Homeric Contexts Franco Montanari,Antonios Rengakos,Christos C. Tsagalis,2012-04-26 This volume aims at offering a critical reassessment of the progress made in Homeric research in recent years focussing on its two main trends Neanalysis

and Oral Theory Interpreting Homer in the 21st century asks for a holistic approach that allows us to reconsider some of our methodological tools and preconceptions concerning what we call Homeric poetry The neoanalytical and oral booms which have to a large extent influenced the way we see Homer today may be re evaluated if we are willing to endorse a more flexible approach to certain scholarly taboos pertaining to these two schools of interpretation Song traditions formula performance multiformity on the one hand and Motivforschung Epic Cycle on the other may not be so incompatible as we often tend to think *I'll Be Your Mirror* Kenneth Goldsmith,2004-07-07 Each of the 30 never before published

Architecture and Ritual explores how the varied rituals of everyday life are framed and defined in space by the buildings which we inhabit It penetrates beyond traditional assumptions about architectural style aesthetics and utility to deal with something more implicit how buildings shape and reflect our experience in ways of which we remain unconscious Whether designed to house a grand ceremony or provide shelter for a daily meal all buildings coordinate and consolidate social relations by giving orientation and focus to the spatial practices of those who use them Peter Blundell Jones investigates these connections between the social and the spatial providing critical insights into the capacity for architecture to structure human ritual from the grand and formal to the mundane This is achieved through deep readings of individual pieces of architecture each with a detailed description of its particular social setting and use The case studies are drawn from throughout architectural history and from around the globe each enabling a distinct theoretical theme to emerge and showing how social conventions vary with time and place as well as what they have in common Case studies range from the Nuremberg Rally to the Centre Pompidou and from the Palace of Westminster to Dogon dwellings in Africa and a Modernist hospital In considering how all architecture has to mesh with the habits beliefs rituals and expectations of the society that created it the book presents deep implications for our understanding of architectural history and theory It also highlights the importance for architects of understanding how buildings frame social space before they prescribe new architectural designs of their own The book ends with a recent example of user participation showing how contemporary user interest and commitment to a building can be as strong as ever The Outlaw's Return & The Protector Victoria Bylin,Carla

Good News for Moderns Nero James Pruitt, 2015-06-27

There are many ways to be a Christian. In *Good News for Moderns*, author Nero James Pruitt shows that within the pages of the New Testament, there is room for a diversity of Christianities. This is a diversity that is not talked about often but when properly understood, expands the perception of what a Christian is. Consider the words of Justin Martyr, the second-century Christian writer recognized as a saint by the Catholic Church, the Anglicans, and the Eastern Orthodox in about 150 AD. We are taught that Christ is the first-born of God, and we have shown that He is the reason word of whom the whole human race partake. And those who live according to reason are Christians, even though they are counted atheists. Such were Socrates and Heraclitus among the Greeks, and those like them. Consider the words of John Adams, the second President of the United States, in 1816: "The Ten Commandments and the Sermon on the Mount contain my religion." Consider the words of Bill Clinton, the forty-second President of the United States, in 1995: "I had absorbed enough of my church's teachings to know that I was a sinner and to want Jesus to save me." Finally, consider the words of the writer of the small New Testament Book of III John: "Whoever does good is from God." *Good News for Moderns* is based on Pruitt's reading of the scriptures and over one hundred authors of various points of view. In our busy time, it is brief, slightly more than one hundred thousand words, supplemented by slightly less than one hundred thousand words of end notes. It recognizes that human life moves by fast in what seems like an infinity of time and space, and the book closes this way: "By listing many who have come before us and the immensity of time and space, I have underscored the brevity of our lives because, as a Psalmist taught, recognizing our own mortality is the path to wisdom."
