

Explaining Electoral Choice: The Valence Politics Model

- Major variables in valence politics model of electoral choice are:
- Leader Images – key heuristic
- Partisan attachments - key heuristic, dynamic properties
- Evaluations of parties' actual and anticipated performance on 'valence' issues - the economy, public service delivery, and national and personal security. These are issues where there is strong consensus on the ends of policy, and political debate concerns 'who' and 'how', not 'what'.

Party Politics Electoral Choice In An

**Michael Marsh, David M.
Farrell, Theresa Reidy**

Party Politics Electoral Choice In An:

Welfare Democracies and Party Politics Philip Manow, Bruno Palier, Hanna Schwander, 2018-04-13 Europe's political landscapes are in turmoil and new radical parties challenge the established political order. This book locates Europe's contemporary challenges within the longer economic and political trajectories of its welfare democracies. The book argues that it is imperative to understand the specific structures of political competition and voter party links to make sense of the political and economic turmoil of the last decades. In four distinct European welfare democracies (Nordic, Continental, Southern, and Anglo-Saxon), the political economy, the party system, and the structure of the political space are co-determined in a specific way. Accordingly, different packages of policies and politics and distinct patterns of alignment between core electoral groups and political parties exist in the four welfare democracies and shape the reactions of European welfare democracies to the current turmoil. This volume provides an analytical framework that links welfare states to party systems, combining recent contributions to the comparative political economy of the welfare state and insights from party and electoral politics. It states three phenomena. First, concerning electoral politics, the book identifies a certain homogenization of European party systems, the emergence of a new combination of leftist socio-economic and rightist socio-cultural positions in many parties, and finally the different electoral success of the radical right in the north of Europe and of the radical left in the south. Secondly, the contributions to this book indicate a confluence toward renewed welfare state support among parties and voters. Thirdly, it demonstrates that the Europeanization of political dynamics combined with incompatible growth models has created pronounced European cleavages.

Making Political Choices Harold D. Clarke, Allan Kornberg, Thomas J. Scotto, 2009-01-01 A timely and important contribution to voting literature. Both Canadians and Americans will develop a better understanding of their neighbours' elections but will also gain many new insights into the politics of their own country.

Larry LeDuc, University of Toronto

Handbook of Party Politics Richard S. Katz, William J. Crotty, 2006-01-26 The Handbook of Party Politics is the first book to comprehensively map the state of the art in contemporary party politics scholarship. This major new work brings together the world's leading party theorists to provide an unrivalled resource on the role of parties in the pressing contemporary problems of institutional design and democratic governance today.

The Handbook of Electoral System Choice J. Colomer, 2016-01-05 The topic of electoral reform is an extremely timely one. The accelerated expansion of the number of new democracies in the world generates increasing demand for advice on the choice of electoral rules. At the same time, a new reformism in well-established democracies seeks new formulae favouring both more representative institutions and more accountable rulers. The Handbook of Electoral System Choice addresses the theoretical and comparative issues of electoral reform in relation to democratization, political strategies in established democracies, and the relative performance of different electoral systems. Case studies on virtually every major democracy or democratizing country in the world are included.

Political Choice Matters Geoffrey Evans, Nan Dirk Graaf, 2013-03-28 Studies of the influence of

class and religion on politics often point to their gradual decline as a result of social change Backed up by extensive evidence from 11 case studies and a 15 country pooled analysis the editors argue instead that the supply of choices by parties influences the extent of class divisions political choice matters **Political Choice in Britain** Harold D. Clarke, 2004 Why do people vote as they do Indeed why do they vote at all What do they think about elections and democracy This book addresses these questions by focusing on the explanatory power of rival sociological and individual rationality models

Citizens, Context, and Choice Russell J. Dalton, Christopher J. Anderson, 2010-12-02 A large body of electoral studies and political party research argues that the institutional context defines incentives that shape citizen participation and voting choice With the unique resources of the Comparative Study of Electoral Systems this book provides the first systematic evaluation of this topic A distinguished international team of electoral scholars finds that the institutional context has only a modest impact on citizen political choices compared to individual level factors Furthermore the formal institutional characteristics of electoral systems that have been most emphasized by electoral studies researchers have less impact than characteristics of the party system that are separate from formal institutions Advanced multi level analyses demonstrate that contextual effects are more often indirect and interactive and thus their effects are typically not apparent in single nation election studies The results have the potential to reshape our understanding of how the institutional framework and context of election matters and the limits of institutional design in shaping citizen electoral behavior British Elections & Parties Review Roger Scully, Justin Fisher, Paul Webb, David Broughton, 2022-03-01 First published in 2004 this is the fourteenth annual volume published under the auspices of the Elections Public opinion and Parties EPOP specialist group of the Political Studies Association PSA of the United Kingdom The 2003 September Cardiff conference was distinguished by the First Minister for Wales Rt Hon Rhodri Morgan AM This is a collection of twelve papers from the conference and a reference section *Power and Choice* W. Phillips Shively, David Schultz, 2022-04-13 A truly comparative introduction to political science that reflects the diversity of approaches to the discipline Power Choice offers an in depth look into the nuances of politics through the analysis of collective choices for a group or state through the use of power Organized topically and using extended case examples from around the world Power Choice provides undergraduate students with a clear and engaging introduction to political science and comparative politics The 16th Edition has been updated to address the issues raised by the covid 19 pandemic as well as the impact the Trump and Biden presidencies have had so far upon the world and its democracies including challenges in states such as Hungary where illiberal democracy and nationalism are on the rise The authors have also included discussion of the impact of the death of George Floyd upon race relations in America and how issues such as growing inequality are impacting politics This edition adds examination of women s economic development and the rising importance of LGBTQ issues globally **British Elections & Parties Review** Philip Cowley, David Denver, Justin Fisher, Andrew Russell, 2014-05-12 The British Elections and Parties series publishes research on parties

elections and voting behaviour in Britain providing analyses of current and historical developments It is produced under the auspices of the Political Studies Association s Election Public Opinion and Parties study group Volume 9 includes research based around four themes electoral reform partisanship and voting parliamentary behaviour and the attitudes of the young It provides a source of data on public opinion polls a summary of local election results UK referendums key economic indicators political parties and a chronology of major political events in 1998

Party Politics in Post-communist Russia John Lowenhardt,2013-01-11 Political parties are the fabric of democratic politics In 1991 a new Russia emerged after seven decades of one party dictatorship claiming to be on the road towards democracy In this volume the authors analyse the many contradictions dilemmas and paradoxes of reconstituting free party politics and democratic rule in a severely traumatized country Frequently from a comparative perspective they deal with a range of topics from the behaviour of the new parties in parliament the role of ideology in cementing party organizations to the character and prospects of the transient Russian party system

Party System Change, the European Crisis and the State of Democracy Marco Lisi,2018-08-06 Party systems are crucial elements for the functioning of political systems and representative democracies With several European countries experiencing significant changes recently it is necessary to update our knowledge This volume analyses party system changes in Europe in the 21st century by considering several dimensions such as interparty competition the cleavage structure electoral volatility and the emergence of new actors The book describes the principal continuities and changes in party systems in Europe analyzes the main explanations for these trends and assesses the impact of the crisis on the patterns observed By considering a wide range of Western and Eastern European countries and focusing on the parameters of party system change this book seeks to fill an important gap in the literature through a comparative analysis of the evolution of party systems in Europe over the last decades This book will be of key interest to scholars and students of political parties party systems and politics electoral behavior as well as more broadly to European politics comparative politics political representation and the quality of democracies

Christianity and Party Politics Martin Steven,2010-12-09 Christianity and Party Politics aims to discuss and evaluate the contemporary relationship between party politics and religion The book focuses on the important role of the Church in both electoral politics and public policy formulation in the twenty first century and argues that contrary to the established secularisation argument generally applied in Europe religion continues to be a powerful influence particularly within British politics Providing a valuable and long overdue contribution to the field this work will provide readers with a detailed knowledge of how the worlds of politics and religion interact

Australian Constitutional Law Luke Beck,2024-01-04 Australian Constitutional Law Concepts and Cases provides an accessible introduction for law students integrating theory and doctrine

The post-crisis Irish voter Michael Marsh,David M. Farrell,Theresa Reidy,2018-08-31 This is the definitive study of the Irish general election of 2016 the most dramatic election in a generation which resulted in the worst electoral outcome for Ireland s established parties the most fractionalized party

system in the history of the state and the emergence of new parties and groups These outcomes follow a pattern seen across a number of Western Europe s established democracies in which the deep crisis of the Great Recession has wreaked havoc on party systems The objective of this book is to assess this most extraordinary of Irish elections both in its Irish and wider cross national context With contributions from leading scholars on Irish elections and using a unique dataset the Irish National Election Study 2016 this volume explores voting patterns at Ireland s first post crisis election and it considers the implications for the electoral landscape and politics in Ireland

Political Parties and Democratic Linkage Russell J. Dalton, David M. Farrell, Ian McAllister, 2011-09-29 Political Parties and Democratic Linkage examines how political parties ensure the functioning of the democratic process in contemporary societies Based on unprecedented cross national data the authors find that the process of party government is still alive and well in most contemporary democracies

Personalization of Politics and Electoral Change D. Garzia, 2019-03-27 Using an innovative framework for the study of voting behavior in parliamentary democracies this book sheds new light on the ongoing personalization of politics The analysis makes use of national election study data from Britain Germany and The Netherlands and shows that party leaders can often be the difference between victory and defeat

The End of British Party Politics? Roger Awan-Scully, 2018-04-05 Elections ask voters to choose between political parties But voters across the UK are increasingly being presented with fundamentally different and largely disconnected sets of political choices This book is about this hollowing out of a genuinely British democratic politics how and why it has occurred and why it matters Electoral choices across Britain became increasingly differentiated along national lines over much of the last half century In 2017 for the second general election in a row four different parties came first in the UK s four nations UK voters are increasingly faced with general election campaigns that are largely disconnected from each other At the same time voters acquire much of their information about the election from news media based in London that display little understanding of these national distinctions The UK continues to elect representatives to a single parliament But the shared debates and sets of choices that tie a political community together are increasingly absent Separate national political arenas and agendas still have to interact but in some respects the House of Commons increasingly resembles the European Parliament whose members are democratically chosen but from a disconnected series of separate national electoral contests This is deeply problematic for the long term unity and integrity of the UK

Democratic Politics and Party Competition Judith Bara, Albert Weale, 2006-09-27 This new book introduces innovative research on democracy from the leading Comparative Manifestos Project CMP It details the key achievements of the project to date illustrates how its findings may be applied lays out the future challenges it faces and examines how the field as a whole can advance It also presents a special assessment of the dimensionality of party competition presenting ways in which research can be extended and related to broader approaches in Political Science and Theory Although CMP research is widely used and constitutes the major comparative data set on party positions and

ideological location it is also subject to challenge The volume therefore provides the reader with a clear sense of the key debates and questions surrounding its work This volume also honours the life time achievement of Professor Ian Budge who has provided distinguished intellectual leadership for the CMP over the last twenty five years This is an essential point of reference for all comparative research on the functioning of democracies This book will be of great interest to all students and scholars of politics and of democracy in particular Electoral Rules and Electoral Behaviour Ruth Dassonneville, Marc Hooghe, Michael S. Lewis-Beck, 2018-12-07 Across representative democracies there is a strong variation in the rules that govern the electoral process A classic insight in political science is that these rules e g the presence of a majoritarian or a proportional system have a profound effect on the way a democracy functions We know less however about the way voters actually respond to these electoral rules This kind of effect presupposes that voters not only are aware of the electoral system but also that they adapt to the incentives offered by the system In this volume a group of international scholars investigate whether this is indeed the case The various chapters in this volume deal with the effect of proportionality mixed member systems compulsory voting and preferential voting The chapters are based on recent data and state of the art methods The introduction confronts the findings of the various chapters with the allegedly universal validity of vote choice models in the literature The research presented in this volume mainly deals with elections in Europe but the findings speak to the broader community of electoral scholars The chapters originally published as a special issue in West European Politics

Getting the books **Party Politics Electoral Choice In An** now is not type of challenging means. You could not unaided going gone books increase or library or borrowing from your contacts to open them. This is an unconditionally simple means to specifically acquire lead by on-line. This online pronouncement Party Politics Electoral Choice In An can be one of the options to accompany you subsequently having other time.

It will not waste your time. take me, the e-book will entirely sky you further event to read. Just invest tiny period to door this on-line revelation **Party Politics Electoral Choice In An** as capably as evaluation them wherever you are now.
