a post war aesthetic in German writing
