Fein, 2021-10-21 The undisputed intellectual leadership of Octavio Paz not only in Mexico but throughout Spanish America rests on achievements in the essay and in poetry In the field of the essay he is the author of more than twenty five books on subjects whose diversity esthetics politics surrealist art the Mexican character cultural anthropology and Eastern philosophy to cite only a few is dazzling In poetry his creativity has increased in vigor over more than fifty years as he has explored the numerous possibilities open to Hispanic poets from many different sources The bridge that joins the halves of his writing is a concern for language in general and for the poetic process in particular Toward Octavio Paz defines this process of creation

through a close examination of the books that represent the summit of the poet's development three long poems and three collections It is intended for readers of varied poetic experience who are approaching Paz's work for the first time By studying the relationship of the parts of the poem particularly structure and theme Fein traces the poet's growth through approaches to the reader each embodied in a separate work From the divided circularity of Piedra de sol through the intensification of the subject of Salamandra the multiple meanings of Blanco the polarities of Ladera este and the literary solipsism of Pasado en claro to the silences of Vuelta Paz has shaped his audience's responses to his work through suggestion rather than control The result is not only a new poetry but a new receptivity

The Writing in the Stars Rodney Williamson, 2007-01-01 Born in Mexico City in 1914 writer poet and diplomat Octavio Paz won the Nobel Prize for Literature in 1990 eight years before his death in 1998 The Writing in the Stars explores Paz's life and ideas by establishing a dialogue between the structure and recurring images of his major poems and the ideas of Carl Jung Although other literary critics have pointed to Jungian concepts in Paz a comprehensive study on the subject has yet to be undertaken Rodney Williamson takes up this challenge adopting a Jungian perspective to explore successive phases of Paz's poetry Williamson illustrates how archetypal images infuse Paz's early poetry and his surrealist period and shows how the circular structure of Paz's longer poems such as Piedra de sol and Blanco are based on the Eastern sacred circle or mandala a major archetype of psychic wholeness in Jung He argues that a grasp of the psychological importance of Jung's archetypes is essential to understanding the various syntheses of creative truth and existence sought by Paz at different defining moments of his career as a poet The Writing in the Stars will prove fascinating to anyone interested in Latin American literature Jungian psychology or critical theory

Octavio Paz, Roberto Sánchez Benítez, 2020-10-29 Octavio Paz Ontology and Surrealism discusses poet Octavio Paz 1914 1998 one of Mexico's most controversial intellectuals Over several decades Paz has been celebrated for his impact on literature and culture as a poet as well as an essayist and he is recognized as a great

thinker and as a student of German ontology and phenomenology Roberto Sanchez Benitez analyzes in detail Paz's training within the European philosophical thinking of the twentieth century as well as in the artistic avant garde to illustrate the way in which philosophical anthropological linguistic sociological literary and artistic proposals enriched his work and Mexican culture during the post revolutionary period Sanchez Benitez posits that Paz moved from a phenomenological ontology to a historicism of the human condition wherein morality politics and the arts all reside in an ideological context where dogmatism was imposed in the face of a lack of internal criticism This book explores the themes of the poetic act that Paz associated with his ontological and surrealist readings leading up to when they were transformed by his experience in India and the assimilation of Eastern philosophies along with going through a set of Western proposals relating to love eroticism and art Scholars of literature philosophy Latin American Studies and history will find this book particularly useful
