Commerce Today ,1971 **The Cambridge Companion to American Travel Writing** Alfred Bendixen,Judith Hamera,2009-01-29 Travel writing has always been intimately linked with the construction of American identity Occupying the space between fact and fiction it exposes cultural fault lines and reveals the changing desires and anxieties of both the traveller and the reading public These specially commissioned essays trace the journeys taken by writers from the pre revolutionary period right up to the present They examine a wide range of responses to the problems posed by landscapes found both at home and abroad from the Mississippi and the Southwest to Europe and the Holy Land Throughout the contributors focus on the role played by travel writing in the definition and formulation of national identity and consider the experiences of minority writers as well as canonical authors This Companion forms an invaluable guide for students approaching this new important and exciting subject for the first time **Inventing Times Square** William R. Taylor,1996-04 A unique volume Inventing Times Square approaches the subject of twentieth century American city culture through a multidimensional examination of one quintessential urban space Times Square Ranging in time from 1905 when the crossroad was given its present name through to the current plans for redevelopment the authors examine Times Square as economic hub real estate bonanza entertainment center advertising medium architectural experiment and erotic netherworld Though the volume centers on Times Square the essays venture much further into urban history and American social history revealing in the process how Times Square reflected even epitomized America as it became an urban consumer culture **Lecturing the Atlantic** Tom F. Wright,2017-04-06 In the early nineteenth century the public lecture emerged as one of the Anglo American world s most important cultural forms On both sides of the Atlantic audiences and performers transformed a cultural practice with origins in the medieval cloister into an unexpected flashpoint medium of public life In the United States as part of the lyceum movement lecturing became crucial to literary and political life multiple social reform movements and the rise of public intellectualism offering speakers from across the cultural spectrum a platform from which to promote their ideas and explain contemporary life Lecturing the Atlantic argues for a new interpretation of this neglected institution It reorients our understanding of the lyceum by seeing it as an international and cross media phenomenon patterned by cultural investment in an Anglo American commons Tom F Wright shows how some of the mid century North Atlantic world s most enduring cultural figures such as Frederick Douglass William Makepeace Thackeray and Ralph Waldo Emerson as well as fascinating marginal voices such as Lola Montez and John B Gough used lecture hall discussions of a transatlantic imaginary to offer powerful commentaries on slavery progress comedy order tradition and reform Crucially this world was a matter as much of print as performance since as the book reveals a remarkable culture of newspaper commentary allowed oratory to resonate far beyond the realm of the lecture hall Through a series of inventive readings of Anglo American relations as understood through performance and print re mediation Wright connects the transatlantic turn

in cultural studies to important recent debates in media theory and public sphere scholarship Lecturing the Atlantic speaks to those interested in the literature and history of Victorian Britain and the early US to students of performance communication and rhetoric and all those seeking a deeper understanding of nineteenth century public culture

Fur, Fortune, and Empire: The Epic History of the Fur Trade in America Eric Jay Dolin, 2010 For all of fur's contentious position in American culture today historian Eric Jay Dolin shows its centrality in our nation's ever surprising history He argues that the trade in animal skins turned colonial America into a tumultuous frontier where global powers battled for control From the seventeenth century right on up to the Gilded Age the developed world's appetite for fur made the new continent with its wealth of fur bearing wildlife a seemingly inexhaustible resource The result was a major boost in the evolution of the colonies into a powerful new player on the world stage Dolin sheds insight on the ways the fur trade created international tensions in New England the Great Lakes and in the expanding West Fur traders were often the first white men to map major rivers forests and mountains then soon pushed Native Americans off their lands as John Jacob Astor's American Fur Company attempted to monopolize the West From publisher description

Americans in Egypt, 1770-1915 Cassandra Vivian, 2012-08-29 The voices of Americans have long been absent from studies of modern Egypt Most scholars assume that Americans were either not in Egypt in significant numbers during the nineteenth century or had little of importance to say This volume shows that neither was the case by introducing and relating the experiences and attitudes of 15 American personalities who worked lived or traveled in Egypt from the 1770s to the commencement of World War I Often in their own words explorers consuls tourists soldiers missionaries artists scientists and scholars offer a rare American perspective on everyday Egyptian life and provide a new perspective on many historically significant events The stories of these individuals and their sojourns not only recount the culture and history of Egypt but also convey the domination of the country by European powers and the support for Egypt by a young American nation
