## **Pass The Word 50 Years Of Wycliffe Bible Translators:**

**Pass the Word** Wycliffe Bible Translators, 1984      *Toward a Science of Translating?* Stefan Felber, 2025-03-27 Eugene A Nida is one of the pioneers and founders of modern translation theory coining the terms dynamic equivalence and formal equivalence and energetically promoting the former though in his latter years preferring the term functional equivalence Originally formulated for the Bible Translation efforts amongst people groups without the Bible Nida's theories of translation have also been widely influential in Translation Studies making this presentation of Eugene A Nida's life 1914-2011 and assessment of his works especially timely and significant Stefan Felber is a German Old Testament scholar former seminary professor and author of the German only *Wesen und Würde des Wortes Biblisch theologische Grundlagen für das Verständnis von Sprache und Kommunikation* *The Nature and Dignity of the Word* *Biblical Theological Foundations for Understanding Language and Communication* in *Zwischen Babel und Jerusalem* *Aspekte von Sprache und Übersetzung* among other works As such he is uniquely qualified to offer this fair minded and masterful yet critical evaluation of Nida's model of translation doing so from a rich variety of disciplines including exegesis theology philology and philosophies of language Whether one agrees or disagrees with either Nida or Felber I highly recommend this rigorous and wide ranging exposition for advancing informed dialogue and promoting further understanding and advances in Translation Studies Professor Tom McCormick Tyndale University College Toronto Although the theory of Dynamic or Functional Equivalence was the most widely used method in global Bible translation after the Second World War there has been no comprehensive study of its foundations and how it was developed by Eugene Nida Filling this gap is one of the great merits of Felber's study Felber while showing great respect for Nida critically evaluates Dynamic Equivalence from various perspectives exegetical theological philosophical and linguistic This multi dimensional nuanced approach provides the reader with thought provoking and helpful insights that further the discussion in important ways Felber's study is a must read for all who deal with language and translation in theology and the church in Bible translation and mission Prof Dr Markus Zehnder Internationale Hochschule Bad Liebenzell Evangelische theologische Fakultät Leuven Ansgarskolen Kristiansand Stefan Felber's *Toward a Science of Translating* is a landmark study in Biblical Translation Theory focussing on Eugene Nida 1914-2011 who for many years was a central figure in the American Bible Society and the United Bible Societies Nida has been described as probably the world's leading scholar on translation and his theory of Dynamic or Functional Equivalence provided a leading paradigm for Bible translators for decades In this thorough analysis of his work and its reception Felber highlights a number of weaknesses as well as some strengths affiliated with Nida's theory promoting translation theory based on reader oriented thought for thought patterns rather than traditional source oriented analysis of textual form and content Felber's evaluation raises a critical question Are facets of the biblical text pertaining to biblical language and hermeneutics theology and the transcendent downplayed in Nida's addressee oriented approach to translation I hope this book will be widely read by translators biblical scholars and

others interested in translation of the Bible Dr Tomas Bokedal Associate Professor of New Testament and Early Christianity NLA University College Norway Docent of New Testament Exegesis Lund University Sweden *Fields of the Lord* Lorraine V. Aragon, 2000-06-01 Religious and ethnic violence between Indonesia's Muslims and Christians escalated dramatically just before and after President Suharto resigned in 1998 In this first major ethnographic study of Christianization in Indonesia Aragon delineates colonial and postcolonial circumstances contributing to the dynamics of these contemporary conflicts Aragon's ethnography of Indonesian Christian minorities in Sulawesi combines a political economy of colonial missionization with a microanalysis of shifting religious ideology and practice *Fields of the Lord* challenges much comparative religion scholarship by contending that religions like contemporary cultural groups be located in their spheres of interaction rather than as the abstracted cognitive and behavioral systems conceived by many adherents modernist states and Western scholars Aragon's portrayal of near tribal populations who characterize themselves as fanatic Christians asks the reader to rethink issues of Indonesian nationalism and modern development as they converged in President Suharto's late New Order state Through its careful documentation of colonial missionary tactics unexpected postcolonial upheavals and contemporary Christian narratives *Fields of the Lord* analyzes the historical and institutional links between state rule and individuals religious choices Beyond these contributions this ethnography includes captivating stories of Salvation Army angels of the forest and nationally marginal but locally autonomous dry rice and coffee farmers These Salvation Army soldiers make Protestantism work on their own ecological moral and political turf maintaining their communities and ongoing religious concerns in the difficult terrain of the Central Sulawesi highlands **A New Vision for Missions** William Lawrence Svelmoe, 2008-10-12 A deep biography of the pioneering missionary William Cameron Townsend **Missions and Conversions** T. Pearson, 2009-06-22 This study offers a fresh reading of religious conversion by analyzing a variety of missionaries that sought to influence the Montagnard Dega refugee Thomas Pearson uses ethnographic and archival research to tell the story of cross cultural contact in the highlands during the Vietnam War Christian conversion refugee exile and the formation of the Dega refugee community in the United States His insightful study considers not just evangelicals and Catholics but humanitarian workers in the highlands refugee resettlement volunteers in the United States and the American Special Forces soldiers This book makes the case that the Dega have appropriated the anthropological and religious discourses of this disparate group of missionaries to recreate themselves through a multivalent conversion Earthen Vessels Joel A. Carpenter, Wilbert R. Shenk, 2012-12-01 Contrary to popular impressions the days of the missionary are far from over North American churches send more missionaries than ever before and 90 percent of them are evangelicals who are not affiliated with the mainline Protestant mission boards The first major historical treatment of the distinctly evangelical wing of twentieth century American missions *Earthen Vessels* truly breaks new ground Covering territory that missions histories have scarcely explored yet the distinguished historians contributing to this volume portray

the North American including Canadian evangelical missionary enterprise from the Student Volunteer Movement to the very recent past The book traces the influences of premillennial eschatology the fundamentalist modernist controversies the rise of independent missions and conservative denominational boards the role of World War II and America's rise to world power the recent development of a distinctly evangelical theology of missions and the growing influence of the Two Thirds World's evangelical leaders While this volume certainly does not contain the last word on these subjects in a number of areas it does offer very nearly the first look With its fresh subject matter and new historical interpretations *Earthen Vessels* will interest church history scholars and students missionaries and ministers and any others who wish to know more about American missions

[The Bible in Africa](#) Gerald West, Musa Dube, 2021-10-01 Although the arrival of the Bible in Africa has often been a tale of terror the Bible has become an African book This volume explores the many ways in which Africans have made the Bible their own The essays in this book offer a glimpse of the rich resources that constitute Africa's engagement with the Bible Among the topics are the historical development of biblical interpretation in Africa the relationship between African biblical scholarship and scholarship in the West African resources for reading the Bible the history and role of vernacular translation in particular African contexts the ambiguity of the Bible in Africa the power of the Bible as text and symbol and the intersections between class race gender and culture in African biblical interpretation The book also contains an extensive bibliography of African biblical scholarship In fact it is one of the most comprehensive collections of African biblical scholarship available in print This publication has also been published in paperback please click here for details

[Die Geschichte der christlichen Mission](#) Klaus Wetzels, 2020-04-01 Klaus Wetzels zeichnet in dieser Gesamtdarstellung die Geschichte der weltweiten Ausbreitung des Christentums umfassend und detailreich nach chronologisch geordnet von der Ausbreitung des Christentums in den ersten sechs Jahrhunderten in Asien Europa und Afrika über die Mission im Mittelalter und die Ausbreitung des Christentums vom 16 bis zum 18 Jahrhundert mit ersten Ansätzen zur protestantischen Weltmission bis hin zur weltweiten Mission vom 19 bis zum 21 Jahrhundert Dabei greift er missionstheologische Fragen dort auf wo sie historisch entstanden sind und fragt nach der Motivation zur Mission bzw zur Bekehrung ebenso wie nach der Bedeutung von Kontextualisierungs und Transformationsprozessen In einem Schlusskapitel stellt er die Frage nach einer möglichen theologischen Interpretation und Bedeutung der Geschichte Nur wer die Missionsgeschichte kennt kann die großen Veränderungen verstehen die die Christenheit derzeit erlebt Vor einem halben Jahrhundert lebten noch 58 % aller Christen in der westlichen Welt heute nur noch ein Drittel Die Zukunft des Christentums liegt in Asien Afrika und Lateinamerika Die Ursachen dieses Umbruchs sind vielfältig aber einer der Hauptfaktoren der zu dieser Umwälzung geführt hat ist in der Geschichte der Ausbreitung der Christenheit der Mission zu suchen Die Lektüre dieser Geschichte der christlichen Mission bietet nicht nur einen umfassenden Überblick über die Missionsgeschichte sondern hilft auch die aktuellen Entwicklungen in der Christenheit einordnen zu können

**Missionaries of the State** Todd Hartch, 2006 An account of American missionary activity abetted by Mexican nationalists L zaro C rdenas president of Mexico 1934 40 is widely remembered as the most nationalistic and populist Mexican executive and was demonized by foreign investors scandalized by his nationalization programs particularly in the oil industry Less well known are his efforts to Mexicanize indigenous populations and to reduce the power of the conservative Catholic hierarchy by encouraging anti clericalism and Protestant evangelical activity Common aims therefore united C rdenas and Cameron Townsend an American Protestant missionary With the support of C rdenas and like minded Mexican officials Townsend formed the Summer Institute of Linguistics or SIL a training school for Protestant missionaries who undertook to learn indigenous languages and to translate the Bible into those tongues The official justification of this project was that the Indians new vernacular literacy would serve as a bridge to learning Spanish and thus to assimilation into the larger national population If at the same time Townsend s linguists also served as evangelists of a fundamentalist form of Protestantism so much the better in doing so the SIL effort would undermine the Catholic hierarchy which was seen as a rival of the Mexican state and its plans for secular national development This unusual yet enduring alliance of a national government not known for friendship to foreigners and an unlikely collection of North Americans who united scholarship political savvy and religious zeal is this book s topic The author relates the development of the SIL from its close association with official Mexico in the early 1930s to the late 1970s when a growing anti SIL alliance led by a new generation of Mexican anthropologists induced the Mexican government to curtail its support for the SIL Hartch contributes objectivity to a topic that has been dominated by the polemics of either SIL supporters or opponents recognizing the self interest that actuated all parties but also acknowledging that SIL whether or not it meant to empowered and enriched many indigenous communities through the provision of literacy
