Party And Army Professionalism And Political Control In The Chinese Officer Corps 1949 1964:

Party and Army Ellis Joffe, 1965-07-01 Examines the relationship between the professionally trained members of the Chinese Officer Corps and the Chinese Communist Party between 1949 and 1964 **Party and Army** Ellis Joffe, 1965

Party and Army: Professionalism and Political Control in the Chinese Officer Corps, 1949-1964 E. George H. Joffé, 1965 *The Chinese Communist Army in Action* Alexander L. George, 1967 *The Party and the Army in China* Richard Curt Kraus, 2004-04-02 In this original exploration of the dynamic and potent interface between Chinese culture and politics Richard Kraus examines the impact of the market on the once comprehensive system of state patronage of the arts in the PRC The author uses all genres of art to explore the changing nature of politics seen through such phenomena as ideology propaganda censorship and the relationship of artists to the state Kraus makes three provocative arguments First the commercialization of China's cultural life has been intellectually liberating but also poses serious economic challenges that artists are sometimes slow to master Second despite conventional wisdom in the West that China's economic reforms have not been followed by serious political reform he shows that the shift from state patronage to a mixed system of private and public sponsorship is in fact a fundamental political change Third Western recognition of the reformation in China's cultural life has been obscured by a combination of ignorance ideological barriers and foreign policy rivalry Cogent witty and deeply informed this comprehensive overview of the Chinese arts scene will be an essential text for all observers of contemporary China **Ideology and Organization in Communist China** Franz Schurmann, 2022-04-29 In 1949 a powerful political military movement led by the Chinese Communist party gained control of war ravaged China inheriting a disorganized administration and a society eroded by decades of revolution Within a short time China was so radically transformed politically economically and socially that it appeared to have cut all links with the past The instruments of that transformation were ideology and organization Today seventeen years later the ideology and the organizational network despite changes remain as powerful as they were in 1949 They still hold that vast country together politically and determine its economic and social development This book after a discussion of ideology in its first part attempts to answer the question how Chinese Communist organization functions and why it is so successful The second part analyzes the organization of Party and government emphasizing methods of command and administration The third part looks at industrial organization the problems of management and control especially the continuing struggle between the professionals and the politicians The fourth part investigates the Chinese Communist methods of organizing their cities and villages tracing the history of village organization from traditional times through the Yanan period the land reform of the late 1940s and the collectivization of the mid 1950s to communization in 1958 Although organization has been constantly changing in China basic patterns are apparent The book analyzes the most characteristic pattern in all aspects of organization the conflict between two incompatible elements or in the Chinese Communist terms contradictions The basic contradiction is that between

professional expert and political red elements This contradiction dominates the two distinctive periods in the short history of Communist China the First Five Year Plan 1953 1957 and the so called Great Leap Forward 1958 1960 The book describes how the Chinese Communists attempted during the former period to emulate the Soviet organizational experience with stress on techniques and technology and during the latter period to use their own organizational methods to achieve economic progress The presentation of the contrast between these two models of organization sheds light on the significant differences between the Soviet Union and Communist China This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1966

Revolution and Dictatorship Steven Levitsky, Lucan Way, 2024-10-29 Why the world s most resilient dictatorships are products of violent revolution Revolution and Dictatorship explores why dictatorships born of social revolution such as those in China Cuba Iran the Soviet Union and Vietnam are extraordinarily durable even in the face of economic crisis large scale policy failure mass discontent and intense external pressure Few other modern autocracies have survived in the face of such extreme challenges Drawing on comparative historical analysis Steven Levitsky and Lucan Way argue that radical efforts to transform the social and geopolitical order trigger intense counterrevolutionary conflict which initially threatens regime survival but ultimately fosters the unity and state building that supports authoritarianism Although most revolutionary governments begin weak they challenge powerful domestic and foreign actors often bringing about civil or external wars These counterrevolutionary wars pose a threat that can destroy new regimes as in the cases of Afghanistan and Cambodia Among regimes that survive however prolonged conflicts give rise to a cohesive ruling elite and a powerful and loyal coercive apparatus This leads to the downfall of rival organizations and alternative centers of power such as armies churches monarchies and landowners and helps to inoculate revolutionary regimes against elite defection military coups and mass protest three principal sources of authoritarian breakdown Looking at a range of revolutionary and nonrevolutionary regimes from across the globe Revolution and Dictatorship shows why governments that emerge from violent conflict endure

The Chinese Army Today Dennis J. Blasko, 2006-05-02 The Chinese Army Today is a completely unique and comprehensive study of all elements of the Chinese military focusing on its ground forces to a degree not found in any other contemporary works In 1999 the military modernization program of the Chinese People s Liberation Army that had been underway for twenty years increased in intensity and achieved a focus not seen in the previous two decades Based primarily on actual Chinese sources this book details the changes implemented since 1999 and puts them in the context of the many traditions that still remain Written by a retired professional military officer who has served in China this book presents the reader with the key developments since 1999 Its discussion on training and doctrine provides a level of detail not found in other works but is essential to

understanding the progress made in China's military modernization and the obstacles yet to be overcome. The author uses first hand observation of the Chinese military and three decades of military experience to weave many disparate threads from official Chinese statements, documents and media reports into an integrated whole. This text defines exactly what forces make up the People's Liberation Army and examines in detail ground force organization and structure, personnel policies, doctrine and training, new equipment entering the force and missions routinely undertaken in support of society. This is an essential book for all students and scholars of China and Asia, political science and international relations and of contemporary military affairs and strategic studies. **Soldiers, Peasants, and Bureaucrats** Roman Kolkowicz, Andrzej Korbonski, 2021-01-26

This book first published in 1981 is a comprehensive examination of the main theoretical, methodological and empirical approaches to the study of the military in modernising political systems in socialist and non socialist countries. It analyses civil military relations in the Middle East, Eastern Europe and China and in doing so sheds new light on the comparative politics and strategic affairs of the Cold War period. Revival: The People's Liberation Army and China's Nation-Building (1973) Ying-Mao Kau, 2017-09-29. This revised edition brings the problem of Third World conflict into the post Cold War era. It asks when and how should the developed countries intervene in internal wars outside of their traditional geopolitical interest and what can such intervention realistically accomplish. **World Military History Bibliography** Barton

Hacker, 2003-06-01. Preclassical and indigenous nonwestern military institutions and methods of warfare are the chief subjects of this annotated bibliography of work published 1967-1997. Classical antiquity, post Roman Europe and the westernized armed forces of the 20th century although covered receive less systematic attention. Emphasis is on historical studies of military organization and the relationships between military and other social institutions rather than wars and battles. Especially rich in references to the periodical literature, the bibliography is divided into eight parts: 1 general and comparative topics; 2 the ancient world; 3 Eurasia since antiquity; 4 sub Saharan Africa and Oceania; 5 pre Columbian America; 6 postcontact America; 7 the contemporary nonwestern world; and 8 philosophical, social, scientific, natural scientific and other works not primarily historical. **Problems of Communism**, 1975. Gun Barrel Politics Fang Zhu, 2019-03-13. This book

tests the model of civil military dualism to explain People's Liberation Army's PLA political engagement and its loyalty to the party in Maoist China. It explores how the party maintained its control through penetration of the armed forces or non intervention and civilian control. **Civil-Military Relationships in Developing Countries** Glen Segell, Dharendra K.

Vajpeyi, 2013-12-16. This book examines two sides of civil military relations in developing countries. One is the place of civil military relations within a state's political and economic systems; the other is the role of the military on a state's maintenance of peace and stability. The book thus proposes that the function of soldiers is not only to defend and deter but also to develop. The chapters provide a comprehensive analysis of civil military relationship with comparative cases on Botswana, China, El Salvador, Honduras, Guatemala, India, Indonesia, Nicaragua, Nigeria, Pakistan and The Arab Spring Countries of the Middle East.

including Bahrain Sudan Iraq Jordan Saudi Arabia Egypt Tunisia Yemen and Libya Each chapter analyzes the historical cultural and political factors that shape the direction of the man on the white horse military elite and the politician In doing so this book reveals the potential impact of the nature of civil military relations on democratization political and economic development and on regional international security Dhirendra Vajpeyi and Glen Segell discuss and critique the current models and literature on civil military relations The innovative framework and careful choice of case studies presented in a jargon free accessible style makes this book attractive to scholars and students of civil military relations and development studies as well as policymakers

War in Modern China Harold M Tanner, 2025-09-30 This book offers comprehensive coverage of China's military history from the Qing dynasty 1644 1912 to present China has become one of the great world powers of the twenty first century As a result Chinese leaders and observers outside of China alike seek to explain China's strategic thought and action In doing so they routinely refer to China's military history This volume examines this history beginning with the Qing dynasty's era of imperial expansion and subsequent decline continuing with the wars against foreign aggression and internal uprisings of the nineteenth century the revolutionary overthrow of the Qing in 1911 and seemingly constant wars of the first half of the twentieth century and concluding with the Chinese Communist Party's use of military power from 1950 to present This history is generally presented as a narrative of imperial greatness followed by a century of national humiliation followed by a recovery of national wealth and power under Communist Party leadership While acknowledging this narrative Harold Tanner digs deeper to reveal a fundamental continuity of interests underlying Chinese strategic thinking from the Qing to the present while also showing how the theory and practice of war in China changed over time as Chinese political and military leaders wrestled with tremendous challenges drawing on foreign sources as well as their own cultural heritage to seek new solutions Both engaging and timely *War in Modern China A Military History* is essential reading for students scholars and enthusiasts of Chinese and global military history
