Introduction to Emergency Management Jane Bullock, George Haddow, Damon Coppola, 2007-10-09 Introduction to Emergency Management Third Edition provides a comprehensive update of this foundational text on the background components and systems involved in the management of disasters and other emergencies The book details current practices strategies and the key players involved in emergency management especially in the U S but also around the world Expanded coverage of local and state issues particularly as they need to interact and work with FEMA and other federal agencies adds value to public administrators locally tasked with protecting their community The Third Edition is fully updated to cover FEMA's continually changing role within the Department of Homeland Security and the impact and aftermath of Hurricane Katrina Lessons including proper planning mitigation in crisis decisions evacuation and recovery shed light on how managers can avoid devastating breakdowns in communication and leadership during an event Not only terrorist events but many such natural disasters require similar preparedness planning Emergency planning is vital to the security of entire communities and thus an essential focus for research planning and training This new edition continues in its tradition of serving as an essential resource for students and young professionals in the discipline of Emergency Management Case examples provide current specific examples of disasters and how they were managed Full color hurricane Katrina section with event timeline Written by 2 former FEMA senior officials who draw on firsthand experience in day to day emergency management operations

A Study of Core Functions in Emergency Management As Reflected in Training Requirements for Professional Certification Walter Guerry Green, III, 2000 This study examined emergency management certification programs in order to understand what the training requirements for state emergency management certification reveal about the core functions of emergency management as conducted by emergency managers working in local jurisdictions Based on practices in the 23 certification programs managed by state emergency management agencies or professional associations at the time of the study qualitative content analysis identified a range of core functions practiced by those programs that specified training requirements in terms of specific courses The application of grounded theory techniques to interview data from certification program managers and state emergency management training officers in 50 states resulted in the development of the theory that training requirements are adopted to meet a variety of goals These goals include those appropriate to perceived needs of the sponsoring organizations and individual emergency managers as well as goals that seek to promote competent performance of emergency management tasks The list of core functions identified in state level certification programs

generally agreed with a list of core functions developed from the literature indicating that practitioners at the local state and federal level have a common understanding of the essential tasks of the evolving profession of emergency management as performed in local jurisdictions

Introduction to Emergency Management, Enhanced George Haddow, Kim S Haddow, Damon Coppola, 2014-09-05 Introduction to Emergency Management Fifth Edition offers a fully up to date analysis of US emergency management principles In addition to expanding coverage of risk management in a time of climate change and terrorism Haddow Bullock and Coppola discuss the impact of new emergency management technologies social media and an increasing focus on recovery They examine the effects of the 2012 election results and discuss FEMA s controversial National Flood Insurance Program NFIP Introduction to Emergency Management Fifth Edition gives instructors and students the best textbook content instructor support materials and online resources to prepare future EM professionals for this demanding career Links added throughout the chapters for easy access to additional information Videos that play within the ebook to demonstrate important concepts Interactive labeling images with drag and drop terms Interactive self assessment questions at the end of every chapter Pop up glossary and interactive flashcards for key terms Introduction to FEMA s Whole Community disaster preparedness initiative Material on recent disaster events including the Boston Marathon Bombing 2013 Hurricane Sandy 2012 the Joplin Tornado 2011 the Haiti Earthquake 2011 and the Great East Japan Earthquake 2010

Partnerships in preparedness : a compendium of exemplary practices in emergency management Maria A. Yonker, 2008-08 This Compendium is a product of the emergency mgmt community working in partnership in service to the public It is the result of FEMA s continuing outreach initiative to identify the innovative ideas emerg mgmt talent and abundant resources that exist throughout the country An exemplary practice is any idea project program technique or method in emerg mgmt that has worked in one place and may be worthy of adopting elsewhere This Compendium describes public and private sector emerg mgmt practices that include unique coordination among org volunteer projects resource sharing and other innovative approaches to emergency mgmt Also refers readers to knowledgeable individuals for further information

Partnerships in Preparedness, 1995

Emergency Policy Allan McConnell, 2017-03-02 This volume of leading scholarly articles addresses the international dynamics of emergency policy and practice In a world of increasing technological economic and political interdependency it is no longer feasible for states to ignore the pervasive influence of globalisation The crises wrought by industrial disasters catastrophic weather events pandemics financial implosion and cyber intrusion now transcend and challenge national interests with increasing frequency The case studies collected here explore these global dimensions of crisis and the state through the lenses of planning and prevention acute responses recovery and reconstruction and learning about crisis This collection is essential reading for academics policy officials and practitioners with an interest in emergency management risk management and issues of national global security In original introductory and concluding chapters to the volume Legrand and McConnell provide a critical perspective on the challenges that

globalisation presents to policymakers under crisis conditions and signposts some of the emerging challenges to the state and international community
